

Multiple Levels Grades K-12 [IA**]

Cycles included in this report:

Jun 1, 2017 to May 31, 2018

This PDF document includes any files attached to fields in this report.

To view the attachments you should view this file in Adobe Acrobat XI or higher, or another PDF viewer that supports viewing file attachments.

The default PDF viewer for your device or web browser may not support viewing file attachments embedded in a PDF.

If the attachments are in formats other than PDF you will need any necessary file viewers installed.

Program Name: Multiple Levels Grades K-12 [IA]****Reporting Cycle: Jun 1, 2017 to May 31, 2018****1 Is this program offered via Distance Learning?**

100% Traditional or less than 50% Distance/Traditional

2 Is this program offered at an off-site location?

Yes

2.1 If yes to previous, provide addresses for each location where 50% or more of program credits may be earned.

McNeese State University at Fort Polk.

3 Example of Program Improvement

2015-2016:

In analyzing the data throughout our assessments, it was determined that our students performed well in assessments based on candidate performance; whereas, assessments focusing on candidate's ability to lesson plan or apply student data/knowledge to drive instruction candidates scored lower, often falling below the proficiency benchmark set by the department. Since the candidates' performance scores are consistently high in performance assessments, it is possible that the high scores may indicate that evaluators are not critical enough for our candidates. Due to this observation, more training on critical feedback, inter-rater reliability spot checks, and a candidate evaluation on the effectiveness of the feedback was implemented throughout the College of Education in May 2016. Professional development will continue that focuses on different components of the observation process.

2016-2017:

Assessment to improve instruction: Program involvement in required licensure exams and ongoing curriculum review of the PBC K-12 program ensures that candidates are adequately prepared in the area of content knowledge. Assessment data analysis of course grades and the PRAXIS II Content Knowledge exam reveal that candidates are acquiring the necessary knowledge to integrate theories and research with respect to each content area (Reading/Language Arts, Mathematics, Social Studies, and Science). PRAXIS II Content scores and course grades indicate that candidates possess knowledge in the content areas and have an understanding of the central concepts and structures as they relate to PBC K-12 classrooms. Assessment data collected from the FEE instrument which is utilized to assess candidate lesson planning and evaluation throughout the Program through to the student teacher experience, shows solid evidence that our candidates are able to demonstrate preparedness in the content areas.

Pedagogical and Professional Knowledge, Skills, and Dispositions: Data from the Field Experience Evaluation-form (FEE) assessment used to evaluate candidates in program courses and student teaching are reviewed regularly by program faculty, university supervisors, and staff within the Office of Student Teaching and Professional Education Services. Collaboration with the area school district E3 initiative provides pre-service teachers the opportunity to develop technology skills as they relate to teaching and learning. This collaborative project equips candidates with skills necessary to integrate the use of instructional technology (e.g. Promethean Interactive whiteboard technology boards) into daily lessons.

Student Learning: During student teaching, candidates must complete the P-12 Teacher Candidate Work Sample by selecting a unit of instruction, administering a pre/post assessment on that unit of instruction, and analyzing the student performance results. This analysis requires candidates to compare the pre/post results and calculate the difference in student performance. Candidates further use the data for re-teaching purposes within their assigned classrooms. Information from this assessment is used by program faculty to develop student teaching seminars and course-embedded workshops to support candidates in the creation of future work samples.

2017-2018:

Candidates have maintained a 100% first time pass rate on the Praxis Content exams for the past three semesters.

4 Program Highlights from the Reporting Year

2015-2016:

We implemented a Co-teaching model and professional development for Post teacher candidates in conjunction with the local P-12 school system. Teacher candidates, cooperating teachers, and university supervisors work together to build a co-teaching relationship for the teacher candidate's student teaching or intern experience. During multiple professional development opportunities, each member of the triad (teacher candidate, cooperating teacher, and university supervisor) receives information on co-teaching and how to make it successful for all involved in the process as well as participates in relationship building activities. The goal of the Co-teaching model and professional development is to improve the student teaching or internship experience in order to further the success of our students during their final semester.

2016-2017:

The Department of Education Professions PBC K-12 Program continues to enhance course development with the alignment of required elements, as well as implement new and enhanced learning experiences for the candidates. For example, the department implemented a Co-teaching model and professional development for PBC K-12 teacher candidates in conjunction with the local school system. Teacher candidates, cooperating teachers, university professors (the pool of which has been strengthened in the Department of Education professions), and university supervisor's work together to build a co-teaching relationship for the teacher candidate's student teaching experience. The goal of the Co-teaching model and professional development is to improve the student teaching experience in order to further the success of our students during their final semester. McNeese faculty and CPSB teachers come together to provide professional development and serve as mentors for student teacher candidates in the Believe and Prepare Collaboration. This collaboration instills the Co-Teaching Model.

2017-2018:

All programs are being redesigned to include the one year residency. Course scope and sequences are being addressed.

5 Program Mission

The purpose of the Post Baccalaureate certificates in K- 12 is to prepare candidates for successful entry into education as school teachers by providing opportunities for developing expertise in content knowledge, teaching methods and strategies, communication skills, behavior management, and the professional dispositions that will enable completers of the program to succeed as teachers within K-12 grade levels.

6 Institutional Mission Reference

7 Assessment and Benchmark Enrollment, Completion, Retention, and Recruitment

Assessment: Enrollment, Completion, Retention, and Recruitment.

7.1 Benchmark: Create and monitor candidate progress throughout the program. A minimum of 90% of candidates should complete the PBC program in Elementary Education within two years of being accepted into the program (499 packet).

7.2 Benchmark: Create and monitor candidate progress throughout the program. A minimum of 90% of candidates should complete the PBC program in Elementary Education within two years of being accepted into the program (499 packet).

Outcome Links

2013 CAEP Standards [External]

3. Quality, Recruitment, and Selectivity

The provider demonstrates that the quality of candidates is a continuing and purposeful part of its responsibility from recruitment, at admission, through the progression of courses and clinical experiences, and to decisions that completers are prepared to teach effectively and are recommended for certification.

The provider demonstrates that development of candidate quality is the goal of educator preparation in all phases of the program. This process is ultimately determined by a program's meeting of Standard 4.

7.1 Data

Enrollment and Completer Data:

Combined Multiple Levels Grades K-12: ART, HPE, MUSIC-Instrumental, MUSIC-Vocal:

Academic Year	# of students officially enrolled in program with an EDUC 499 packet	# of completers fall semester	# of completers spring semester	Total # of completers
2013-2014	3			5
2014-2015	2			4

2017-2018	0	0	0	0

7.1.1 Analysis of Data and Plan for Continuous Improvement

2015-2016:

Enrollments have remained approximately the same over the three year period. Recruitment

efforts to increase enrollment in these areas will be developed.

2016-2017:

Enrollment has increased from 2014-2015 to 2016-2017 by 30%, however, the amount of completers between 2014-2015 and 2016-2017 has decreased 50%. A recruitment committee has been formed to assess this data and review the five year recruitment plan. Also, the Pinnacle Award was Granted to support a 'Geaux Teach' Day in which local high school students are invited to McNeese's campus to participate in teaching sessions. The goal of this event is to encourage high school student enrollment into the Department of Education Professions. Lastly, the Department of Education Professions is currently setting up a Facebook page in order to have a social media presence to encourage PBS K-12 faculty schedule regular meetings to discuss CAEP requirements and plan recruitment activities in fall 2017 and spring 2018. Regular meetings stimulate ideas about recruitment programs designed to pique interest in, and instill confidence in, the EPP at McNeese. The individual programs housed in the content colleges launch, and participate in, recruitment activities as well throughout the year that include parents/families of candidates – i.e. Cowboy Q&A day/McNeese Preview Day.

2017-2018:

Analysis of Data: The benchmark was met. There was an increase of 40% in enrollment from 2016-2017 to 2017-2018.

Plan for Continuous Improvement: The EPP has set a goal to increase enrollment by 7% across programs each year from fall 2017 to fall 2021 to coincide with the MSU Strategic Plan goal concerning enrollment and recruitment. Because of the small numbers in the program, the EPP will work to increase next years enrollment number by at least 10%

Recommendation for Successful Implementation of Plan for Improvement:

- The EPP will contact and establish relationships with principals (5) from a five local parishes (Calcasieu, Cameron, Jeff Davis, Allen & Beauregard) to disseminate information about departmental programs and activities. The principals are involved in the collaborative process which also meets the CAEP goal of stakeholder input.
- Going beyond traditional approaches of recruitment and partnering with the Office of Admissions and Recruiting, the EPP will actively recruit within the community at least four times each academic year.
- Faculty will attend 10 Retention and Recruitment sessions during fall 2018- spring 2019.
- EPP faculty will collect interest cards at the retention and recruitment sessions and follow-up will be conducted by the Office for Admissions and Recruitment.

7.2 Data

Completer Matriculation Rates:

Combined Multiple Levels Grades K-12: Art, HPE, MUSIC-Instrumental, MUSIC-Vocal:

Program Type	Cohort Academic Year	Accepted into program with 499 Packet	1-2 Years to Grad	3 Years to Grad	4 Years to Grad	5 Years to Grad	Dropped from university	State Completer	Earned Different Degree	Still Enrolled

PBC	2013-2014	0								

7.2.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Analysis of Data: The benchmark was not met. Only 57% of the candidates that entered the program in the 2013-2014 cohort completed the program within two years.

Plan for Continuous Improvement: A minimum of 90% of candidates will complete the PBC program in Elementary Education within two years of being accepted into the program (499 packet).

Recommendation for Successful Implementation of Plan for Improvement:

- Advisors will work with candidates at least twice a year to review degree plans, academic progress, and provide a list of resources for students who are in need of additional graduation and/or academic support.
- Advisors will document feedback from meetings. Data on courses taken will be gained from Degree Works. EPP faculty will determine effectiveness of resources from the feedback from the candidates.
- EPP faculty will ensure at least 4-6 resources for each content area are available to students via the online tutorial.
- The resources will be computer software related to the different areas of the Praxis exams. The resources will be available for the candidates but not required. Faculty will strongly suggest that candidates use the resources but cannot require it.
- The EPP faculty will begin to track why candidates are not completing the program.

8 Assessment and Benchmark Curriculum Development

Assessment: Curriculum Development.

Provide a comprehensive curriculum that reflects disciplinary foundations and remains responsive to contemporary developments, student and workforce demand, and university needs and aspirations.

Curriculum alignment includes:

- InTASC standards

- Program standards
- Year-long residency
- Louisiana Components of Effective Teaching
- Louisiana Teacher Preparation Competencies
- Louisiana Student Standards

CAEP Standard 2.

Benchmark: All program faculty will meet at least twice an academic year to discuss curriculum changes/implementations, assessment data, and progress monitoring of action plans.

Outcome Links

2013 CAEP Standards [External]

2. Clinical Partnerships and Practice

The provider ensures that effective partnerships and high-quality clinical practice are central to preparation so that candidates develop the knowledge, skills, and professional dispositions necessary to demonstrate positive impact on all P-12 students' learning and development.

8.1 Data

Spring 2015:

- May 11, 2015 - DEP Faculty Meeting - Master Plan 10:30-12:30
- May 13, 2015 - Master Plan 10:30-12:00

Fall 2015:

- August 18, 2015 - BCOE Meeting 1:00
- August 19, 2015 - DEP Meeting 9:00-10:00

Spring 2016:

- January 12, 2016 - QEP with Dr. John Gardner 9:30-5:00
- January 13, 2016 - QEP 9:45-12:00
- DEP Faculty meeting (General Information) 2:00-4:30
- January 29, 2016 - DEP Faculty Meeting (CAEP) 10:00-12:30
- February 17, 2016 - QEP Focus Group 12:30-2:00
- CAEP Meeting 3:00-4:00
- February 18, 2016 - CPSB - Believe and Prepare
- February 19, 2016 - CPSB - Believe and Prepare
- March 17, 2016 - CAEP Meeting
- March 21, 2016 - CPSB - Believe and Prepare (Presenters)
- April 18, 2016 - CAEP Meeting
- May 16, 2016 - DEP Workshop/SPA
- May 17, 2016 - DEP workshop/SPA
- May 26, 2016 - CAEP Webinar 3:00

PBC_K-12_Curriculum Development_17-18

8.1.1 Analysis of Data and Plan for Continuous Improvement

2015-2016:

Department of Education Professions is up for CAEP site visit in spring 2017; therefore, faculty have been meeting in preparation.

Program faculty meets at regular intervals throughout the year to discuss advising methods and program implementation.

Program Faculty will continue to collaborate with local districts to strengthen our program and prepare our teacher candidates to fully meet district needs.

2016-2017:

Meeting #: December 2016

9.1.1 Analysis of Data and Plan for Continuous Improvement

2015-2016:

First year of data collection. All candidates passed the exam before the student teaching/intern experience. Two of the three candidates passed it on the first attempt. Faculty will continue to monitor and analyze test results. Sub-scores for HHP are unavailable from ETS after two years.

2016-2017:

There are no spring 2017 graduates in Art or HHP. This chart shows that spring 2016 yielded the lowest Praxis Content pass rates. Art received a 50% pass rate in spring 2016 which fell below the department benchmark of 80% pass rate; whereas, fall 2015 and fall 2016 indicated 100% pass rate on the first attempt.

From fall 2015 through fall 2016, 100% of the candidates who took the exam, passed the Praxis II examination prior to student teaching.

Data reported on this assessment reflect performance of candidates in our program demonstrated knowledge of the content associated with K-12 programs. Art professors in the content college have been encouraged to send a representative to take the Praxis exam in order to effectively address components of exam.

2017-2018:

Analysis of Data: The benchmark was met. 100% (3/3) of the candidates passed the exam on the first attempt. Health and PE candidate scored 76% correct and above on the subcategories of the exam. Art had two percentages that fell below 70% correct in the subcategories.

Plan for Continuous Improvement: A minimum of 80% of graduates will pass the Praxis content exam on the first attempt.

Recommendation for Successful Implementation of Plan for Improvement:

- Advisors will work with candidates at least twice a year to review degree plans, academic progress, and provide a list of resources for students who are in need of additional graduation and/or academic support. Advisors have a checklist that they go through to make sure that they cover specific pieces of information that are important to their advisees, but it can be revised to include additional resources for those candidates in need of additional graduation and/or academic support.
The potential benefit from the meetings will come from student feedback and ultimately from improved grades and Praxis test scores. Advisors may determine that more meetings are needed and will adjust as needed.
- EPP faculty will ensure at least 4-6 resources for each content area are available to students via the online tutorial.
- The resources are videos and computer software. We won't know if the candidates are using the resources since we can't require them to do so. We can only encourage and strongly suggest.

10 Assessment and Benchmark Lesson Planning

Assessment: Lesson Planning.

Louisiana Teacher General Competency F: The teacher candidate differentiates instruction, behavior management techniques, and the learning environment in response to individual student differences in cognitive, socio-emotional, language, and physical development.

Louisiana Teacher General Competency G: The teacher candidate develops and applies instructional supports and plans for an Individual Education Plan (IEP) or Individualized Accommodation Plan (IAP) to allow a student with exceptionalities developmentally appropriate access to age- or grade-level instruction, individually and in collaboration with colleagues.

InTASC standards included: 1, 2, 4, 5, 7, 8.

Knowledge:

Learner Development: InTASC Standard 1 - The candidate determines how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas

Learning Differences: InTASC Standard 2 - The candidate identifies individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards

Content Knowledge: InTASC Standard 4 - The candidate applies the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches

Application of Content: InTASC Standard 5 - The candidate decides how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues

Planning for Instruction: InTASC Standard 7 - The candidate draws upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context to plan instruction that supports every student in meeting rigorous learning goals

Skills:

Instructional Strategies: InTASC Standard 8 - The candidate implements a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways

CAEP Standard 1

Benchmark: A minimum of 80% of the candidates will score at the Proficiency level (3.00) or higher in each category on the lesson plan assessment.

Prior to 2017-2018, the benchmark was a score of 2.50.

Outcome Links

LTGC F [Program]

The teacher candidate differentiates instruction, behavior management techniques, and the learning environment in response to individual student differences in cognitive, socio-emotional, language, and physical development.

LTGC G [Program]

The teacher candidate develops and applies instructional supports and plans for an Individualized Education Plan (IEP) or Individualized Accommodation Plan (IAP) to allow a student with exceptionalities developmentally appropriate access to age- or grade-level instruction, individually and in collaboration with colleagues.

2013 CAEP Standards [External]

1. Content and Pedagogical Knowledge

The provider ensures that candidates develop a deep understanding of the critical concepts and principles of their discipline and, by completion, are able to use discipline-specific practices flexibly to advance the learning of all students toward attainment of college- and career-readiness standards.

2013 InTASC Standards [External]

1. Learner Development

The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

2. Learning Differences

The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

4. Content Knowledge

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

5. Application of Content

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

7. Planning for Instruction

The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

8. Instructional Strategies

The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

10.1 Data

2017-2018:

Data tables are attached.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

PBC_K-12_Lesson Plan_17-18

PBC_K-12_Lesson Plan_17-18.2

10.1.1 Analysis of Data and Plan for Continuous Improvement

2015-2016:

This was the first year for this assessment.

Benchmark was met with a mean of 2.70 being obtained on all elements of the lesson plan rubric. A co-teaching model is now being incorporated in an attempt to improve the teaching skills and knowledge of candidates, especially within the planning aspect of teaching. The lesson plan rubric has also been revised and now is more rigorous.

2016-2017:

Candidate scores consistently did not reach the benchmark of 2.50 for the lesson planning element - Essential Questions. It is recommended this vital area be emphasized more in the Assessment class and in the Methods courses that candidates take. It is important to note that since there were only two candidates being assessed with this assessment a low score on any element of the assessment would not likely be raised by others due to low number of candidates.

Faculty will utilize new lesson plan template with specific content criteria to facilitate lesson planning instruction. Instructors will plan and implement additional strategies to improve scores on the Essential question element with these post-baccalaureate candidates.

2017-2018:

Analysis of Data: The benchmark was not met. There was one areas for Health and Physical science in which the mean benchmark of 3.00 was not met: Pre-planned SEED Questions.

Plan for Continuous Improvement: A minimum of 80% of the candidates will score at the Proficiency level (3.00) or higher in each category on the lesson plan assessment. The goal is proficiency in all areas in the lesson plan. In the analysis we track the areas on the lesson plan.

Recommendation for Successful Implementation of Plan for Improvement:

- Faculty will model and explain the elements of the lesson plan for effective implementation in classroom setting.
- The courses are EDUC 316, 326, 325, 327, 320, 416, and 414. There will be assignments where students will have to create lesson plans and will be scored on the components of the lesson plan.
- Faculty will provide for candidates to peer assess each other in regards to the

elements of the lesson in an effort to deepen understanding.

- The candidates will be providing each other feedback to ensure that they meet the requirements for achieving proficiency level (3.00) on the lesson plan assessment.

11 Assessment and Benchmark Field Experience Evaluation

Assessment: Field Experience Evaluation Domains 1-4 and Domain 5.

Louisiana Teacher General Competency A: The teacher candidate demonstrates, at an effective level, the Louisiana Components of Effective Teaching as defined in Bulletin 130 and the Compass Teacher Rubric.

Louisiana Teacher General Competency C2: The teacher candidate gathers, synthesizes, and analyzes a variety of data from a variety of sources to adapt instructional practices and other professional behaviors to better meet students' needs.

InTASC standards included: 1, 2, 3, 4, 5, 6, 7, 8, 9.

Knowledge:

Learning Differences: InTASC Standard 2 - The candidate identifies individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Content Knowledge: InTASC Standard 4 - The candidate applies the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches.

Skills:

Learner Development: InTASC Standard 1 - The candidate designs and implements developmentally appropriate and challenging learning experiences.

Learning Environments: InTASC Standard 3 - The candidate works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

Content Knowledge: InTASC Standard 4 - The candidate creates learning experiences that make aspects of the discipline accessible and meaningful for learners to assure mastery of the content.

Application of Content: InTASC Standard 5 - The candidate engages learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues by connecting concepts and using differing perspectives.

Assessment: InTASC Standard 6 - The candidate uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learners' decision making.

Planning for Instruction: InTASC Standard 7- The candidate plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Instructional Strategies: InTASC 8 - The candidate implements a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Dispositions:

Professional Learning and Ethical Practice: InTASC 9 - The candidate engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

CAEP Standard 1

Candidates will achieve a score of 2.00 or higher on their FEE evaluation at the end of their internship or student teaching semester.

11.1 Benchmark: Candidates will score a 3.00 or higher on each element in the FEE rubric for Domains 1-4.

11.2 Benchmark: Candidates will score a 3.00 or higher on each element in the FEE rubric for Domain 5.

[Outcome Links](#)

LTGC A [Program]

The teacher candidate demonstrates, at an effective level, the Louisiana Components of Effective Teaching as defined in Bulletin 130 and the Compass Teacher Rubric.

LTGC C2 [Program]

The teacher candidate gathers, synthesizes, and analyzes a variety of data from a variety of sources to adapt instructional practices and other professional behaviors to better meet students'™ needs.

2013 CAEP Standards [External]

1. Content and Pedagogical Knowledge

The provider ensures that candidates develop a deep understanding of the critical concepts and principles of their discipline and, by completion, are able to use discipline-specific practices flexibly to advance the learning of all students toward attainment of college- and career-readiness standards.

1. Content and Pedagogical Knowledge

The provider ensures that candidates develop a deep understanding of the critical concepts and principles of their discipline and, by completion, are able to use discipline-specific practices flexibly to advance the learning of all students toward attainment of college- and career-readiness standards.

2013 InTASC Standards [External]

1. Learner Development

The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

2. Learning Differences

The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

3. Learning Environments

The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

4. Content Knowledge

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

5. Application of Content

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

6. Assessment

The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's™ and learner's™ decision making.

7. Planning for Instruction

The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

7. Planning for Instruction

The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

8. Instructional Strategies

The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

8. Instructional Strategies

The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

9. Professional Lrng & Ethical Practice

The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

9. Professional Lrng & Ethical Practice

The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

PBC_K-12_FEE Domains 1-4_17-18

11.1.1 Analysis of Data and Plan for Continuous Improvement

2015-2016:

Began collecting data in 2014-2015.

Benchmark was met. Four domains were all above the minimum mean of 2.80. The mean of all the domains was 3.50. Co-teaching has been incorporated into the clinical setting as a possible means of improving future teacher skills and knowledge.

2016-2017:

It is apparent that the candidates had a strong grasp of the content knowledge and demonstrated this during the clinical experience. All FEE Data is pulled from candidates' final semesters in our program. The mean score of the FEE content knowledge assessment shows evidence that this is a strong point regarding candidate preparation and background in the subject matter content.

Overall these Post-Baccalaureate candidates were successful in planning a cohesive lesson plan, planning for behavior management, providing for quality of questions, and planning for assessment. Faculty will continue to spend time mentoring these students with this instrument and understanding of the process as a whole. In the future, data will be triangulated from the beginning, middle, and end of the program to identify future weaknesses within instruction or student abilities.

2017-2018:

Analysis of Data: The benchmark was met. 86% or more candidates scored at proficiency or higher in each of the Domains 1-4.

Plan for Continuous Improvement: Candidates will score a 3.00 or higher on each element in the FEE rubric for Domains 1-4.

Recommendation for Successful Implementation of Plan for Improvement:

- Faculty and University Supervisors will conduct pre and post conferences with all candidates to discuss expectations for the lesson taught.
- Candidate feedback will determine the effectiveness of the conferences. Change will be determined by the scores on the FEE.
- Faculty will host FEE workshop for candidates and cooperating teachers.
- Candidates will indicate their understanding of the FEE from pre and post conference and document this growth of knowledge on quadrant chart. EPP faculty can then identify areas of need and further remediation.

11.2 Data

2017-2018:

Data table is attached.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

PBC_K-12_FEE Domain 5_17-18

11.2.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Analysis of Data: The benchmark was met.

Plan for Continuous Improvement: Candidates will score a 3.00 or higher on each element in the FEE rubric for Domain 5.

Recommendation for Successful Implementation of Plan for Improvement:

- Faculty and University Supervisors will conduct pre and post conferences with all candidates to discuss expectations for the lesson taught.
- Candidate feedback will determine the effectiveness of the conferences. Change will be determined by the scores on the FEE
- Faculty will host FEE workshop for candidates and cooperating teachers.
- Candidates will indicate their understanding of the FEE from pre and post conference and document this growth of knowledge on quadrant chart. EPP faculty can then identify areas of need and further remediation.

12 Assessment and Benchmark Teacher Candidate Work Sample

Assessment: Teacher Candidate Work Sample.

Louisiana Teacher General Competency H: The teacher candidate applies knowledge of various types of assessments and their purposes, strengths, and limitations to select, adapt, and modify assessments to accommodate the abilities and needs of students with exceptionalities.

Louisiana Teacher General Competency C1: The teacher candidate observes and reflects on students' responses to instruction or identify areas of need and make adjustments to practice.

InTASC standards included: 6

Skills:

Assessment: InTASC Standard 6 - The candidate uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

CAEP Standard 1

Benchmark: Candidates will score a 3.00 or above on each of the elements of the Teacher Candidate Work Sample rubric.

Prior to 2016-2017 the benchmark was a score of 2.50.

*Data not available for Fall 2017 - Spring 2018 candidates.

12.1.1 Analysis of Data and Plan for Continuous Improvement

2015-2016:

Began reporting this year.

Candidate scores did not reach the benchmark of a mean of 2.50. A mean of 2.20 was achieved. It is possible that the low scores on Pre Assessment and RTI were the causes for the low overall mean. It is recommended that the vital areas of Pre Assessment and RTI are emphasized more in the Assessment class and in the Methods courses that candidates take. It is important to note that since there were only two candidates being assessed with this assessment a low score on any element of the assessment would not likely be raised by others due to low number of candidates.

2016-2017:

It is apparent that these candidates had a strong grasp of Choice of Assessment in fall 2015 and spring 2016, Student Level of Mastery in fall 2015, and Pre-Assessment in fall 2016. This appears to be a strong point regarding candidate preparation and background in the subject matter content. They consistently met the benchmark in Post-Assessment, but otherwise the benchmark mean on the TCWS of 3.00 out of a possible 4.00 was not met. Candidates scored below the benchmark of 3.00 in the areas of Pre-Assessment, Alignment of Lesson Evidence, and Response to Intervention. Instructors believe the lower mean scores are directly related to the low number of candidates participating in the data pool. Instructors will continue to instruct post-baccalaureate candidates on the importance of pre and post testing as an essential piece of assessment. Recently, the department implemented clearer expectations in courses leading up to student teaching. Previous changes will stay in place to see if continued student success is indicated in the data.

2017-2018:

Analysis of Data: There was no data available for the completers in 2017-2018.

Plan for Continuous Improvement: Data will be reported in the upcoming academic year so that it can be analyzed.

Recommendation for Successful Implementation of Plan for Improvement: Data will be collected in the appropriate courses, analyzed and reported in the Google Drive at the end of each semester.

13 Assessment and Benchmark PRAXIS PLT

Assessment: Praxis Principles of Learning and Teaching.

Louisiana Teacher General Competency B: The teacher candidate demonstrates mastery of the

content knowledge and skills and content pedagogy needed to teach the current academic standards as defined in BESE policy.

Louisiana Teacher General Competency E: The teacher candidate applies knowledge of state and federal laws related to students' rights and teacher responsibilities for appropriate education for students with and without exceptionalities, parents, teachers, and other professionals in making instructional decisions and communicating with colleagues and families (e.g., laws and policies governing student privacy, special education, and limited English proficient education, including but not limited to Bulletin 1508, Bulletin 1706, and Bulletin 1903).

InTASC standards included: 10

Dispositions:

Leadership and Collaboration: InTASC 10 - The candidate seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

Benchmark: 80% of the candidates will pass the Praxis Principles of Learning and Teaching exam on the first attempt.

13.1.1 Analysis of Data and Plan for Continuous Improvement

2016-2017:

PBC K-12 candidates scored within the range of 173-181 on the PLT. Passing score is 157. Instructors will continue to stress the importance of not taking the PLT exam until after the completion of EDUC 203 - Theories and Principles of Learning and Teaching: A practical application of research based on learning theory. This course provides an overview of teaching in today's society and strategies of effective teaching, and has an educational psychology focus. Since 100% of students pass the PLT prior to student teaching and on the students' first attempt, the Department plans on relaying this data to the Educational Advisory board in order to encourage accurate advising to continue this high student success rate.

2017-2018:

Analysis of Data: The benchmark was met. 100% of the candidates passed on the first attempt.

Plan for Continuous Improvement: 80% of the candidates will pass the PLT on the first attempt.

Recommendation for Successful Implementation of Plan for Improvement: Candidates scored well in each area of the PLT. Therefore, faculty will continue to cover the topics in the coursework and will ensure that these topics are also included and scaffolded in the redesigns of the programs.

Program outcomes

LTGC A

The teacher candidate demonstrates, at an effective level, the Louisiana Components of Effective Teaching as defined in Bulletin 130 and the Compass Teacher Rubric.

LTGC B

The teacher candidate demonstrates mastery of the content knowledge and skills and content pedagogy needed to teach the current academic standards as defined in BESE policy.

LTGC C1

The teacher candidate observes and reflects on students'™ responses to instruction to identify areas of need and make adjustments to practice.

LTGC C2

The teacher candidate gathers, synthesizes, and analyzes a variety of data from a variety of sources to adapt instructional practices and other professional behaviors to better meet students'™ needs.

LTGC C3

The teacher candidate uses structured input and feedback from a variety of sources (e.g., colleagues, mentor teachers, school leaders, preparation faculty) to make changes to instructional practice and professional behaviors to better meet students'™ needs.

LTGC D

The teacher candidate elicits and uses information about students and their experiences from families and communities to support student development and learning and adjust instruction and the learning environment.

LTGC E

The teacher candidate applies knowledge of state and federal laws related to students'™ rights and teacher responsibilities for appropriate education for students with and without exceptionalities, parents, teachers, and other professionals in making instructional decisions and communicating with colleagues and families (e.g., laws and policies governing student privacy, special education, and limited English proficient education, including but not limited to Bulletin 1508, Bulletin 1530, Bulletin 1706, and Bulletin 1903).

LTGC F

The teacher candidate differentiates instruction, behavior management techniques, and the learning environment in response to individual student differences in cognitive, socio-emotional, language, and physical development.

LTGC G

The teacher candidate develops and applies instructional supports and plans for an Individualized Education Plan (IEP) or Individualized Accommodation Plan (IAP) to allow a student with exceptionalities developmentally appropriate access to age- or grade-level instruction, individually and in collaboration with colleagues.

LTGC H

The teacher candidate applies knowledge of various types of assessments and their purposes, strengths, and limitations to select, adapt, and modify assessments to accommodate the abilities and needs of students with exceptionalities.

End of report
