Office of Admissions and Recruiting

## Introduction

The mission of the Office of Admissions and Recruiting is to organize, promote, and conduct collegiate recruiting efforts and to disseminate accurate information about the University which will result in an increase of qualified new applicants and enrolled students to the University. The unit is also responsible for marketing to prospective students and processing all domestic applications for admissions.

The Office of Admissions and Recruiting provides prospective students with information on admission to the University in person and via the website, phone, mail, and email. This office also processes paperwork for all incoming domestic students and sends correspondence with the status of the prospective student's admission application. The office coordinates open houses and campus tours and represents the University at college and career fairs as additional avenues to disseminate information to prospective students.

To assist our distance education students, this office provides all information and forms on our website and accepts documents by fax, mail, or email. In addition, our students communicate daily by email to ask questions, seek guidance, and/or submit any necessary documents.

## Performance Objective 1 Increase the number of enrolled students to the University.

### 1 Assessment and Benchmark

Benchmark: Increase enrolled students by 1.5% over prior academic year.

Note: For 2015-2016, re-entry numbers will increase due to a change in re-entry policy. In the past, a former student applied for re-entry after non-attendance for one year. The new policy states a former student must apply for re-entry after non-attendance for a fall or spring semester.

#### 1.1.1 Analysis of Data and Plan for Continuous Improvement

2016-2017:

This objective use to be separate for undergraduate and graduate students. It will be combined moving forward. The number of new enrolled undergraduate students (transfer, re-entry, and first-time freshmen) decreased -7.24% over the prior academic year. The performance indicator was not met. Continue to make revisions to marketing plan for undergraduate students to improve enrollment numbers.

The number of newly enrolled graduate students (transfers, re-entry, and first-time) decreased -6.43% over prior year.

Put more focus on applying resources to areas of opportunity (online programs).

2017-2018:

The number of enrolled students increased by 4.95% over the prior academic year. The benchmark was met. For next year, we need to create separate communication plans for transfer, re-entry, and graduate students (texting & emails). We also need to develop transfer and graduate brochures for fairs and mailings.

Once we know the direction the university wants go with its strategic plan, we can focus our recruiting efforts on particular academic programs. Lastly we can research our McNeese graduates to determine predictors for success and identify the high schools they graduated from.

## Performance Objective 2 Increase start rate of all student types and measure yield.

### 1 Assessment and Benchmark

Benchmark: Increase start rate of accepted students by 1.0% over prior academic year.

Meet or exceed the average start rate of the three previous academic years.

#### 1.1 Data

Total Student Start Data:

Academic Year	FTF Accepted	Transfer Accepted	UG Readmit	FT Grad	Grad Readmit	Grad Transfer	Total Accepted	Total Starts	Start Rate	% Change
2014	1987	447	510	264	72	40	3320	2123	63.94%	0.83%
2015	2385	428	699	235	55	43	3845	2368	61.58%	2.36%
2016	1943	389	632	197	41	29	3231	2119	65.58%	-4.0%

2017	1982	408	631	226	52	28	3327	2224	66.94%	1.36%
------	------	-----	-----	-----	----	----	------	------	--------	-------

### 1.1.1 Analysis of Data and Plan for Continuous Improvement

2016-2017:

This objective use to be separated between undergraduate & graduate school. Moving forward it is now combined.

The start rate of accepted first-time freshmen and undergraduate transfer students increased 2.5% over the prior academic year. The performance indicator was met. The start rate of accepted first-time freshmen and undergraduate transfer students was 66.0%, which was higher than the average start rate of the three previous academic years. The performance indicator was met. Continue to revise marketing plan for undergraduate transfer students to increase start rate. Focus on applying resources to areas of opportunity (transfer students and online programs).

The start rate of accepted transfer and first-time graduate students increased 4.1% over prior year. The performance indicator was met.

The start rate of accepted graduate students was 72.4%, the performance indicator for average state rate was not met.

2017-2018:

With the percentage change from prior year of 1.36%, we have met our benchmark for yield. The average start rate for 2014-2015, 2015-2016, and 2016-2017 is 63.7%. For 2017, we exceeded our goal with an increase of 3.2%.

We will work on the communication plans (emails, texting, marketing) that go to accepted students. I do not think that application numbers and numbers of accepted students are our problem; it is getting them to enroll and be here for the first day of class.

## Performance Objective 3 Provide exemplary customer service to prospective students, students, faculty, staff, and other patrons of the University in an effort to support the University's recruitment and retention efforts.

### 1 Assessment and Benchmark

Benchmark: On the campus tour survey, score at least 4.0 (agree) on all items.

Note: For 2015-2016, due to change in administration, the surveys were not completed that year.

**1.1.1 Analysis of Data and Plan for Continuous Improvement**

2017-2018:

Campus Tour Surveys were emailed to students and parents returning from their tour. We are meeting our performance indicators.

We will take suggestions from the consulting company when they start their visits and data is analyzed. They did suggest in their first visit to McNeese that we use current McNeese students attending the university as campus tour guides, so we have started implementation.

**2 Assessment and Benchmark**

Benchmark: On the high school counselor survey, score at least 4.0 (agree) on all items.

Note: For 2015-2016, Counselor Surveys were not given to participants at the annual counselor’s conferences held at McNeese, in Lafayette, Gonzalez, Alexandria, and Beaumont. Due to change in administration, the surveys were not completed that year.

**2.1 Data**

Counselor's Conference Survey:

**2.1.1 Analysis of Data and Plan for Continuous Improvement**

2016-2017:

Counselor surveys were given to participants at the annual counselor conferences held at McNeese, Lafayette, and Beaumont (Due to flooding, the Alexandria and Gonzalez conferences were cancelled). We are meeting our performance indicators.

Revise handouts illustrating programs highlights for counselors to take back to their schools.

2017-2018:

Counselor Surveys were emailed to participants at the annual counselor’s conferences held at McNeese and in Lafayette. Due to Hurricane Harvey, we were not able to host a conference in Beaumont, TX. We are meeting our performance indicators.

We know that the relationships with high school counselors are extremely important. These conferences are a great tool to connect and share resources. We look forward to the consulting company giving us suggestions on ways to improve these sessions.

Next year, we will review our survey and see if we can be more specific with the questions we ask about topics presented on during the event.

**3 Assessment and Benchmark**

Benchmark: On the Fall Preview Day survey:

- Score at least 4.0 (agree) on all items.
- At least 65% of respondents will indicate that they are more likely to attend McNeese after Fall Preview Day.

**3.1 Data**

**3.1.1 Analysis of Data and Plan for Continuous Improvement**

2017-2018:

Q&A Day Surveys were distributed to all participants and their parents via e-mail after the fall preview day. On the survey, the average score on all items exceeded the performance indicator of 4.0 (agree). There were decreases in scores on the campus tour, housing tour, and the housing presentation. We will meet with the housing department to discuss if and how things were delivered this year. See if there can be improvements with different handouts or visual aids. We will also meet with our student tour guides that give the campus tours for this event. We will increase training before the event and see if we need to adjust their route to make the tour more enjoyable.

Only 55.6.% of the respondents indicated that they were more likely to attend McNeese after Q&A Day, which did not meet the performance indicator.

Next year, we want to change the performance indicator to 60% for most likely to attend McNeese after Preview Day. We also want to change the average score on the performance indicator to 4.6 (agree). We will take suggestions from the consulting company on ways to improve this event.

**Performance Objective 4 Increase the number of visits to K-12 institutions.**

**1 Assessment and Benchmark**

Benchmark: Meet or exceed the average number of visits to K-12 institutions for the two previous academic years. The average number of visits for AY 15-16 and 16-17 is 260.

**1.1 Data**

Total	220	206	216	245	275	298

### 1.1.1 Analysis of Data and Plan for Continuous Improvement

2016-2017:

Develop additional data points to determine the high schools with the largest number of students choosing McNeese and highest retention rates. Use this information when scheduling recruiting visits.

2017-2018:

The number of visits to K-12 institutions for 2017-2018 was 298, exceeding the performance indicator. We tried to schedule more private visits this year and also worked closely with Betty Anderson to send a recruiter when she traveled the five parish area high schools in the spring semester to present on the dual enrollment program. Develop additional data points to determine the high schools with the largest number of students choosing McNeese and highest retention rates. Use this information when scheduling recruiting visits (this was not done last year, so I would want to implement it this year). The consulting company will play a large part in strategically planning recruiting efforts next year based on previous enrollment data.
