McNEESE STATE UNIVERSITY

FIVE-YEAR STRATEGIC PLAN

FY 2017-2018 through FY 2021-2022

July 1, 2016
Vision Statement:
The vision of McNeese State University is to play an active leadership role in the civic and economic renaissance likely to transform Southwest Louisiana over the next five years. Through the promotion of innovative teaching and learning methodologies, regional partnerships, service-learning opportunities, applied research, cultural engagement, and athletic excellence, McNeese will be an active leader in the civic and economic renaissance likely to transform Southwest Louisiana over the next five years.

Mission Statement:
McNeese State University is primarily a teaching institution whose mission is successful education of the undergraduate students and services to the employers and communities in its region. McNeese uses a traditional admissions process based on courses completed, GPA, and standardized test scores.

Audiences
McNeese is responsible for serving:

- Residents of southwest Louisiana who have completed high school and are seeking either a college degree or continuing professional education;
- Two-year college transfer students, particularly those from Sowela Technical Community College;
- Employers in the region, both public and private, school districts, health care providers, local governments, and private businesses;
- Economic development interests and regional entrepreneurs; and
- The area community, by providing a broad range of academic and cultural activities and public events.

Array of Programs and Services

- An array of liberal arts programs at the baccalaureate level - arts and humanities, social sciences, natural sciences - appropriate to a teaching institution with a predominately undergraduate student body.
- Baccalaureate programs in education, engineering, business, nursing, selected allied health fields, mass communication, and criminal justice.
- Masters programs primarily related to education, engineering, arts and sciences, nursing, and business.
d. Support for area K-12 schools seeking college general education courses for advanced students and assistance in ensuring that their graduates are college-and career-ready.
e. Services specifically designed to meet the needs of regional economic development (small business development, support for entrepreneurs, problem-solving).

Special Programs/Features
a. Programs in innovation, entrepreneurship, and small business development supported by the Southwest Entrepreneurial and Economic Development Center.
b. Agricultural and related sciences with opportunities for experiential learning at three working farms and the Center for Advancement of Meat Processing and Production.
c. Custom academic programs and professional certifications integrated with area business and industry.
d. Applied undergraduate research partnerships in engineering, sciences, allied health and the Louisiana Environmental Research Center.
e. Cultural events are designed to connect McNeese with the regional arts community and K-12 education.

Philosophy Statement:
McNeese State University demonstrates Excellence with a Personal Touch in its mission to provide quality education, lifelong learning opportunities, and cultural experiences for students, faculty, staff, and community members. McNeese allocates human, intellectual, and fiscal resources responsibly and effectively in support of the core values of academic excellence, student success, fiscal responsibility, and university/community linkages. The University demonstrates accountability through its policies, procedures, decision-making processes, and accreditation efforts.
Goals and Objectives:

Goal I: To Increase Opportunities for Student Access

Objective I.1: Decrease the fall full term headcount enrollment at McNeese State University at the Fall 2015 baseline level of 8170 to 8020 in the Fall 2020.

Links: State Outcome Goals -- Youth Education, Diversified Economic Growth
       Children’s Budget Link: Not applicable
       Human Resource Policies Beneficial to Women and Families Link: Not applicable
       Other Links: (TANF, Tobacco Settlement, Workforce Development Commission, or Other: Closely linked to objective in Master Plan for Postsecondary Education

Strategy I.1.1: Recruit better academically prepared students.

Strategy I.1.2: Develop collaborations with two-year schools to increase transfer rates.

Strategy I.1.3: Enter into dual/cross/concurrent enrollment collaborations with community colleges.

Strategy I.1.4: Develop need-based scholarship program to improve access and to encourage attendance.

Strategy I.1.5: Implement or enhance initiatives geared towards improving graduation and retention rates.

Performance Indicators:

Output: Number of students enrolled (full term) in the University of Louisiana System

Outcome: Percent change in the number of students enrolled (full term) in the University of Louisiana System

Source: Board of Regents Statewide Student Profile System data
Goal II: To Increase Opportunities for Student Success

Objective II.1: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at McNeese State University by 0.8 percentage points from the Fall 2014 cohort (to Fall 2015) baseline level of 66.5% to 67.3% by Fall 2020 (retention of Fall 2019 cohort).

Strategy I.1.1: Recruit better academically prepared students

Strategy I.1.2: Develop need-based scholarship programs to improve retention, progression and graduation.

Strategy I.1.3: Implement or enhance initiatives geared towards improving retention, progression and graduation rates.

Performance Indicators:

Output: Percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at the same institution of initial enrollment

Outcome: Percentage point change in the percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at the same institution of initial enrollment

Source: Board of Regents Statewide Student Profile System data
Goal II: To Increase Opportunities for Student Success

Objective II.2: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at McNeese State University of initial enrollment by 3 percentage points from the Fall 2013 cohort (to Fall 2015) baseline level of 58.7% to 61.5% by Fall 2020 (retention of Fall 2018 cohort).

Human Resource Policies Beneficial to Women and Families Link: Not applicable
Other Links: Board of Regents Master Plan for Postsecondary Education

Strategy I.1.1: Recruit better academically prepared students
Strategy I.1.2: Develop need-based scholarship programs to improve retention, progression and graduation.
Strategy I.1.3: Implement or enhance initiatives geared towards improving retention, progression and graduation rates.

Performance Indicators:

Output: Percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at the same institution of initial enrollment

Outcome: Percentage point change in the percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at the same institution of initial enrollment

Source: Board of Regents Statewide Student Profile System data
Goal II: To Increase Opportunities for Student Success

Objective II.3: Increase the institutional statewide graduation rate (defined as a student completing an award within 150% of “normal time”) from the baseline rate (Fall 2008 cohort for all institutions) of 43.76% to 46.00% by AY 2019-20 (Fall 2013 cohort).

Strategy I.1.1: Recruit better academically prepared students

Strategy I.1.2: Develop need-based scholarship programs to improve retention, progression and graduation.

Strategy I.1.3: Implement or enhance initiatives geared towards improving retention, progression and graduation rates.

Performance Indicators:

Output: Number of students enrolled at a Four Year University in LA identified in a first-time, full-time, degree-seeking cohort, graduating within 150% of "normal" time of degree completion from any postsecondary institution in LA.

Outcome: Percentage of students enrolled at a Four Year University identified in a first-time, full-time, degree-seeking cohort, graduating within 150% of "normal" time of degree completion from any postsecondary institution in LA.

Source: Board of Regents Statewide Graduation Rate
Goal II: To Increase Opportunities for Student Success

Objective II.4: Increase the total number of baccalaureate degree completers in a given academic year from the baseline year number of 1063 in 2014-15 academic year to 1144 in academic year 2019-20 at McNeese. Students may only be counted once per award level.

Strategy I.1.1: Recruit better academically prepared students

Strategy I.1.2: Develop need-based scholarship programs to improve retention, progression and graduation.

Strategy I.1.3: Implement or enhance initiatives geared towards improving retention, progression and graduation rates.

Performance Indicators:

Output: Number of completers at baccalaureate degree level

Outcome: Percentage change from baseline

Source: Board of Regents Statewide Student Profile System
Goal II: To Increase Opportunities for Student Success

Objective II.5: Decrease the total number of graduate degree completers in a given academic year from the baseline year number of 256 in 2014-15 academic year to 227 in academic year 2019-20 at McNeese. Students may only be counted once per award level.

Appendix A

Process Documentation

I. A brief statement identifying the principal clients and users of each program and the specific service or benefit derived by such persons or organizations:

The principal beneficiaries of the University’s programs are the 8162 students enrolled in university courses and degree programs. These students come principally from Southwest Louisiana. Secondary beneficiaries are the citizens of the parishes and the state of Louisiana who benefit from the University’s programs, facilities, and the $371 million per year economic impact. The specific services or benefits derived by the students and citizens will be the opportunities for high-quality postsecondary education. The ultimate benefit to the community and prospective employers will be a better-educated and trained citizenry.

II. An identification of potential external factors that are beyond the control of the entity and that could significantly affect the achievement of its goals or objectives:

Potential external factors could include: national, state, and local economic trends; and changes in the level of funding support from the Louisiana Legislature. A change in policy at the federal level can have dramatic effects on postsecondary education, including student financial aid, research and experimentation, telecommunications (distance learning), and related programs.

III. The statutory requirement or other authority for the goals of the plan:

Goal 1: To Increase Opportunities for Student Access
Goal 2: To Increase Opportunities for Student Success

Constitution (Article VIII, Sections 5 (D) 4) – To formulate and make timely revision of a master plan. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes
Constitution (Article VIII, Section 5 (D) 1, 2) – To revise or eliminate existing academic programs and to approve or disapprove new program proposals. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes
Constitution (Article VIII, Section 5 (D) 3) – To study the need for changes in mission of existing institutions. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes

IV. A description of any program evaluation used to develop objectives and strategies.
The Board of Regents is required by the state Constitution to develop and make timely revision of a master plan for higher education. The goals and objectives in this five-year strategic plan were derived from the Regents’ revised Master Plan.

V. **Identification of the primary persons who will benefit from or be significantly affected by each objective within the plan.**  
All goals, all objectives: Students, parents, faculty, employers, and the citizenry of the state

VI. **An explanation of how duplication of effort will be avoided when the operations of more than one program are directed at achieving a single goal, objective, or strategy.**  
For the purposes of Act 1465 of 1997, McNeese State University is a single program. Duplication of effort of more than one program is therefore not applicable.

VII. **Documentation as to the validity, reliability, and appropriateness of each performance indicator, as well as the method used to verify and validate the performance indicators as relevant measures of each program’s performance.**  
See Performance Indicator Documentation attached for each performance indicator.

VIII. **A description of how each performance indicator is used in management decision making and other agency processes.**  
See Performance Indicator Documentation attached for each performance indicator.
Appendix B

Performance Indicator Documentation

Program: McNeese State University

Objective I.1: Decrease the fall full term headcount enrollment at McNeese State University at the Fall 2015 baseline level of 8170 to 8020 in the Fall 2020.

Indicator 1: Number of students enrolled (as of fall full term)

1. What is the type of indicator?
   Output, Key

2. What is the rationale for the indicator?
   Recognition of the importance of Louisiana having an educated citizenry.

3. What is the source of the indicator? How reliable is the source?
   Data will be retrieved from the Board of Regents’ Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?
   The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used. The indicator will be reported at the end of the third quarter. This will allow time for collection, aggregation, and editing of the data.

5. How is the indicator calculated? Is this a standard calculation?
   The method for reporting headcount enrollment is as of the end of the semester (full term). The Regents’ SSPS is a unit record system where each enrolled student, regardless of course load, is counted.
6. **Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.**
   Headcount enrollment refers to the actual number of students enrolled [as opposed to full-time equivalent enrollment (FTE)] which is calculated from the number of student credit hours enrolled divided by a fixed number.

7. **Is the indicator an aggregate or disaggregate figure?**
   This indicator is the aggregate of all enrolled students at McNeese State University.

8. **Who is responsible for data collection, analysis, and quality?**
   Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents’ staff builds a master file for SSPS.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
   No weaknesses. This indicator reflects headcount enrollment and is not the enrollment calculation used for funding or reimbursement calculations.

10. **How will the indicator be used in management decision making and other agency processes?**
    Enrollment drives many management decisions. The size of an institution’s enrollment impacts scheduling, hiring, future planning, program demands, facilities management, etc.
Program: McNeese State University

Objective I.1: Decrease the fall full term headcount enrollment at McNeese State University at the Fall 2015 baseline level of 8170 to 8020 in the Fall 2020.

Indicator 2: Percentage change in the number of students enrolled (as of fall full term) (compared to baseline)

1. What is the type of indicator?
   Outcome, Supporting

2. What is the rationale for the indicator?
   Recognition of the importance of Louisiana having an educated citizenry.

3. What is the source of the indicator? How reliable is the source?
   Data will be retrieved from the Board of Regents’ Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?
   The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.

5. How is the indicator calculated? Is this a standard calculation?
   The method practiced nationwide for reporting headcount enrollment is as of the end of the semester (full term). The Regents’ SSPS is a unit record system where each enrolled student, regardless of course load, is counted.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.
   Headcount enrollment refers to the actual number of students enrolled [as opposed to full-time equivalent enrollment (FTE) which is calculated from the number of student credit hours enrolled divided by a fixed number].

7. Is the indicator an aggregate or disaggregate figure?
   This indicator is the aggregate of all enrolled students at McNeese State University.
8. **Who is responsible for data collection, analysis, and quality?**
Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents’ staff builds a master file for SSPS.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
No weaknesses. This indicator reflects headcount enrollment and is not the enrollment calculation used for funding or reimbursement calculations.

10. **How will the indicator be used in management decision making and other agency processes?**
Enrollment drives many management decisions. The size of an institution’s enrollment impacts scheduling, hiring, future planning, program demands, facilities management, etc.
Program: McNeese State University

Objective II.1: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at McNeese State University by 0.8 percentage points from the Fall 2014 cohort (to Fall 2015) baseline level of 66.5% to 67.3% by Fall 2020 (retention of Fall 2019 cohort).

Indicator 1: Percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at the same institution of initial enrollment

1. What is the type of indicator?
   Output, Key

2. What is the rationale for the indicator?
   Retention rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state’s economy that a higher percentage of students who enroll in a University of Louisiana System university be retained and eventually earn a degree.

3. What is the source of the indicator? How reliable is the source?
   Data will be retrieved from the Board of Regents’ Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?
   The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.

5. How is the indicator calculated? Is this a standard calculation?
   The indicator will be calculated by matching the records of incoming full-time first-time freshmen enrolled in a fall semester to the records of the following (second) fall semester. This is the national standard for the calculation of an institutional retention rate.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.
   The measure only applies to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year. They are tracked over time, to the next Fall semester.
7. **Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all students in a full-time first-time freshmen cohort who remain enrolled in the second fall semester.

8. **Who is responsible for data collection, analysis, and quality?**
Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents’ staff builds a master file for SSPS.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
No weaknesses.

10. **How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.
Program: McNeese State University

Objective II.1: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at McNeese State University by 0.8 percentage points from the Fall 2014 cohort (to Fall 2015) baseline level of 66.5% to 67.3% by Fall 2020 (retention of Fall 2019 cohort).

Indicator 2: Percentage point change in the percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at the same institution of initial enrollment. (from baseline)

1. **What is the type of indicator?**
   Outcome, Supporting

2. **What is the rationale for the indicator?**
   Retention rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state’s economy that a higher percentage of students who enroll in a University of Louisiana System university be retained and eventually earn a degree.

3. **What is the source of the indicator? How reliable is the source?**
   Data will be retrieved from the Board of Regents’ Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. **What is the frequency and timing of collection or reporting?**
   The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.

5. **How is the indicator calculated? Is this a standard calculation?**
   The indicator will be calculated by matching the records of incoming full-time first-time freshmen enrolled in a fall semester to the records of the following (second) fall semester. This is the national standard for the calculation of an institutional retention rate. The percentage of students retained will be compared to the baseline.

6. **Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.**
   The measure only applies to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year. They are tracked over time, to the next Fall semester.
7. **Is the indicator an aggregate or disaggregate figure?**
   This indicator is the aggregate of all students in a full-time first-time freshmen cohort who remain enrolled in the second fall semester. That figure is subtracted from the baseline to get a percentage change.

8. **Who is responsible for data collection, analysis, and quality?**
   Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents’ staff builds a master file for SSPS.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
   No weaknesses.

10. **How will the indicator be used in management decision making and other agency processes?**
    Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.
Program: McNeese State University

Objective II.2: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at McNeese State University of initial enrollment by 3 percentage points from the Fall 2013 cohort (to Fall 2015) baseline level of 58.7% to 61.5% by Fall 2020 (retention of Fall 2018 cohort).

Indicator 1: Percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at the same institution of initial enrollment

1. **What is the type of indicator?**
   Output, Key

2. **What is the rationale for the indicator?**
   Retention rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state’s economy that a higher percentage of students who enroll in a University of Louisiana System university be retained and eventually earn a degree.

3. **What is the source of the indicator? How reliable is the source?**
   Data will be retrieved from the Board of Regents’ Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. **What is the frequency and timing of collection or reporting?**
   The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.

5. **How is the indicator calculated? Is this a standard calculation?**
   The indicator will be calculated by matching the records of incoming full-time first-time freshmen enrolled in a fall semester to the records of the two successive fall semesters. This is the national standard for the calculation of an institutional graduation rate.

6. **Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.**
   The measure only applies to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year. They are tracked over time, to the third Fall semester.
7. **Is the indicator an aggregate or disaggregate figure?**  
This indicator is the aggregate of all students in a full-time first-time freshmen cohort who remain enrolled in the third fall semester.

8. **Who is responsible for data collection, analysis, and quality?**  
Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents’ staff builds a master file for SSPS.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**  
No weaknesses.

10. **How will the indicator be used in management decision making and other agency processes?**  
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.
Program: McNeese State University

Objective II.2: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at McNeese State University of initial enrollment by 3 percentage points from the Fall 2013 cohort (to Fall 2015) baseline level of 58.7% to 61.5% by Fall 2020 (retention of Fall 2018 cohort).

Indicator 2: Percentage point change in the percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at the same institution of initial enrollment. (from baseline)

1. What is the type of indicator?
   Outcome, Supporting

2. What is the rationale for the indicator?
   Retention rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state’s economy that a higher percentage of students who enroll in a University of Louisiana System university be retained and eventually earn a degree.

3. What is the source of the indicator? How reliable is the source?
   Data will be retrieved from the Board of Regents’ Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?
   The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.

5. How is the indicator calculated? Is this a standard calculation?
   The indicator will be calculated by matching the records of incoming full-time first-time freshmen enrolled in a fall semester to the records of the two successive fall semesters. This is the national standard for the calculation of an institutional graduation rate. The rate of freshmen retained to the third Fall will be subtracted from baseline to get the percentage point change.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.
   The measure only applies to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year. They are tracked over time, to the third Fall semester.
7. **Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all students in a full-time first-time freshmen cohort who remain enrolled in the third fall semester.

8. **Who is responsible for data collection, analysis, and quality?**
Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents’ staff builds a master file for SSPS.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
No weaknesses.

10. **How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.
Program: McNeese State University

Objective II.3: Increase the institutional statewide graduation rate (defined as a student completing an award within 150% of “normal time”) from the baseline rate (Fall 2008 cohort for all institutions) of 43.76% to 46.00% by AY 2019-20 (Fall 2013 cohort).

Indicator 1: Number of students enrolled at a Four Year University identified in a first-time, full-time, degree-seeking cohort, graduating within 150% of "normal" time of degree completion from any postsecondary institution in LA.

1. **What is the type of indicator?**
   Output, Support

2. **What is the rationale for the indicator?**
   Graduation rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state’s economy that a higher percentage of students who enroll in a University of Louisiana System university earn a degree.

3. **What is the source of the indicator? How reliable is the source?**
   Data will be retrieved from the Board of Regents statewide graduation rate. Regents collects system schools data and uses this data to compose the statewide graduation rate. This system for collecting institutional graduation rate information has been in existence for over a decade and is considered reliable.

4. **What is the frequency and timing of collection or reporting?**
   The data are gathered annually by the Board of Regents. The Fall 2008 cohort will serve as the baseline.

5. **How is the indicator calculated? Is this a standard calculation?**
   The indicator is the number of students within the cohort who graduate within 150% of normal time, six years for baccalaureate degree students and three years for associate degree students.
6. **Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.**
A cohort refers to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year.

7. **Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all students in the cohort who graduate within 150% of normal time, six years for baccalaureate degree students and three years for associate degree students.

8. **Who is responsible for data collection, analysis, and quality?**
Board of Regents gathers information from every college, university, and technical and vocational institution in the state. They use this data to compose the statewide graduation rate.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
The indicator is a limited measure of an institution’s ability to graduate students. The number of freshmen in a cohort is not the same as the number of freshmen for a given academic semester. The cohort does not include students who are part-time, nor does it include students who enter in the Spring semester. It does not include transfer freshmen. The number of graduates in a cohort is not the same as the number of completers for a given academic year. Tracking of students ends after 150% of normal time, six years for baccalaureate degree students and three years for associate degree students; thus students who graduate after that period are not counted in the graduation rate. Students who enter as transfer students and graduate are not counted in the rate.

10. **How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.
Program: McNeese State University

Objective II.3: Increase the institutional statewide graduation rate (defined as a student completing an award within 150% of “normal time”) from the baseline rate (Fall 2008 cohort for all institutions) of 43.76% to 46.00% by AY 2019-20 (Fall 2013 cohort).

Indicator 2: Percentage of students enrolled at a Four Year University identified in a first-time, full-time, degree-seeking cohort, graduating within 150% of "normal" time of degree completion from any postsecondary institution in LA.

1. What is the type of indicator?
   Outcome, Key

2. What is the rationale for the indicator?
   Graduation rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state’s economy that a higher percentage of students who enroll in a University of Louisiana System university earn a degree.

3. What is the source of the indicator? How reliable is the source?
   Data will be retrieved from the Board of Regents statewide graduation rate. Regents collects system schools data and uses this data to compose the statewide graduation rate. This system for collecting institutional graduation rate information has been in existence for over a decade and is considered reliable.

4. What is the frequency and timing of collection or reporting?
   The data are gathered annually by the Board of Regents. The Fall 2008 cohort will serve as the baseline.

5. How is the indicator calculated? Is this a standard calculation?
   The indicator is the number of students within the cohort who graduate within 150% of normal time, six years for baccalaureate degree students and three years for associate degree students.
6. **Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.**
A cohort refers to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year.

7. **Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all students in the cohort who graduate within 150% of normal time, six years for baccalaureate degree students and three years for associate degree students.

8. **Who is responsible for data collection, analysis, and quality?**
Board of Regents gathers information from every college, university, and technical and vocational institution in the state. They use this data to compose the statewide graduation rate.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
The indicator is a limited measure of an institution’s ability to graduate students. The number of freshmen in a cohort is not the same as the number of freshmen for a given academic semester. The cohort does not include students who are part-time, nor does it include students who enter in the Spring semester. It does not include transfer freshmen. The number of graduates in a cohort is not the same as the number of completers for a given academic year. Tracking of students ends after 150% of normal time, six years for baccalaureate degree students and three years for associate degree students; thus students who graduate after that period are not counted in the graduation rate. Students who enter as transfer students and graduate are not counted in the rate.

10. **How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.
Program: McNeese State University

Objective II.4: Increase the total number of baccalaureate degree completers in a given academic year from the baseline year number of 1063 in 2014-15 academic year to 1144 in academic year 2019-20 at McNeese. Students may only be counted once per award level.

Indicator 1: Number of completers at the baccalaureate degree level

1. **What is the type of indicator?**
   Output, Key

2. **What is the rationale for the indicator?**
   System universities have an obligation to produce a better-educated citizenry. Persons with university baccalaureate degrees are more likely to be productive citizens who earn considerably more income over their lifetimes than high school graduates.

3. **What is the source of the indicator? How reliable is the source?**
   Data will be retrieved from the Board of Regents data reporting system. The data system for collecting institutional data on completers has been in existence for almost three decades and is considered reliable.

4. **What is the frequency and timing of collection or reporting?**
   The needed data are gathered several times per year by the Board of Regents. The time needed for collection, aggregation, and editing of the data results in a lag before reliable reporting can be accomplished. The baseline is AY 2014-2015.

5. **How is the indicator calculated? Is this a standard calculation?**
   The indicator is the sum of all completers at the baccalaureate degree level at an institution within a given academic year. The total includes all awards and certificates at the undergraduate, graduate, and professional levels. However, for four-year universities the figure will not include the awards given at the associate level. This is the state standard for the counting of completers.

6. **Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.**
   Completers is another term for graduates. It will include all students who earn Board of Regents-recognized awards and certificates at the baccalaureate degree level.
7. **Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all students who earn Board of Regents-recognized awards and certificates at the baccalaureate degree within an academic year, excluding associate degrees for four-year universities.

8. **Who is responsible for data collection, analysis, and quality?**
Each university submits the completers data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents’ staff builds a master file.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
There are no limitations or weaknesses.

10. **How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.
Objective II.4: Increase the total number of baccalaureate degree completers in a given academic year from the baseline year number of 1063 in 2014-15 academic year to 1144 in academic year 2019-20 at McNeese. Students may only be counted once per award level.

Indicator 2: Percentage change in the number of baccalaureate degree completers from the baseline year

1. **What is the type of indicator?**
   Outcome, Supporting

2. **What is the rationale for the indicator?**
   System universities have an obligation to produce a better-educated citizenry. Persons with university baccalaureate degrees are more likely to be productive citizens who earn considerably more income over their lifetimes than high school graduates.

3. **What is the source of the indicator? How reliable is the source?**
   Data will be retrieved from the Board of Regents data reporting system. The data system for collecting institutional data on completers has been in existence for almost three decades and is considered reliable.

4. **What is the frequency and timing of collection or reporting?**
   The needed data are gathered several times per year by the Board of Regents. The time needed for collection, aggregation, and editing of the data results in a lag before reliable reporting can be accomplished. The baseline is AY 2014-2015.

5. **How is the indicator calculated? Is this a standard calculation?**
   The indicator is the sum of all completers at the baccalaureate degree level at an institution within a given academic year. The total includes all awards and certificates at the undergraduate, graduate, and professional levels. However, for four-year universities the figure will not include the awards given at the associate level. This is the state standard for the counting of completers.

6. **Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.**
   Completers is another term for graduates. It will include all students who earn Board of Regents-recognized awards and certificates at the baccalaureate degree level.
7. **Is the indicator an aggregate or disaggregate figure?**
   This indicator is the aggregate of all students who earn Board of Regents-recognized awards and certificates at the baccalaureate degree within an academic year, excluding associate degrees for four-year universities.

8. **Who is responsible for data collection, analysis, and quality?**
   Each university submits the completers data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents’ staff builds a master file.

9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
   There are no limitations or weaknesses.

10. **How will the indicator be used in management decision making and other agency processes?**
    Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.
Objective II.5: Decrease the total number of graduate degree completers in a given academic year from the baseline year number of 256 in 2014-15 academic year to 227 in academic year 2019-20 at McNeese. Students may only be counted once per award level.

Indicator 1: Number of completers at the graduate degree level

1. **What is the type of indicator?**
   Output, Key

2. **What is the rationale for the indicator?**
   System universities have an obligation to produce a better-educated citizenry. Persons with university graduate and professional degrees are more likely to be productive citizens who earn considerably more income over their lifetimes than high school graduates.
