Accounting

Degree Type: Bachelor of Science (B.S.)
Program Length: 4 years (120 credit hours)

What Can You Do With an Accounting Degree?

With skills in accounting, tax preparation, bookkeeping and audit services, you can work for professional accounting service firms or accounting departments within industry, business or government. Some accountants specialize in assurance services or risk management, while others specialize in specific industries such as health care.

- **Business Analyst**
- **Certified Public Accountant (CPA)**
- **Financial Planner**
- **Forensic Accountant**
- **Internal, External or Information Technology Auditors**
- **Public, Management or Government Accountant**

MCNEESE STATE UNIVERSITY

WHY MCNEESE?

Here are just a few reasons to make McNeese your first choice...

Applied Learning:

Gain practical experience with public accounting or business firms in the Lake Area. Or, complete an internship closer to home over the summer. Internships provide valuable work experience that helps you qualify for professional certification.

Experienced Faculty:

From CPAs to practicing tax attorneys, faculty share their passion and expertise with undergraduate students and create additional learning and networking opportunities outside of the classroom.

Scholarships and Financial Aid:

The College of Business has a number of scholarships available to accounting majors, including the Ben Terrell Memorial, E.C. Schindler Memorial and Lake Charles Society of LA CPA scholarships.

Excellence With a Personal Touch:

Thanks to small class sizes with low student-to-faculty ratios, McNeese faculty can provide personalized academic and career advising. Accounting majors also benefit from available student support services, including the Career and Student Development Center, the ACLC Tutoring Center and the Write to Excellence Center.

Department of Business Disciplines

Our department offers a well-rounded academic experience, with a solid foundation of knowledge in general education, business, finance and accounting, as well as coursework in specialty accounting fields such as managerial, financial, tax and audit.

Become Fluent in the Language of Business

If you can understand and analyze numbers from an accounting standpoint, you can work in almost any business or industry. A degree in accounting becomes more valuable as the U.S. and global economies grow. Accountants play an important role in improving operations, reducing costs, enhancing revenues and increasing profits.

Advanced Certification

Graduate prepared to work in local industry through the College of Business' special certification in Liquid Natural Gas (LNG) Business.

Accounting Degree Concentrations

Professional Accountancy and Exam Preparation

If you're interested in the specialized field of accountancy, this concentration provides specific courses that help you prepare for the CPA exam and other accounting-related professional exams. Certification can help you rise above the competition for jobs.

Taxation

This concentration exposes you to the diverse possibilities of careers as a finance professional in tax service.
