Program Name: Elementary Education Grades 1-5 [PBC] [IEED]

Reporting Cycle: Jun 1, 2017 to May 31, 2018

1 Is this program offered via Distance Learning?

100% Traditional or less than 50% Distance/Traditional

2 Is this program offered at an off-site location?

No

2.1 If yes to previous, provide addresses for each location where 50% or more of program credits may be earned.

McNeese State University at Fort Polk

3 Example of Program Improvement

2015-2016:

Assessment 1 information was provided to demonstrate how the Praxis II content was aligned with ACEI standards. Data was provided for two current semesters of candidate information.

For Assessment 2, the Content Area Rubric is aligned with the ACEI standards and provides evidence of content knowledge. The Content Area Rubric reflects the candidates' ability to apply knowledge in a clinical setting.

Assessment 3 reflects Elementary Lesson Planning utilizing the Comprehensive Unit Plan (CUP). In this assessment, data are provided for two current semesters. The rows of data are aligned with ACEI standards. Ranges and means are provided.

In Assessment 4, sections of the Field Experience Evaluation (FEE) are aligned with the ACEI standards at specific data points. In Assessment 4, the pre and post test allows cooperating teachers and university supervisors to identify the strengths and weaknesses of the candidates. The FEE III is attached to this submission.

For Assessment 5, the Student Learning Analysis (Pretest/Posttest Analysis) is aligned with ACEI standards. Data from fall 2015 and spring 2016 are provided.

In response to the reviewer's comment that an Assessment 6 was lacking, this final report Assessment 6, Case Study Evaluation has been prepared. The data in Assessments 1-6 has been collected and aggregated to monitor and address student growth. As a result of the data, the new rubrics were prepared to be aligned to specific ACEI standards

2017-2018:

The EPP has worked many hours over the past year to redesign the PBC Elementary program to meet all of the necessary standards while preparing candidates for readiness in the classroom. We feel as though these changes will bring about positive changes in the teachers that we are sending out into the field.

4 Program Highlights from the Reporting Year

2015-2016:

We implemented a Co-teaching model and professional development for MAT teacher candidates in conjunction with the local P-12 school system. Teacher candidates, cooperating teachers, and university supervisors work together to build a co-teaching relationship for the teacher candidate's student teaching or intern experience. During multiple professional development opportunities, each member of the triad (teacher candidate, cooperating teacher, and university supervisor) receives information on co-teaching and how to make it successful for all involved in the process as well as participates in relationship building activities. The goal of the Co-teaching model and professional development is to improve the student teaching or internship experience in order to further the success of our students during their final semester.

2016-2017:

Use of Assessment to Improve Instruction:

(1) Content Knowledge:

The Department of Teacher Education is involved in ongoing curriculum review of the Elementary Education program in order to ensure that candidates are well prepared in the area of content

knowledge. In particular, performance measured by course grades and the PRAXIS II Elementary Content Knowledge exam (0014/5014) are used to inform recommendations regarding course and programmatic changes. As stated in section IV, course grades along with the passing rate on PRAXIS II, provides evidence that candidates are acquiring the necessary knowledge to integrate theories and research with respect to each content area (Reading/Language Arts, Mathematics, Social Studies, and Science) Content knowledge is also assessed by the cooperating teachers and university supervisors during the student teaching semester. Four of the five ACEI Standards are measured on the Field Experience Evaluation form (FEE) for elementary education. As stated in Section IV, data show positive findings and trends. By incorporating the results of this data with PRAXIS II Elementary Content scores and course grades, it is evident that candidates possess knowledge in the content areas and have an understanding of the central concepts and structures as they relate to the early childhood classroom. A lesson plan format was adopted to correlate with the Louisiana Edition of Charlotte Danielson's Framework for Teaching. The FEE instrument directly correlates to the Danielson framework. Faculty and student teacher candidates are experiencing ongoing training utilizing the above stated instruments for planning and evaluation. Based on the data generated from the four semesters reported, the students have an adequate knowledge of the content. In Fall 2015, the passage rate was 100%, in spring 2016 the passage rate was 75%, in Fall 2016 the passage rate was 67% and in Spring 2017 the passage rate was 100%. It appears that the application of the content through instructional planning and implementation fall short of the proficient level in many areas. For example, the candidates have difficulties in the use of major concepts in the content of English language arts. They also fall short of proficiency in the area of diversity in student learning and instructional opportunities. They experience difficulties in the area of implementing instructional strategies to promote critical thinking and problem solving. Faculty will address these skill areas within each of the candidates' method courses throughout their degree programs. Candidates will work with cooperating teachers to address difficulties and provides additional support in the skill areas mentioned. These sources of information can then be used to make adjustments to the planning and evaluation instruments. Although the data show solid evidence that our candidates are able to demonstrate preparedness in the content areas, our program provides more opportunities for growth and development beyond content, course work and field experiences. For example, the Elementary Education candidates complete 285 hours of field experiences throughout the elementary teaching degree plan before the student teaching semester. Through lesson planning, teaching, collaboration, and reflection in each course, all ACEI Standards are consistently integrated.

(2) Pedagogical and Professional Knowledge, Skills, and Dispositions:

Data from the Field Experience Evaluation-form (FEE) assessment used to evaluate candidates in the above stated courses and the student teaching semester are reviewed regularly by program faculty, university supervisors, and staff within the Office of Student Teaching and Professional Education Services. For example, faculty found that candidates needed more remediation and resources in the area of using major principles in the area for individual students' development learning and motivation. Candidates have the knowledge of this information but are not applying this knowledge in their lesson planning and teaching. To address this area of need, faculty collaborated and planned to incorporate this content throughout all methodology courses. Our findings show that use of formal and informal assessments is another area of concern for our candidates. Another area of concern is that candidates have difficulty in the use of effective communication techniques in the classroom. Faculty analyzed the FEE data and found that candidates are not effectively demonstrating these skills. To address this area of concern, faculty will offer co-teaching opportunities with candidates and they will observe cooperating teachers in the field to further strengthen their understanding. Another area where our candidates are experiencing difficult is delivering instruction based on students' theory, cross-curricular connections, goals, and community. Faculty will address this area of need by providing professional development workshops and remediation in this area. Faculty are now required to include one technology-based assignment in each of their professional education courses. Faculty use technology throughout their courses to model, engage and teach. With increased use of technology in methodology courses, collaboration continues with the area school district in order to provide pre-service teachers the opportunity to further develop technology skills as they relate to teaching and learning. Teacher candidates are required to attend technology seminars prior to and during the student teaching semester. Through this collaboration, candidates are better equipped

with the skills necessary to integrate the use of instructional technology (e.g. Promethean Interactive whiteboard technology boards) into daily lessons. Elementary education candidates are required to use technology in every evaluated lesson in student teaching semesters. The addition of these performance-based evaluation elements has provided faculty the ability to assess mastery of teaching and of content.

In addition, through coursework and seminars, the Burton College of Education encourages candidates to become involved with professional teaching organizations which provide a variety of professional development opportunities in their specialty areas. Candidates are encouraged to attend and present at national, regional, and state conferences. At present, the assessments described in this report do not provide clear evidence of candidate experience with these organizations and online resources as addressed in ACEI Standard 5: Professional growth, reflection, and evaluation. Faculty will sponsor monthly professional development opportunities where candidates can collaborate with faculty to address topics of interest. Candidates are also required throughout the program's coursework to read and summarize journal articles pertaining to methodology issues in elementary education.

(3) Student Learning:

During the semester prior to student teaching, the elementary education candidates complete a child case study. The data from this assessment reflects the candidate's ability to interpret the impact of observing and documenting student growth and the tool assists candidates in parent-teacher conferencing. Program faculty uses the child case study for data collection to assess student learning. During student teaching, the candidates must complete the P-12 Learning Analysis by selecting a unit of instruction, administering a pre/post assessment on that unit of instruction, and analyzing the student performance results. That analysis requires the candidates to compare the pre/post results and calculate the difference in student performance. Information from this assessment is used by program faculty to develop student teaching seminars and course-embedded workshops to support candidates in the creation of future work samples. Throughout the degree program there are many opportunities for candidates to engage in lesson planning and activities that impact student achievement.

For the baccalaureate program, the range of scores were below the benchmark for two of the four semesters reported as indicated in the data charts. Faculty analyzed the data and found some areas of need. For example, the area of response to intervention was determined to be an area where the candidates struggled. Faculty will examine their current teaching strategies to determine the level of effectiveness and make modifications as needed.

2017-2018:

The EPP has redesigned the PBC Elementary program that is filled with purposeful experiences to produce better candidates entering the field as teachers.

5 Program Mission

The purpose of the Post Baccalaureate certificates in Elementary Education 1- 5 is to prepare candidates for successful entry into education as school teachers by providing opportunities for developing expertise in content knowledge, teaching methods and strategies, communication skills, behavior management, and the professional dispositions that will enable completers of the program to succeed as teachers.

6 Institutional Mission Reference

7 Assessment and Benchmark Enrollment, Completion, Retention, and Recruitment

Assessment: Enrollment, Completion, Retention, and Recruitment

7.1 Benchmark: The EPP has set a goal to increase enrollment by 7% across programs each year from fall 2017 to fall 2021 to coincide with the MSU Strategic Plan goal concerning enrollment and recruitment.

Going beyond traditional approaches of recruitment and partnering with the Office of Admission and Recruiting, the EPP will actively recruit within the community at least two times each academic year.

7.2 Benchmark: Create and monitor candidate progress throughout the program. A minimum of 90% of candidates should complete the post-baccalaureate program in Elementary Education within two years of being accepted into the program (499 packet). Practitioner candidates should complete the program within one year of acceptance into the program.

7.1 Data Enrollment and Completers

2016-2017:

- 1) Summer 2016, Calcasieu Parish School System Employee Recruitment at Lake Charles Civic Center
- 2) Fall 2016, TNT PD day

PBC Elementary Education Programs - Enrollment and Completer Data:

Academic Year	Program	# of students officially enrolled in program with an EDUC 499 packet	# of completers fall semester	# of completers spring semester	Total # of completers
2013-2014		13			9
2014-2015		15			8
2015-2016		29	2	8	10
2016-2017		12	3	5	8
2017-2018	PBC	8	0	2	2
	Practitioner	1	0	1	1

7.1.1 Analysis of Data and Plan for Continuous Improvement

The program has experienced some growth over the three-year period. Continue current recruitment and retention plans.

2017-2018:

Analysis of Data: The benchmark was not met. From 2016-2017 through 2017-2018 there was a 9% decrease in the number of students enrolled in the program. The decrease can be attributed to a number of factors such as: lack of funding, poor performance of Praxis exams, and attrition.

Plan for Continuous Improvement: The goal of 2018-2019 is to collaborate with Elementary faculty to contact graduating seniors about the PBC opportunities as well as to collaborate with McNeese State University Office of Admissions to contact 100% of applicants indicating interest in the PBC program.

Recommendation for Successful Implementation of Plan for Improvement:

- 1) The Recruitment Committee will document two in-services and job fairs attended with the intent to recruit for the Elementary PBC program.
- 2) A minimum of 10 potential PBC students' information will be collected on sign-in sheets at these events.

7.2 Data Completion Matriculation Rates

Completer Matriculation Rates:

Program Type	Cohort Academic Year	Accepted into program	1-2 Years to Grad	3 Years to Grad	4 Years to Grad	5 Years to Grad	Dropped from university	State Completer	Earned Different Degree	Still Enrolled
PBC	2011	16		N=5 32%	N=2 12%	N=1 6%				N=8 50%
PBC	2012	20	N=10 50%	N=2 10%	N=1 5%		N=4 20%			N=3 15%

PBC	2013	24	N=4 16%	N=5 21%	N=1 5%		N=7 29%			N=7 29%
PBC	2013-2014	8	N=4 50%				N=4 50%			
Practitioner	2013-2014	0								

7.2.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Analysis of Data: The benchmark was met. For the 2013-2014 Cohort: 100% of all PBC students in the 2013-2014 school year completed the program within two years of acceptance into the PBC Elementary program.

Plan for Continuous Improvement: PBC faculty will identify reasons students are dropping from the university and determine intervention activities.

Recommendation for Successful Implementation of Plan for Improvement:

- Advisors will work with candidates at least twice a year to review degree plans, academic progress, and provide a list of resources for students who are in need of additional graduation and/or academic support.
- Develop a survey to give to students who wish to drop from the university prior to their withdrawal. The survey information gathered on these students, in addition to reviewing teacher candidate credentials upon admission, can aid in providing additional resources or support to these students in the future.

8 Assessment and Benchmark Curriculum Development

Assessment: Curriculum Development

Provide a comprehensive curriculum that reflects disciplinary foundations and remains responsive to contemporary developments, student and workforce demand, and university needs and aspirations.

Curriculum alignment includes:

- InTASC standards
- Program standards
- Year-long residency
- Louisiana Components of Effective Teaching
- Louisiana Teacher Preparation Competencies
- Louisiana Student Standards
- CAEP Standard 2

Benchmark: All program faculty will meet at least twice an academic year to discuss curriculum changes/implementations, assessment data, and progress monitoring of action plans.

Prior to 2016-2017, the benchmark was program faculty meets three times per academic year to review student progress, curricular offerings, and appropriate professional contacts and opportunities.

8.1 Data

2015-2016:

Spring 2015:

- February 20, 2015 - CLASS consulting with CPSB
- May 11, 2015 - DEP Faculty Meeting - Master Plan 10:30-12:30
- May 13, 2015 - Master Plan 10:30-12:00

Fall 2015:

- August 18, 2015 - BCOE Meeting 1:00
- August 19, 2015 - DEP Meeting 9:00-10:00
- October 8, 2015 - Turnitin Plagiarism 3:00-4:00

Spring 2016:

- January 12, 2016 - QEP with Dr. John Gardner 9:30 - 5:00

- January 13, 2016 - QEP 9:45 – 12:00
- DEP Faculty meeting (General Information) 2:00-4:30
- January 29, 2016 - DEP Faculty Meeting (CAEP) 10:00-12:30
- February 17, 2016 - QEP Focus Group 12:30-2:00
- CAEP Meeting 3:00-4:00
- February 18, 2016 - CPSB - Believe and Prepare
- February 19, 2016 - CPSB - Believe and Prepare
- March 17, 2016 - CAEP Meeting
- March 21, 2016 - CPSB - Believe and Prepare (Presenters)
- April 18, 2016 - CAEP Meeting
- May 16, 2016 - DEP Workshop/SPA
- May 17, 2016 - DEP workshop/SPA
- May 26, 2016 - CAEP Webinar 3:00

2016-2017:

Meeting #1: December, 2016:

Topic: Alignment of course major assessments across program

Instructors present: King, Anthony, Garner, White, Ogea

Discussion: creation of scope and sequence of major assessments including but not limited to FEE, Lesson planning, TCWS, Case Study, and Praxis data.

Meeting #2: May, 2017:

Topic: Alignment of Louisiana Teacher Preparation Competencies across program

Instructors present: King, Anthony, Garner, White, Ogea

Discussion: discussion of Louisiana Teacher Preparation Competencies across program within each course

2017-2018:

Data table is attached.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

PBC_ELEM_Curriculum Development_17-18

8.1.1 Analysis of Data and Plan for Continuous Improvement

2015-2016:

Department of Education Professions is up for CAEP site visit in the spring of 2017; therefore, faculty have been meeting in preparation.

Program faculty meets at regular intervals throughout the year to discuss advising methods and program implementation.

Program Faculty will continue to collaborate with local districts to strengthen our program and prepare our teacher candidates to fully meet district needs.

2016-2017:

Action/Outcome of meeting #1:

Scope and Sequence was created for MAT elementary program that aligned all major assessments throughout program for implementation, collection, and data analysis.

Action/Outcome of meeting #2:

Working draft of Louisiana Competencies implementation throughout program coursework.

2017-2018:

Analysis of Data: The benchmark was met. The faculty collaborated with local districts six times during the spring 2018 semester. The faculty attended six professional development meetings throughout the spring 2018 semester. Faculty attended eight Retention and Recruitment sessions throughout the spring 2018 semester.

Plan for Continuous Improvement:

- Program faculty will continue to meet at regular intervals throughout the year to discuss curriculum redesign and other programming issues/concerns.
- Program faculty will continue to collaborate with local districts to strengthen our program

to prepare our teacher candidates to fully meet district needs.

Recommendation for Successful Implementation of Plan for Improvement:

- Faculty will gather district input for consideration as curriculum changes are approved and adopted in regard to field experiences and student teaching.
- Information obtained from district will be made when appropriate to strengthen candidate preparedness for the teaching profession.

9 Assessment and Benchmark PRAXIS II Content

Assessment: Praxis Content Exam (5014/5018/5001)

Louisiana Teacher General Competency B: The teacher candidate demonstrates mastery of the content knowledge and skills and content pedagogy needed to teach the current academic standards as defined in BESE policy.

InTASC standards included: 4 ACEI Standard 2.0 Element 2.1, 2.2, 2.3, 2.4

Knowledge:

Content Knowledge: InTASC Standard 4 - The candidate applies the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches.

Candidate will pass their Praxis content area exam before entering their student teaching/intern semester.

The content exams required for elementary education candidates were cited for the Association for Childhood Education International (ACEI) Elementary Education Standard 2: Curriculum Standards. Items on each of the above Praxis exams (5014/5018/5001) require candidates to demonstrate fundamental knowledge in the core subject areas required for teaching elementary students. The following elements of Standard 2 are specifically addressed:

Candidates are required to demonstrate knowledge, understanding, and application of Reading/Language Arts skills on the Praxis content exam (5014/5018/5002). Candidates demonstrate an understanding of reading foundational skills including phonological awareness and the role of phonics and word analysis in literacy development, as well as analyzing literature and informational texts. Candidates are also required to demonstrate writing, speaking, and listening proficiencies through identifying and evaluating various concepts and practices. Assessment of the candidates' performance is aligned to Element 2.1. Reading, Writing, and Oral Language.

Candidates are required to demonstrate knowledge, understanding, and use of fundamental concepts in earth science, life science, and physical science on the Praxis content exam (5014/5018/5005). In addition, candidates must understand the importance and use of inquiry, research and resources, and the unifying processes of science. Assessment of candidates' performance is aligned to Element 2.2. Science.

Candidates are required to demonstrate problem solving and reasoning with mathematical skills on the Praxis content exam (5014/5018/5003). Candidates must know, understand, and demonstrate proficiency in the application of numbers and operations, algebraic thinking, geometry and measurement, data analysis, statistics, and probability. Assessment of candidates' performance is aligned to Element 2.3. Mathematics.

Candidates are required to demonstrate knowledge and understanding of Social Studies concepts on the Praxis content exam (5014/5018/5004). Candidates must interrelate topics from United State history, government, citizenship, geography, anthropology, sociology, world history, and economics to support informed decision making by citizens in modern society. Assessment of candidates' performance is aligned to Element 2.4. Social Studies.

CAEP Standard 1

9.1 Benchmark: A minimum of 80% of graduates will pass the Praxis content exam on the first attempt.

9.2 Benchmark: A mean score of 70% for percentage of questions answered correctly in each sub-category will be achieved on the Praxis II Content Exam.

Outcome Links

LTGC B [Program]

The teacher candidate demonstrates mastery of the content knowledge and skills and content pedagogy needed to teach the current academic standards as defined in BESE policy.

2007 ACEI Elementary Education Standards and Supporting Explanation [External]

2.2 Science

Candidates know, understand, and use fundamental concepts of physical, life, and earth/space sciences. Candidates can design and implement age-appropriate inquiry lessons to teach science, to build student understanding for personal and social applications, and to convey the nature of science.

2.4 Social Studies

Candidates know, understand, and use the major concepts and modes of inquiry from the social studies—the integrated study of history, geography, the social sciences, and other related areas—to promote elementary students’ abilities to make informed decisions as citizens of a culturally diverse democratic society and interdependent world.

2.5 The Arts

Candidates know, understand, and use—as appropriate to their own understanding and skills—the content, functions, and achievements of the performing arts (dance, music, theater) and the visual arts as primary media for communication, inquiry, and engagement among elementary students.

2013 InTASC Standards [External]

4. Content Knowledge

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

9.2.1 Analysis of Data and Plan for Continuous Improvement

2017-2018

Analysis of Data: The benchmark was not met.

Spring 2016 and Spring 2017 Exam #5014: Candidates had a mean score of 70% or above in the two semesters of data in Reading (77%) and Mathematics (78%) for percentage of questions answered correctly. The two-subcategory scores that fell below the benchmark of 70% in the two semesters of data were Social Studies (63%) and Science (67%).

Plan for Continuous Improvement: PBC faculty will collect and analyze sub-category area data for all teacher candidates who take the Praxis prior to submitting their 499 Packet.

Recommendation for Successful Implementation of Plan for Improvement: Faculty will meet once each semester and document on sign-in sheets to review and analyze sub-category scores collected from all students that report/submit their Praxis scores with their 499 Packet for the next academic year and results will be used to inform course revision/redesign.

10 Assessment and Benchmark Field Experience Evaluation from Subject Area Method Courses

Assessment: Field Experience Evaluation conducted in subject area methods courses.

Benchmark: Candidates will score a 3.00 or higher on each element of the FEE rubric for Domains 1-4 in each of the subject areas from the corresponding methods courses and EDUC 410.

Outcome Links

LTGC B [Program]

The teacher candidate demonstrates mastery of the content knowledge and skills and content pedagogy needed to teach the current academic standards as defined in BESE policy.

2007 ACEI Elementary Education Standards and Supporting Explanation [External]

1.0 Development, Learning, & Motivation

Candidates know, understand, and use the major concepts, principles, theories, and research related to development of children and young adolescents to construct learning opportunities that support individual students' development, acquisition of knowledge, and motivation.

2.1 Reading, Writing, and Oral Language

Candidates demonstrate a high level of competence in use of English language arts and they know, understand, and use concepts from reading, language and child development, to teach reading, writing, speaking, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.

2.2 Science

Candidates know, understand, and use fundamental concepts of physical, life, and earth/space sciences. Candidates can design and implement age-appropriate inquiry lessons to teach science, to build student understanding for personal and social applications, and to convey the nature of science.

2.3 Mathematics

Candidates know, understand, and use the major concepts and procedures that define number and operations, algebra, geometry, measurement, and data analysis and probability. In doing so they consistently engage problem solving, reasoning and proof, communication, connections, and representation.

2.4 Social Studies

Candidates know, understand, and use the major concepts and modes of inquiry from the social studiesâ€”the integrated study of history, geography, the social sciences, and other related areasâ€”to promote elementary studentsâ€™ abilities to make informed decisions as citizens of a culturally diverse democratic society and interdependent world.

2.5 The Arts

Candidates know, understand, and useâ€”as appropriate to their own understanding and skillsâ€”the content, functions, and achievements of the performing arts (dance, music, theater) and the visual arts as primary media for communication, inquiry, and engagement among elementary students.

2.6 Health Education

Candidates know, understand, and use the major concepts in the subject matter of health education to create opportunities for student development and practice of skills that contribute to good health.

3.1 Integrating and applying knowledge

Candidates plan and implement instruction based on knowledge of students, learning theory, connections across the curriculum, curricular goals, and community.

3.2 Adaptation to diverse students

Candidates understand how elementary students differ in their development and approaches to learning, and create instructional opportunities that are adapted to diverse students.

3.3 Critical Thinking and Problem Solvin

Candidates understand and use a variety of teaching strategies that encourage elementary studentsâ€™ development of critical thinking and problem solving.

3.4 Active engagement in learning

Candidates use their knowledge and understanding of individual and group motivation and behavior among students at the K-6 level to foster active engagement in learning, self motivation, and positive social interaction and to create supportive learning environments.

3.5 Communication

Candidates use their knowledge and understanding of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration, and supportive interaction in the elementary classroom.

4.0 Assessment for instruction

Candidates know, understand, and use formal and informal assessment strategies to plan, evaluate and strengthen instruction that will promote continuous intellectual, social, emotional, and physical development of each elementary student.

5.1 Professional growth

Candidates are aware of and reflect on their practice in light of research on teaching, professional ethics, and resources available for professional learning; they continually evaluate the effects of their professional decisions and actions on students, families and other professionals in the learning community and actively seek out opportunities to grow professionally.

5.2 Collaboration

Candidates know the importance of establishing and maintaining a positive collaborative relationship with families, school colleagues, and agencies in the larger community to promote the intellectual, social, emotional, physical growth and well-being of children.

2013 InTASC Standards [External]

4. Content Knowledge

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

10.1 Data Field Experience Evaluation from Subject Area Method Courses

2017-2018:

Data table is attached.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

PBC_ELEM_FEE_Content Area_17-18

10.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Analysis of Data: The benchmark was not met.

- Science and social studies data for PBC was not available.

- Math: all practitioner students achieved the goal.
- ELA: Subcomponent 3.1.1 had a mean of 2.67 and subcomponent 3.2.1 had a mean of 2.00

Plan for Continuous Improvement: Data findings will be shared with faculty to communicate the importance of data collection for driving instruction.

Recommendation for Successful Implementation of Plan for Improvement:

- Data analysis will be conducted using FEE data from content area faculty and education faculty will be provided with results.
- Data analysis will be used to strengthen FEE components in the content area subjects.

11 Assessment and Benchmark Lesson Plan

Assessment: Lesson Plan

Louisiana Teacher General Competency F: The teacher candidate differentiates instruction, behavior management techniques, and the learning environment in response to individual student differences in cognitive, socio-emotional, language, and physical development.

Louisiana Teacher General Competency G: The teacher candidate develops and applies instructional supports and plans for an Individual Education Plan (IEP) or Individualized Accommodation Plan (IAP) to allow a student with exceptionalities developmentally appropriate access to age- or grade-level instruction, individually and in collaboration with colleagues.

InTASC standards included: 1, 2, 4, 5, 7, 8.

Knowledge:

Learner Development: InTASC Standard 1 - The candidate determines how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas.

Learning Differences: InTASC Standard 2 - The candidate identifies individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Content Knowledge: InTASC Standard 4 - The candidate applies the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches.

ACEI Standard 1.0 & 4.0

The CUP is one of the major assessments for Elementary Education candidates, all of whom must take EDUC 324 Methods of Teaching Science in Elementary School (Gr. K-8). In this assessment, students develop a CUP for a science and a social studies CUP to be taught in an elementary (1-5) classroom in multi-day lesson plans. A Comprehensive Unit Plan (CUP) is based on the Louisiana Common Core State Standards (LA CCSS). One can look at the following items: (1) a Unit Plan Template (Elaborated) that is based on the LA CCSS. Each component of this template literally explains what to do. (2) a Unit Plan Template (Plain or Non-elaborated), that is also based on the LA CCSS, to be used by you for your CUP. You simply type your input in the various components of this format. (3) a Unit Plan Rubric that is also based on the LA CCSS so that you can assess your results. It can be a "Three-Day" unit plan on a topic of the curriculum or a "Five-Day" unit plan.

Just as teachers in the profession must design sequenced, aligned, and effective, lessons in order to be successful teachers, so Elementary Education candidates must master these skill if they are to be successful in the classroom.

Statistical analysis of student learning through pre- and post-assessments. This documentation attempts to show if the students learned from the candidate's teaching. This assessment represents an analysis of difference between pre-/post-assessment scores of PK-12 student performance during a unit of instruction.

During their clinical experience, candidates must prepare a unit of instruction, administer a pre/post assessment on that unit of instruction, and analyze the student performance results. That analysis requires them to compare the pre/post results and calculate the difference in student performance. This information is used by program faculty to analyze the impact student teachers' instruction has on PK-12 student learning between the pre/post assessments. This assessment allows the candidates to reflect on their teaching and discuss strong points as well as challenges with

University faculty. Examples of common points that could arise as a result of this assessment: 1) Do some students need further instruction? 2) What will your next lesson entail? 3) What worked and why? 4) What failed and why?

Benchmark: A minimum of 80% of the candidates will score at the Proficiency level (3.00) or higher in each category assessed on the lesson plan for each of the four content areas and the various subject plan done in EDUC 410 (the semester prior to student teaching).

Outcome Links

LTGC F [Program]

The teacher candidate differentiates instruction, behavior management techniques, and the learning environment in response to individual student differences in cognitive, socio-emotional, language, and physical development.

LTGC G [Program]

The teacher candidate develops and applies instructional supports and plans for an Individualized Education Plan (IEP) or Individualized Accommodation Plan (IAP) to allow a student with exceptionalities developmentally appropriate access to age- or grade-level instruction, individually and in collaboration with colleagues.

2007 ACEI Elementary Education Standards and Supporting Explanation [External]

1.0 Development, Learning, & Motivation

Candidates know, understand, and use the major concepts, principles, theories, and research related to development of children and young adolescents to construct learning opportunities that support individual students' development, acquisition of knowledge, and motivation.

4.0 Assessment for instruction

Candidates know, understand, and use formal and informal assessment strategies to plan, evaluate and strengthen instruction that will promote continuous intellectual, social, emotional, and physical development of each elementary student.

2013 InTASC Standards [External]

1. Learner Development

The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

2. Learning Differences

The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

4. Content Knowledge

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

5. Application of Content

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

7. Planning for Instruction

The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

8. Instructional Strategies

The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

11.1.1 Analysis of Data and Plan for Continuous Improvement

2-15-2016:

Candidate's scores over the two semesters have improved over two semesters. The overall mean score for ACEI Standard 1.0 remained stable increasing slightly from 3.1 to 3.17. In the areas of student outcomes, lesson "hook", technology, and exploration, extension and supplemental resources, it was noted that the means for those domains showed a minimal increase. (3 to 3.25, 3 to 3.3, 3 to 3.1 and 3 to 3. In ACEI Standard 4.0, the overall mean decreased from 3.25 to 2.9. In the area of formative and summative assessment the mean decreased from 3.5 to 2.87 and increased minimally in the area of pre-planned (SEED) questions from 3 to 3.1.

Interpretation of How Data Provides Evidence for Meeting Standards:

The data support the assumption that students are progressing and demonstrating growth in their mastery of ACEI Standards 1.0 and 4.0. There are many areas, however, where the candidates need improvement mainly in the areas of modeling, guided, collaborative and independent practice and differentiation of instruction. Those are areas that can be addressed by the cooperating teacher and university supervisor during observations. This is a new assessment as of 2015-2016. A benchmark will be set after three years of data collection.

2016-2017:

When examining student teaching/internship lesson plan data, two elements of the rubric were noted as meeting the benchmark of 3 for all four semesters: Modeled, Guided, Collaborative, and Individual Practice with mean scores of 3.0, 3.0, 3.0 and 3.40 respectively; Procedures with mean scores of 3, 3, 3, and 3.40 respectively; and

One element of the rubric, Exploration, Extension, Supplemental, did not meet benchmark, score of 3, for any of the four iterations of data with mean scores of 2.0, 2.5, 2.67, and 2.20 respectively.

In the area of Exploration, Extension, and Supplemental, the passage rate is below proficiency (75%) for all for semesters reported (fall 2015= 0%, spring 2016= 50%, fall 2016= 67%, spring 2017= 40%). In the area of Differentiation, the passage rate is below proficiency (75%) for three of the four semesters reported (fall 2015= 0%, spring 2016= 0%, spring 2017= 60%). In the area of Lesson "Hook" the mean score shows a decline from spring 2016 (2.75) to fall 2016 (2.0) to spring 2017 (2.0). For ACEI Standard 4.0, in the area of Formative and Summative Assessment, the mean scores showed an increase from fall 2015 (2.5) to fall 2016 (2.67) to spring 2017 (3.40). In Relevance and Rationale, the mean scores showed a decrease from spring 2016 (3.0) to fall 2016 (2.67). In Pre-Planned (Seed) Questions, the mean scores showed a decrease from spring 2016 (3.0) to fall 2016 (2.67) to spring 2017 (2.40). Faculty will pilot a new lesson planning template with instructions and lesson plan rubric with clearer descriptors for Exploration, Extension, and Supplemental; Differentiation, Lesson "Hook", Relevance & Rationale, and Pre-Planned (Seed) Questions in EDUC 316 beginning fall 2017.

2017-2018

Analysis of Data: The benchmark was not met in all areas.

- Element 2.1. Reading, Writing, Oral Language and Element 2.2. Mathematics: The one student received a rating of 3.0 or higher in each area of the rubric.
- EDUC 410 Lesson Plan Various Subject Areas: Ten of the 11 areas received a rating of 3.0 or higher.
- EDUC 410 Lesson Plan Various Subject Areas: Accommodations/Differentiation received a rating of 2.0 which is below the benchmark.

Plan for Continuous Improvement: A revised lesson plan rubric will be adopted in the Elementary PBC and Practitioner programs during 2018-2019.

Recommendation for Successful Implementation of Plan for Improvement: Develop and implement a systematic process to track student performance data from the new Lesson Plan rubric in order to more accurately identify areas of weakness on the Lesson Plan assessment.

12 Assessment and Benchmark Field Experience Evaluation - Student Teaching

Assessment: Field Experience Evaluation Domains 1-5

Louisiana Teacher General Competency A: The teacher candidate demonstrates, at an effective level, the Louisiana Components of Effective Teaching as defined in Bulletin 130 and the Compass Teacher Rubric

Louisiana Teacher General Competency C2: The teacher candidate gathers, synthesizes, and analyzes a variety of data from a variety of sources to adapt instructional practices and other professional behaviors to better meet students' needs

InTASC standards included: 1, 2, 3, 4, 5, 6, 7, 8, 9

ACEI Standard 1.0, Element 3.1, 3.3, 3.4, 3.5, Standard 4.0, Element 5.1

12.1 Benchmark: Candidates will score a 3.00 or higher on each element in the FEE rubric for Domains 1-4.

12.2 Benchmark: Candidates will score 3.00 or higher on each ACEI standard assessed in the FEE rubric.

Outcome Links

LTGC A [Program]

The teacher candidate demonstrates, at an effective level, the Louisiana Components of Effective Teaching as defined in Bulletin 130 and the Compass Teacher Rubric.

LTGC C2 [Program]

The teacher candidate gathers, synthesizes, and analyzes a variety of data from a variety of sources to adapt instructional practices and other professional behaviors to better meet students'™ needs.

1.0 Development, Learning, & Motivation

Candidates know, understand, and use the major concepts, principles, theories, and research related to development of children and young adolescents to construct learning opportunities that support individual students' development, acquisition of knowledge, and motivation.

1.0 Development, Learning, & Motivation

Candidates know, understand, and use the major concepts, principles, theories, and research related to development of children and young adolescents to construct learning opportunities that support individual students' development, acquisition of knowledge, and motivation.

2.1 Reading, Writing, and Oral Language

Candidates demonstrate a high level of competence in use of English language arts and they know, understand, and use concepts from reading, language and child development, to teach reading, writing, speaking, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.

2.1 Reading, Writing, and Oral Language

Candidates demonstrate a high level of competence in use of English language arts and they know, understand, and use concepts from reading, language and child development, to teach reading, writing, speaking, viewing, listening, and thinking skills and to help students successfully apply their developing skills to many different situations, materials, and ideas.

2.2 Science

Candidates know, understand, and use fundamental concepts of physical, life, and earth/space sciences. Candidates can design and implement age-appropriate inquiry lessons to teach science, to build student understanding for personal and social applications, and to convey the nature of science.

2.3 Mathematics

Candidates know, understand, and use the major concepts and procedures that define number and operations, algebra, geometry, measurement, and data analysis and probability. In doing so they consistently engage problem solving, reasoning and proof, communication, connections, and representation.

2.3 Mathematics

Candidates know, understand, and use the major concepts and procedures that define number and operations, algebra, geometry, measurement, and data analysis and probability. In doing so they consistently engage problem solving, reasoning and proof, communication, connections, and representation.

2.4 Social Studies

Candidates know, understand, and use the major concepts and modes of inquiry from the social studies—the integrated study of history, geography, the social sciences, and other related areas—to promote elementary students' abilities to make informed decisions as citizens of a culturally diverse democratic society and interdependent world.

2.4 Social Studies

Candidates know, understand, and use the major concepts and modes of inquiry from the social studies—the integrated study of history, geography, the social sciences, and other related areas—to promote elementary students' abilities to make informed decisions as citizens of a culturally diverse democratic society and interdependent world.

2.5 The Arts

Candidates know, understand, and use—as appropriate to their own understanding and skills—the content, functions, and achievements of the performing arts (dance, music, theater) and the visual arts as primary media for communication, inquiry, and engagement among elementary students.

2.5 The Arts

Candidates know, understand, and use—as appropriate to their own understanding and skills—the content, functions, and achievements of the performing arts (dance, music, theater) and the visual arts as primary media for communication, inquiry, and engagement among elementary students.

2.6 Health Education

Candidates know, understand, and use the major concepts in the subject matter of health education to create opportunities for student development and practice of skills that contribute to good health.

2.6 Health Education

Candidates know, understand, and use the major concepts in the subject matter of health education to create opportunities for student development and practice of skills that contribute to good health.

2.7 Physical Education

Candidates know, understand, and use—as appropriate to their own understanding and skills—human

movement and physical activity as central elements to foster active, healthy life styles and enhanced quality of life for elementary students.

2.7 Physical Education

Candidates know, understand, and use as appropriate to their own understanding and skills human movement and physical activity as central elements to foster active, healthy life styles and enhanced quality of life for elementary students.

3.1 Integrating and applying knowledge

Candidates plan and implement instruction based on knowledge of students, learning theory, connections across the curriculum, curricular goals, and community.

3.1 Integrating and applying knowledge

Candidates plan and implement instruction based on knowledge of students, learning theory, connections across the curriculum, curricular goals, and community.

3.2 Adaptation to diverse students

Candidates understand how elementary students differ in their development and approaches to learning, and create instructional opportunities that are adapted to diverse students.

3.2 Adaptation to diverse students

Candidates understand how elementary students differ in their development and approaches to learning, and create instructional opportunities that are adapted to diverse students.

3.3 Critical Thinking and Problem Solvin

Candidates understand and use a variety of teaching strategies that encourage elementary students' development of critical thinking and problem solving.

3.3 Critical Thinking and Problem Solvin

Candidates understand and use a variety of teaching strategies that encourage elementary students' development of critical thinking and problem solving.

3.4 Active engagement in learning

Candidates use their knowledge and understanding of individual and group motivation and behavior among students at the K-6 level to foster active engagement in learning, self motivation, and positive social interaction and to create supportive learning environments.

3.4 Active engagement in learning

Candidates use their knowledge and understanding of individual and group motivation and behavior among students at the K-6 level to foster active engagement in learning, self motivation, and positive social interaction and to create supportive learning environments.

3.5 Communication

Candidates use their knowledge and understanding of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration, and supportive interaction in the elementary classroom.

3.5 Communication

Candidates use their knowledge and understanding of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration, and supportive interaction in the elementary classroom.

4.0 Assessment for instruction

Candidates know, understand, and use formal and informal assessment strategies to plan, evaluate and strengthen instruction that will promote continuous intellectual, social, emotional, and physical development of each elementary student.

2013 InTASC Standards [External]

1. Learner Development

The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

2. Learning Differences

The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

3. Learning Environments

The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

4. Content Knowledge

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

5. Application of Content

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

5. Application of Content

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

6. Assessment

The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

6. Assessment

The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

7. Planning for Instruction

The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

7. Planning for Instruction

The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

8. Instructional Strategies

The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

8. Instructional Strategies

The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

9. Professional Lrng & Ethical Practice

The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

9. Professional Lrng & Ethical Practice

The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

12.1 Data Field Experience Evaluation Domains 1-4

2017-2018:

Data table is attached.

PBC_ELEM_FEE_Domains 1-4

12.1.1 Analysis of Data and Plan for Continuous Improvement

2015-2016:

Under ACEI Standard 1.0, the mean for value, sequence, and alignment remained stable from fall 2015 to spring 2016. Under Standard 3.0 the mean for monitoring of student behavior reflected a significant increase demonstrating a marked improvement in student performance in that domain. In ACEI Standard 4.0, the means for assessment criteria and monitoring of student learning increased demonstrating that students were improving in their ability to evaluate student performance and observe student academic progress in the classroom. Under Standard 5.0, the means for receptivity to feedback; and decision-making; and integrity and ethical conduct increased from fall 2015 to spring 2016 demonstrating

growth in candidate professionalism in the areas of openness to cooperating teacher and university supervisor's comments and candidate honesty and ethical behavior in the classroom .

The FEE III, is designed to provide a comprehensive assessment of the candidate. This tool is designed to align closely with ACEI standards. As evidenced by the scores (see Attachment #4: Field Experience Evaluation Data for fall 2015 and spring 2016), candidates are performing at effective levels with regards to content knowledge, lesson planning, diversity, assessment of student learning and technology with growth evidenced each semester. In the analysis of the data, ACEI standards have been aligned with specific data points and candidate performance in specific domains are addressed.

This is a new assessment as of 2015-2016. A benchmark will be set after three years of data collection.

2016-2017:

ACEI Standard 1.0 (element 1.1.1), the mean scores for fall 2015 were 3.56, the mean scores for spring 2016 were 3.55, the mean scores for fall 2016 were 3.87, and the mean scores for spring 2017 were 3.48. The mean scores for the four semesters reported were above proficiency (2.0) for this standard. There was an increase in the mean scores from fall 2015 to fall 2016 followed by a slight decrease in spring 2017.

For ACEI Standard 1.0 (element 1.1.2), the mean scores for fall 2015 were 3.56, the mean scores for spring 2016 were 3.55, the mean scores for fall 2016 were 3.83, and the mean scores for spring 2017 were 3.48. The mean scores for the four semesters reported were above proficiency (2.0) for this standard. There was an increase in the mean scores from fall 2015 to fall 2016 followed by a slight decrease in spring 2017.

For ACEI Standard 1.0 (element 1.1.3), the mean scores for fall 2015 were 3.19, the mean scores for spring 2016 were 3.52, the mean scores for fall 2016 were 3.77, and the mean scores for spring 2017 were 3.29. The mean scores for the four semesters reported were above proficiency (2.0) for this standard. There was an increase in the mean scores from fall 2015 to fall 2016 followed by a slight decrease in spring 2017.

For ACEI Standard 3.4 (element 2.1.1), the mean scores for fall 2015 were 3.31, the mean scores for spring 2016 were 3.03, the mean scores for fall 2016 were 3.64, and the mean scores for spring 2017 were 3. Although there were considerable fluctuations in the mean scores for this standard, the scores were above the proficiency level (2.0).

For ACEI Standard 3.4 (element 2.2.1), the mean scores for fall 2015 were 3.44, the mean scores for spring 2016 were 3.25, the mean scores for fall 2016 were 4, and the mean scores for spring 2017 were 3.07. Although there were considerable fluctuations in the mean scores for this standard, the scores were above the proficiency level (2.0).

For ACEI Standard 3.4 (element 2.2.2), the mean scores for fall 2015 were 3.75, the mean scores for spring 2016 were 2.98, the mean scores for fall 2016 were 3.67, and the mean scores for spring 2017 were 3.02. Although there were considerable fluctuations in the mean scores for this standard, the scores were above the proficiency level for all four semesters reported.

For ACEI Standard 1.0 (element 3.1.1), the mean scores for fall 2015 were 3.19, the mean scores for spring 2016 were 2.81, the mean scores for fall 2016 were 3.23, and the mean scores for spring 2017 were 3.16. The mean scores for the four semesters reported were above proficiency (2.0) for this standard. There was an increase in the mean scores from fall 2015 to fall 2016 followed by a slight decrease in spring 2017.

For ACEI Standard 3.5 (element 3.1.2), the mean scores for fall 2015 were 2.94, the mean scores for spring 2016 were 2.75, the mean scores for fall 2016 were 3.56, and the mean scores for spring 2017 were 2.9. Although there were considerable fluctuations in the mean scores for this standard, the candidates scored above the proficient level (2.0) for all four semesters reported.

For ACEI Standard 3.5 (element 3.1.3), the mean scores for fall 2015 were 3, the mean scores for spring 2016 were 2.73, the mean scores for fall 2016 were 3.27, and the mean scores for spring 2017 were 2.82. Although there were considerable fluctuations in the mean scores for this standard, the candidates scored above the proficiency level (2.0) for all four semesters reported.

For ACEI Standard 1.0 (element 3.2.2), the mean scores for fall 2015 were 3.13, the mean scores for spring 2016 were 2.92, the mean scores for fall 2016 were 3.29, and the mean scores for spring 2017 were 2.97. The mean scores for the four semesters reported were above proficiency (2.0) for this standard. There was an increase in the mean scores from fall 2015 to fall 2016 followed by a slight decrease in spring 2017.

For ACEI Standard 1.0 (element 3.2.3), the mean scores for fall 2015 were 3.44, the mean scores for spring 2016 were 3.08, the mean scores for fall 2016 were 3.23, and the mean scores for spring 2017 were 3.3. The mean scores for the four semesters reported were above proficiency (2.0) for this standard. There was a decrease in the mean scores from fall 2015 to fall 2016 followed by a slight crease in spring 2017.

For ACEI Standard 4.0 (element 3.3.1), the mean scores for fall 2015 were 3, the mean scores for spring 2016 were 2.97, the mean scores for fall 2016 were 3.29, and the mean scores for spring 2017 were 2.99. Although there were considerable fluctuations in the mean scores for this standard, the candidates scored above the proficiency level (2.0) for all four semesters reported.

For ACEI Standard 1.0 (element 3.3.2), the mean scores for fall 2015 were 3.06, the mean scores for spring 2016 were 3.19, the mean scores for fall 2016 were 3.73, and the mean scores for spring 2017 were 3.54. The mean scores for the four semesters reported were above proficiency (2.0) for this standard. There was an increase in the mean scores from fall 2015 to fall 2016 followed by a slight decrease in spring 2017.

For ACEI Standard 4.0 (element 3.3.4), the mean scores for fall 2015 were 2.94, the mean scores for spring 2016 were 2.75, the mean scores for fall 2016 were 3.27, and the mean scores for spring 2017 were 2.96. The candidates scored above the proficiency level (2.0) in all four semesters reported.

For ACEI Element 5.1 (element 4.1.2), the mean scores for fall 2015 were 3.94, the mean scores for spring 2016 were 3.84, the mean scores for fall 2016 were 4.0, and the mean scores for spring 2017 were 3.84. The mean scores for the four semesters reported were above proficiency (2.0) for this standard. There was an increase in the mean scores from fall 2015 to fall 2016 followed by a slight decrease in spring 2017.

For ACEI Element 5.1 (element 4.1.3), the mean scores for fall 2015 were 3.88, the mean scores for spring 2016 were 3.78, the mean scores for fall 2016 were 4, and the mean scores for spring 2017 were 3.79. The mean scores for the four semesters reported were above proficiency (2.0) for this standard. There was an increase in the mean scores from fall 2015 to fall 2016 followed by a slight decrease in spring 2017.

2017-2018:

Analysis of Data: The benchmark of 3.00 or higher on each element was not met.

- Spring 2018: One of two (50%) PBC students scored below 3.0 on element 3.3.4: Student self-assessment and monitoring of progress.
- Spring 2018: The practitioner (100%) scored below benchmark on Assessment Criteria (element 3.3.1) and Student Self-Assessment and Monitoring of Progress (element 3.3.4)

Plan for Continuous Improvement: The goal for 2018-2019 is to share FEE Domains 1-4 data findings/analysis with the faculty of the PBC and Practitioner programs during curriculum redesign so that they can reinforce expectations and provide examples to PBC/Practitioner

students on weak domains.

Recommendation for Successful Implementation of Plan for Improvement:

- Effectiveness of pre- and post-conferences will be measured through candidates' completion of a survey as well as their performance on lesson reflections.
- Identified FEE Domains 1-4 weaknesses discussed with PBC and Practitioner program faculty during curriculum redesign meetings during 2018-2019. Implementation and teaching of the revised FEE domains throughout the scope and sequence of Education coursework in the curriculum redesign

12.2 Data Field Experience Evaluation_Domain 5

2017-2018:

Data table is attached.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

PBC_ELEM_FEE_Content Area_17-18

12.2.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Analysis of Data: The benchmark was met.

- Spring 2018: One of two (50%) PBC students scored below 3.0 on ACEI Standard 4, elements 3.3.1: Student self-assessment and monitoring of progress.
- Spring 2018: The practitioner (100%) scored below benchmark on ACEI Standard 4, Assessment Criteria (element 3.3.1) and Student Self-Assessment and Monitoring of Progress (element 3.3.4)

Plan for Continuous Improvement: FEE Domain data addressing ACEI standard findings/analysis will be shared with the faculty of the Elementary PBC and Practitioner programs during curriculum redesign so they can reinforce expectations and provide examples to students on weak domains.

Recommendation for Successful Implementation of Plan for Improvement:

- Effectiveness of pre- and post-conferences will be measured through candidates' completion of a survey as well as their performance on lesson reflections.
- Identified FEE Domains weaknesses in relation to ACEI standards will be discussed with PBC and Practitioner program faculty during curriculum redesign meetings during 2018-2019.
- Implementation and teaching of the revised FEE domains throughout the scope and sequence of Education coursework in the curriculum redesign.

13 Assessment and Benchmark Teacher Candidate Work Sample

Assessment: Teacher Candidate Work Sample

Louisiana Teacher General Competency H: The teacher candidate applies knowledge of various types of assessments and their purposes, strengths, and limitations to select, adapt, and modify assessments to accommodate the abilities and needs of students with exceptionalities.

Louisiana Teacher General Competency C1: The teacher candidate observes and reflects on students' responses to instruction to identify areas of need and make adjustments to practice.

InTASC standards included: 6

ACEI Standards: 1.0 Development, Learning, and Motivation; 4.0 Assessment for Instruction

Benchmark: Candidates will score a 3.00 or above on each of the elements of the Teacher Candidate Work Sample rubric.

Outcome Links

LTGC C1 [Program]

The teacher candidate observes and reflects on students' responses to instruction to identify areas of need and make adjustments to practice.

LTGC H [Program]

The teacher candidate applies knowledge of various types of assessments and their purposes, strengths, and

limitations to select, adapt, and modify assessments to accommodate the abilities and needs of students with exceptionalities.

2013 InTASC Standards [External]

6. Assessment

The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

14.1.1 Analysis of Data and Plan for Continuous Improvement

2016-2017:

A Brief Analysis of Data Findings:

The Case Study, is designed to offer the candidate intensive individualized tutoring opportunity in a real world setting as the candidate administers diagnostic tests, designs and implements lessons plans, fluency screenings, as texts are possessed in this remediation setting. This tool is designed to align closely with ACEI standards. As evidenced by the scores (see Attachment: Case Study Evaluation Data for fall 2015 and spring 2016), candidates are performing at Highly Proficient levels in regards To Response To Intervention which corresponds with ACEI Stand I. Candidates are performing at the Highly Proficient level in regards to Instructional Strategies which aligns with ACEI standards 3.0. In fall 2015 candidates were rated at the Effective Emerging level, in spring 2016, candidates scored at the Effective Proficient level. Lastly in terms of Analysis of Pre-Test and Post-Test Data relating to ACEI Standards 4.0, candidates in fall 2015 and spring 2016 were rated Highly Proficient. In the analysis of the data, ACEI standards have been aligned with specific data points and candidate performance in specific domains are addressed.

Interpretation of the Data

Under ACEI Standard 1.0, the mean for Response to Intervention remained stable from fall 2015 to spring 2016. In terms of Fluency relating to Standard 3.0 the scores revealed a marginal increase. In ACEI Standard 4.0, specifically referencing Analysis of Pre-test and Post-test Data, a marked improvement from fall 2015 to spring 2016 occurred. This is a new assessment as of 2015-2016. A benchmark will be set after three years of data collection.

2017-2018

Analysis of Data: There was no data reported on the candidates.

Plan for Continuous Improvement: 80% of candidates will pass the Case Study assignment at the proficiency level (3.00) or higher.

Recommendation for Successful Implementation of Plan for Improvement:

- The department will review the candidates' performance data on the Case Study to identify areas of weakness within the PLT exam.

- Data analysis will be discussed during curriculum redesign meetings and curriculum or course revisions adopted as necessary.

15 Assessment and Benchmark Course Content GPA

Assessment: Course Content Grade Point Average

Benchmark: Candidates will have a mean score of 3.00 or above for each ACEI standard assessed in the "Course Content GPA".

15.1 Data

2017-2018:

Data table is attached.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

PBC_ELEM_Course Content GPA_17-18

15.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Analysis of Data: The benchmark was not met.

- Practitioner: one student achieved 100% of all ACEI standards in all subjects.
- PBC: two students:
 - Biology 105: ACEI Standard 2.2: 50% achieved
 - Science: ACEI 2.2: 75% achieved
 - Math 113, 130, and 231: Standard 2.3: 50% achieved goal for all three courses.

Plan for Continuous Improvement: Raise the overall GPA from 2.0 to 2.5 to be consistent with other universities.

Recommendation for Successful Implementation of Plan for Improvement:

- Data analysis of students' academic profile and Praxis scores will be conducted on students who either did not complete the program or required an extended stay in the program to determine whether a recommendation for increasing the overall GPA requirement from 2.0 to 2.5 to be consistent with other universities.
- Using the data analysis, meet as a faculty to make and implement the recommendation to raise the overall GPA for acceptance into the program from 2.0 to 2.5 to be consistent with other universities.

Program outcomes

LTGC A

The teacher candidate demonstrates, at an effective level, the Louisiana Components of Effective Teaching as defined in Bulletin 130 and the Compass Teacher Rubric.

LTGC B

The teacher candidate demonstrates mastery of the content knowledge and skills and content pedagogy needed to teach the current academic standards as defined in BESE policy.

LTGC C1

The teacher candidate observes and reflects on students'™ responses to instruction to identify areas of need and make adjustments to practice.

LTGC C2

The teacher candidate gathers, synthesizes, and analyzes a variety of data from a variety of sources to adapt instructional practices and other professional behaviors to better meet students'™ needs.

LTGC C3

The teacher candidate uses structured input and feedback from a variety of sources (e.g., colleagues, mentor teachers, school leaders, preparation faculty) to make changes to instructional practice and professional behaviors to better meet students'™ needs.

LTGC D

The teacher candidate elicits and uses information about students and their experiences from families and communities to support student development and learning and adjust instruction and the learning environment.

LTGC E

The teacher candidate applies knowledge of state and federal laws related to students'™ rights and teacher responsibilities for appropriate education for students with and without exceptionalities, parents, teachers, and other professionals in making instructional decisions and communicating with colleagues and families (e.g., laws and policies governing student privacy, special education, and limited English proficient education, including but not limited to Bulletin 1508, Bulletin 1530, Bulletin 1706, and Bulletin 1903).

LTGC F

The teacher candidate differentiates instruction, behavior management techniques, and the learning environment in response to individual student differences in cognitive, socio-emotional, language, and physical development.

LTGC G

The teacher candidate develops and applies instructional supports and plans for an Individualized Education Plan (IEP) or Individualized Accommodation Plan (IAP) to allow a student with exceptionalities developmentally appropriate access to age- or grade-level instruction, individually and in collaboration with colleagues.

LTGC H

The teacher candidate applies knowledge of various types of assessments and their purposes, strengths, and limitations to select, adapt, and modify assessments to accommodate the abilities and needs of students with exceptionalities.

End of report
