If the attachments are in formats other than PDF you will need any necessary file viewers installed.

Program Name: Music [MUSC]**Reporting Cycle: Jun 1, 2022 to May 31, 2023****1 Is this program offered via Distance Learning?**

50-99% Distance/Traditional

2 Is this program offered at an off-site location?

No

2.1 If yes to previous, provide addresses for each location where 50% or more of program credits may be earned.**3 Example of Program Improvement**

2018-2019:

2019-2020:

2020-2021:

2021-2022:

- Retention rates have not been steady the past 2 years due to unique circumstances (COVID, weather events).
- Number of Music graduate has continued to meet or surpassed Board of Regents benchmark.
- Student scores on the Major Performance Area Entrance Diagnostic Exam continue to improve.
 - Increased scores on the diagnostic exam have led to greater student retention from year one - year two.

2022-2023:

4 Program Highlights from the Reporting Year

2018-2019:

- 2018-2019 Bachelor of Music Graduate Statistics
 - 2018-2019 Bachelor of Music - Music Education Instrumental graduates (8 total) are:
 - Employed as full-time music educators (6 of 8).
 - Enrolled in graduate studies (2 of 8).
 - 2018-2019 Bachelor of Music - Music Performance Instrumental graduates (2 total) are:
 - Employed as full-time music educators (1 of 2).
 - Employed as full-time professional musician (1 of 2).
 - 2018-2019 Bachelor of Music - Music Education Vocal graduate (1 total) is:
 - Employed as full-time music educators (1 of 1).
 - 2018-2019 Bachelor of Music - Music Performance Vocal graduates (4 total) are:
 - Enrolled in graduate studies (2 of 4)
- Student Recruitment
 - HDPa actively recruited 136 students.

2019-2020:

2020-2021:

2021-2022:

2022-2023:

5 Program Mission

The Department of Performing Arts provides the opportunity for students to develop their talent and potential as creative artists in theatre and music and as music educators. To this end, the department offers curricula, coursework and experiences in music, music education and theatre, that prepare students for professional careers and graduate school entrance in music, music education, and theatre arts. To students with other majors, the department provides minor degrees in music and theatre, survey courses in music, and performances opportunities that enhance the quality of a liberal arts education and enrich the lives of all students.

6 Institutional Mission Reference

The Department of Performing Arts supports the University's fundamental mission by contributing to the array of liberal arts programs at the baccalaureate level, providing K-12 music educators to serve this region, and providing cultural events at appropriate functions and ceremonies that enrich, entertain, and enhance the University and the region.

7 Assessment and Benchmark Major Performance Area Entrance Diagnostic Rubric

Assessment: Major Performance Area Entrance Diagnostic Rubric measures musicianship, expression/musicality, and sight-reading.

Benchmark: 45% of entering candidates will earn a score of 6 or above (scale 0-9) on the Major Performance Area Entrance Diagnostic Rubric.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

Music Program Performance Rubric

Outcome Links

Musicianship [Program]

Students demonstrate continued growth in musicianship and acquire a rudimentary capacity to create original or derivative music.

7.1 Data

Academic Year	Candidates that earned a score of 6 or above		
	#	%	SR
2018-2019	30/37	81%	2.32
2019-2020	15/18	83%	—
2020-2021*	13/18	72%	—
2021-2022**	15/18	83%	—
2022-2023	27/32	84%	2.22

*One candidate did not have a sight reading score so omitted. For a second candidate, two rubrics are missing, so this student was also omitted.

**One candidates' rubric did not include sight reading so omitted.

7.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

Revised benchmark of 45% was exceeded. 81% of entering candidates earned a score of 6 or above (scale 0-9) on the Major Performance Area Entrance Diagnostic Rubric.

Continue monitoring and reporting on student sight-reading score from rubric; students continually under-perform in sight-reading component of the rubric.

2019-2020:

83% of entering candidates earned a score of 6 or above (scale 0-9) on the Major Performance Area Entrance Diagnostic Rubric. Revised benchmark of 45% was exceeded.

Continue monitoring and reporting on student sight-reading score from rubric; students continually under-perform in sight-reading component of the rubric.

2020-2021:

72% of entering candidates earned a score of 6 or above (scale 0-9) on the Major Performance Area Entrance Diagnostic Rubric. Despite the reduced percentage, revised benchmark of 45% was exceeded. This is also a result of the pandemic and the hurricanes in which many incoming students may not have had access to their instruments or lessons at home.

2021-2022:

Revised benchmark of 45% was exceeded. 83% of entering candidates earned a score of 6 or above (scale 0-9) on the Major Performance Area Entrance Diagnostic Rubric. No changes at this time.

2022-2023:

84% of entering candidates earned a score of 6 or above (scale 0-9) on the Major Performance Area Entrance Diagnostic Rubric. The benchmark of 45% was exceeded. On average, incoming students score highly on musicianship and expression/musicality but need improvement in sight-reading skills. In individual weekly lessons, these students will work and improve their sight-reading skills.

8 Assessment and Benchmark Music 200/202 Major Performance Sophomore Level Board

Assessment: Major Performance Sophomore Level Board is assessed in MUSC 200 and the 202 level course in the students performance area.

Benchmark:

75% of program candidates will pass the 200/202 level major performance board requirement on the first attempt.

75% of instrumental program candidates will earn a score of 10 or above.

75% of vocal program candidates will earn a score of 12 or above.

Prior to 2013-2014, the benchmark for vocal program candidates was a score of 10.

Outcome Links

Musicianship [Program]

Students demonstrate continued growth in musicianship and acquire a rudimentary capacity to create original or derivative music.

Standards for Music Teachers [External]

2 Program Content

In addition to the common core of musicianship and general studies, the musician electing a career in school-based teaching must develop competencies in professional education and in specific areas of musicianship. Professional education components should be dealt with in a practical context, relating the learning of educational principles to the student's day-by-day work in music. Students must be provided opportunities for various types of observation and teaching. Within the curricular guidelines above, attention should be given to breadth in general studies, attitudes relating to human, personal considerations, and social, economic, and cultural components that give individual communities their identity.

b. Music Competencies

The profession of school music teacher now encompasses a wide range of traditional, emerging, and experimental purposes, approaches, content, and methods. Each institution makes choices about what, among many possibilities, it will offer prospective specialist music teachers. Institutions may offer a comprehensive curriculum involving two or more specializations and/or focus on one or more particular specializations. The following standards provide a framework for developing and evaluating a wide variety of teacher preparation program goals and achievements. Items b.(1), (2), (3), and (4) apply to all programs that prepare prospective music teachers. Items c.(1), (2), (3), (4), and (5) apply to specializations singly or in combination as determined by the focus and content of specific program offerings determined by each institution.

c. Specialization Competencies

Institutions and other educational authorities make decisions about the extent to which music teachers will be prepared in one or more specializations. The following competencies apply singly or in combination consistent with the specialization objectives of each teacher preparation program in music.

8.1 Data

Academic Year	Instrumental candidates that earned a score of 10 or above		Vocal candidates that earned a score of 12 or above		Candidates that passed on the first attempt	
	#	%	#	%	#	%
2018-2019	10/10	100%	0/2	0%	11/12	92%
2019-2020	4/4	100%	3/3	100%	7/7	100%
2020-2021	10/13	77%	2/2	100%	15/15	100%
2021-2022	10/11	91%	2/2	100%	13/13	100%
2022-2023	6/10	60%	1/2	50%	11/12	92%

8.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

Expected level of achievement was met by all instrumental candidates, and by 0/2 vocal candidates. Continue to monitor, analyze, and assess outcomes. No changes at this time.

2019-2020:

Expected level of achievement was met by all instrumentalists and vocalists. Will continue to monitor, analyze and assess outcomes. No changes at this time.

2020-2021:

Expected level of achievement was met by 10/13 (77%) of instrumentalists and by 2/2 (100%) of vocalists. All candidates passed on the first attempt. Will continue to monitor, analyze and assess outcomes. No changes at this time.

2021-2022:

All candidates passed on the first attempt. Expected level of achievement was met by 10/11 (91%) of instrumentalists and by 2/2 (100%) of vocalists. There was an increase in the level of instrumental majors completing MUSC 200/202: the highest score was 14.5 out of 15. Two students received 14.333 and the lowest score was 4. Will continue to work with the students to develop appropriate technique, musicianship, expression/musicality and sight-reading skills through assigned etudes and repertoire pieces throughout the year.

2022-2023:

92% of candidates passed MUSC 200/202 on the first attempt. 60% of instrumental majors (6/10) scored 10 or above. One student did not complete the MUSC 200/202 course and the other 3 students scored low on sight reading, tone, technique. 50% of voice majors (1/2) scored 12 or above. One vocal student scored 11.5 - the lowest score on this particular student's rubric was the sight-reading portion. Sight-reading is an area of improvement for all candidates. In order to meet the benchmark (75% of instrumentalists scoring 10 or above; 75% of vocalists scoring 12 or above), all candidates will need to focus on sight-reading excerpts and technical exercises during their weekly lessons.

9 Assessment and Benchmark MUED 320 Final Curriculum Project

Assessment: MUED 320 (Teaching Music in Elementary Schools for Diverse Learners, Grades K-5) final curriculum project rubric.

Benchmark: 80% of program candidates will earn a score of 70% or above on a final curriculum project rubric in MUED 320.

Prior to 2018-2019, the benchmark was 80% of program candidates will earn a score of 75% or above on a final curriculum project rubric in MUED 320.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

MUED 320 Grad Stand_Rubric for Curr Project (revised)

Outcome Links

Planning for Teachers [Program]

All level teacher candidates plan effectively for instruction in classes to include effective instructional delivery, appropriate content, opportunities for student involvement in the learning process, and assessment for student progress in K-12 education.

Other Certification Area Competencies [External]

All Levels K-12 Education

The standards in which the following certification competences are defined: Art Education, Dance Education, English as a Second Language Education, Foreign Languages Education, Health and Physical Education, Music Education, and Theater Education.

Standards for Music Teachers [External]

a. Standard

Curricular structure, content, and time requirements shall enable students to develop the range of knowledge, skills, and competencies expected of those holding a professional baccalaureate degree in music education as indicated below and in Standards VIII.

2 Program Content

In addition to the common core of musicianship and general studies, the musician electing a career in school-based teaching must develop competencies in professional education and in specific areas of musicianship. Professional education components should be dealt with in a practical context, relating the learning of educational principles to the student's day-by-day work in music. Students must be provided opportunities for various types of observation and teaching. Within the curricular guidelines above, attention should be given to breadth in general studies, attitudes relating to human, personal considerations, and social, economic, and cultural components that give individual communities their identity.

d. Teaching Competencies

The musician-teacher must be able to lead students to competency, apply music knowledge and skills in teaching situations, and integrate music instruction into the process of K-12 education. Essential competencies are:

9.1 Data

Semester	Candidates that earned a score of 70% or above on a final project rubric	
	#	%
Fall 2018	8/13	61.5%
Fall 2019	11/11	100%
Fall 2020	4/4	100%
Fall 2021	—	—
Spring 2022	7/8	87.5%
Fall 2022		
Spring 2023		

9.1.1 Analysis of Data and Plan for Continuous Improvement [Approved]

2018-2019:

We are very close to achieving the target of 80% earning a score of 70% on the rubric scored final project. I am recommending that we keep the benchmark where it is for at least on more cycle. If scores don't improve, then we will need to either address a change in the benchmark or modify the class project.

2019-2020:

2020-2021:

Fall 2020: Expected level of achievement was met. Students entering the class should already have knowledge and understanding of the Education Departmental Lesson Plan Template. This will enable the teacher to teach more specific planning in regard to musical content and transitions for the music classroom while not having to continually focus primarily on teaching the template format. The project was broken down into smaller segments so that by the end of the semester all areas were completed successfully. Students submitted a virtual lesson as part of the final project. The teacher is looking forward to being back in the classroom in a face-to-face setting moving forward. Continue to keep Expected Level of Achievement the same 80% of program candidate completers will earn a score of 70% on a rubric-scored final project.

Spring 2021: Expected level of achievement was met. Expectations should continue as in Fall 2020 above.

2021-2022:

Expected level of achievement was met.

2022-2023:

10 Assessment and Benchmark MUED 324 Final Project

Assessment: MUED 324 (Teaching Instrumental Music in Secondary School, Grades 6-12) final project rubric.

Benchmark: 80% of program candidates will earn a score of 80% or above on a final project rubric in MUED 324.

Prior to 2018-2019, the benchmark was 80% of program candidates will earn a score of 75% or above on a final project rubric in MUED 324.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

Planning for Teachers [Program]

All level teacher candidates plan effectively for instruction in classes to include effective instructional delivery, appropriate content, opportunities for student involvement in the learning process, and assessment for student progress in K-12 education.

Other Certification Area Competencies [External]

Secondary Grades 6-12 Education

The standards in which the following certification competences are defined: Agricultural education, Business and Marketing Education, Computer Science Education, Family and Consumer Sciences Education, Foreign Languages Education, Journalism Education, Science Education, Social Studies Education, and Technology education.

Standards for Music Teachers [External]

a. Standard

Curricular structure, content, and time requirements shall enable students to develop the range of knowledge, skills, and competencies expected of those holding a professional baccalaureate degree in music education as indicated below and in Standards VIII.

c. Specialization Competencies

Institutions and other educational authorities make decisions about the extent to which music teachers will be prepared in one or more specializations. The following competencies apply singly or in combination consistent with the specialization objectives of each teacher preparation program in music.

d. Teaching Competencies

The musician-teacher must be able to lead students to competency, apply music knowledge and skills in teaching situations, and integrate music instruction into the process of P&T12 education. Essential competencies are:

10.1 Data

Academic Year	Candidates that earned a score of 80% or above on a final project rubric	
	#	%
2018-2019	10/10	100%
2019-2020	8/8	100%
2020-2021	7/7	100%
2021-2022	4/4	100%
2022-2023		

10.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

The expected level of achievement was met. Based on the score on the Rubric for the Final Project [165.8 out of possible 200 points], the students completing the project experience encountered more difficulty than in previous years. Much of this could be attributed to changing the emphasis of the rubric used to score the project, and the removal of the facilities portion of the final project. This is the first time that we have used this new rubric and also the first time that the expected level of proficiency was 80% - continued review is prescribed.

2019-2020:

The expected level of achievement was met. Based on the score on the Rubric for the Final Project [169 out of possible 200 points], the students completing the project experience improved slightly if analyzing the raw score but actually did much better than could have been expected with the sudden change to COVID-19 protocols at the very time that this project was to commence. Due to the quarantining of the students, there was not as much opportunity for them to interact with each other as is normal during the usual face-to-face class meetings.

2020-2021:

The expected level of achievement was met. Based on the score on the Rubric for the Final Project [191.2 out of possible 200 points], the students completing the project experience improved greatly over previous years did much better than could have been expected with the delivery of the course via Zoom due to the continuation of COVID-19 protocols. This is the last time that this course will be taught as part of the "old catalog" and will shift to being taught during the fall semesters.

2021-2022:

The expected level of achievement was met. Based on the score on the Rubric for the Final Project [182.25 out of possible 200 points], the students completing the project experience failed to score as high as the previous year's students, but actually did much better than might have been expected considering the class was smaller than normal and didn't have the diversity of instrument expertise within the student body to use as resources.. Due to the time slot that the course was assigned, there were four class meetings towards the end of the semester that had to be canceled or greatly reduced in contact time for outside activities related to the marching band (all students in class were active members of the marching band - pep rallies, homecoming parade, etc.) The Fall 2022 offering of this course has been assigned a new time slot to avoid this issue going forward.

2022-2023:

11 Assessment and Benchmark MUED 326 Final Project

Assessment: MUED 326 (Teaching Vocal Music in Secondary School, Grades 6-12).

Benchmark: 80% of candidates will earn a score of 80% or above on the final project rubric in MUED 326.

Prior to 2018-2019, the benchmark was 80% of program candidates will earn a score of 75% or above on a final project rubric in MUED 326.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

MUED 326 Teaching Projects Rubric

The standards in which the following certification competences are defined: Agricultural education, Business and Marketing Education, Computer Science Education, Family and Consumer Sciences Education, Foreign Languages Education, Journalism Education, Science Education, Social Studies Education, and Technology education.

Standards for Music Teachers [External]

a. Standard

Curricular structure, content, and time requirements shall enable students to develop the range of knowledge, skills, and competencies expected of those holding a professional baccalaureate degree in music education as indicated below and in Standards VIII.

b. Music Competencies

The profession of school music teacher now encompasses a wide range of traditional, emerging, and experimental purposes, approaches, content, and methods. Each institution makes choices about what, among many possibilities, it will offer prospective specialist music teachers. Institutions may offer a comprehensive curriculum involving two or more specializations and/or focus on one or more particular specializations. The following standards provide a framework for developing and evaluating a wide variety of teacher preparation program goals and achievements. Items b.(1), (2), (3), and (4) apply to all programs that prepare prospective music teachers. Items c.(1), (2), (3), (4), and (5) apply to specializations singly or in combination as determined by the focus and content of specific program offerings determined by each institution.

c. Specialization Competencies

Institutions and other educational authorities make decisions about the extent to which music teachers will be prepared in one or more specializations. The following competencies apply singly or in combination consistent with the specialization objectives of each teacher preparation program in music.

e. Professional Procedures

In order to implement programs to achieve the competencies identified in the foregoing sections, the following standards and guidelines apply:

11.1 Data

Academic Year	Candidates that earned a score of 80% or above on a final project rubric	
	#	%
2018-2019	1/2	50%
2019-2020	—	—
2020-2021	—	—
2021-2022	----	----
2022-2023		

11.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

Expected level of achievement was not met. Only one candidate out of the two completed the final project. The candidate that completed the final project earned a score of 85% on the rubric. The other candidate did not turn in a final project therefore earning a score of 0% on the rubric scored teaching project. Based on the score on the rubric for the final project, the student that completed the project excelled in the micro-teaching aspect of the class.

Based on the score returned by the cooperating teacher, the program candidate who completed the project executed the project at a high level of competency. Recommend keeping the the measure of proficiency at "80% of the program candidates will earn a score of 80% or above on the final rubric scored project."

2019-2020:

2020-2021:

Due to the inability of the students to be able go into the public school classrooms due to Covid-19 restrictions, this project was not able to be completed. This project will be re-implemented for the next teaching cycle.

2021-2022:

Course was not taught in Spring 2022. No data available.

2022-2023:

12 Assessment and Benchmark MUED 411 or 414 Final Project

Assessment: MUED 411 (Teaching Band and Orchestra Literature) or 414 (Teaching Choral Literature) Final Project rubric.

Benchmark: 75% of program candidates will earn a score of 80% or above on a final project rubric in MUED 411 or MUED 414 (Teaching Band and Orchestral Literature or Teaching Choral Literature).

Prior to 2017-2018, the benchmark was 85% of program candidates will earn a score of 80% or above.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

c. Specialization Competencies

Institutions and other educational authorities make decisions about the extent to which music teachers will be prepared in one or more specializations. The following competencies apply singly or in combination consistent with the specialization objectives of each teacher preparation program in music.

12.1 Data [Approved]

MUED 411:

Academic Year	Candidates that earned a score of 80%		Average Score
	#	%	
2018-2019	12/13	92%	80.8%
2019-2020	12/12	100%	87.2%
2020-2021	9/10	90%	84%
2021-2022	5/6	83%	87.9%
2022-2023			

MUED 414:

Academic Year	Candidates that earned a score of 80%		Average Score
	#	%	
2018-2019	2/2	100%	89.5%
2019-2020	—	—	—
2020-2021	—	—	—
2021-2022*	2/3	33%	56%
2022-2023			

*One candidate earned a score of 91%, one candidate earned a score of 78%, and one candidate did not turn in a project.

12.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

MUED 411:

- The expected level of achievement was met.
- Based on the score on the Rubric for the Final Project (201.6 out of possible 200 points), the students completing the Instructional Design Project excelled in most of the sections contained within the teacher guide portion of the assignment.
- The weakness, as in previous years, is in the understanding of the importance/clarity /completeness of the student workbook portion of the project.
- The assessment of the need for any changes to the course is based on the statistical numbers being much larger this past year.
- Currently, there are 13 students enrolled in MUED 411 for the fall 2019 term and so we should have a better understanding of any trends at the conclusion of this term having had to larger sample sizes than in the past.

MUED 414

The expected level of achievement was met. The rubric scores indicate the work was completed at a very high level or competence. We will need to continue to include analysis of choral works, both small and large scale, to challenge the student to think critically, and to allow the student to investigate vocal issues within a given composition. The course requires a lot of listening hours and score study. The limitations of this project is in the availability of instrumental scores for analysis that go with major choral works being studied.

2019-2020:

MUED 411:

- The expected level of achievement was met.
- Based on the score on the Rubric for the Final Project (217.9 out of possible 250 points), the students completing the Instructional Design Project excelled in most of the sections contained within the teacher guide portion of the assignment.
- The average is slightly lower than what was actually happening with the majority of the students - we had two students who scored significantly lower than the majority of the class
- The weakness, as has been in previous years as has been transmitted in the instructions leading up to the project, is in the understanding of the importance/clarity /completeness of the student workbook portion of the project. The students do an excellent job on the teacher resource portion of the project and then seem to lose the momentum to complete the project with as much completeness.
- The assessment of the need for any changes to the course is based on the statistical numbers being much larger this past year.

2020-2021:

MUED 411:

- The expected level of achievement was met.
- Based on the score on the Rubric for the Final Project (210.9 out of possible 250 points), the students completing the Instructional Design Project excelled in most of the sections contained within the teacher guide portion of the assignment.
- The average is slightly lower than what was actually happening with the majority of the students - we had one student who scored significantly lower than the majority of the class and one student electing not to complete the project. This student was still able to accumulate enough points to pass the course.
- The weakness, as has been in previous years as has been transmitted in the instructions leading up to the project, is in the understanding of the importance/clarity /completeness of the student workbook portion of the project. The students in this class did an excellent job on the teacher resource portion of the project and they also did much better than in previous classes with the student section of the project.
- The assessment of the need for any changes to the course is based on the statistical numbers being smaller this past year.

MUED 414:

Due to the course being changed from face-to-face to online, materials were not available for students to complete this final project. The materials for this project are housed in the choral library which was not available to students and faculty due to ongoing construction from the hurricanes.

2021-2022:

MUED 411:

- The expected level of achievement was met.
- Based on the score on the Rubric for the Final Project (219.83 out of possible 250 points), the students completing the Instructional Design Project excelled in most of the sections contained within the teacher guide portion of the assignment.
- The average is slightly lower than what was actually happening with the majority of the students - we had one student who scored significantly lower than the majority of the class. This student was still able to accumulate enough points to pass the course and successfully student teach and graduate in Spring 2022.
- The weakness, as has been in previous years as has been transmitted in the instructions leading up to the project, is in the understanding of the importance/clarity /completeness of the student workbook portion of the project. The students in this class did an excellent job on the teacher resource portion of the project and they also did much better than in previous classes with the student section of the project.
- The assessment of the need for any changes to the course is based on the statistical numbers being smaller this past year.

MUED 414

Expected level of achievement was not met.

One candidate followed the scoring rubric and completed the assignment as stated in the course description. One candidate turned in the project but did not follow the directions and format as stated in the course description. This resulted in a low score of 78% for this candidate. One candidate did not attempt the final project and received a grade of "0" on the assignment.

Continue to analyze, assess and monitor the processes and curriculum related to this outcome. Continue to structure the study of literature to the basic needs of the choral educator with some prominent masterworks included for study and analysis. Additional literature in all voicings and styles appropriate for the elementary choral curriculum was introduced into the class for this semester along with the secondary literature studied.

2022-2023:

13 Assessment and Benchmark MUED 425 Final Classroom Management Assessment Project

Assessment: MUED 425 (Classroom Management and Organization in the Elementary/Secondary Music Education Classroom and Field Experience) final classroom management assessment project rubric.

Benchmark: 85% of program candidates will earn a score of 80% or above on final classroom management assessment project rubric used in MUED 425.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

425 Classroom Management Plan Grading Rubric

425 Classroom Management Plan Worksheet

Outcome Links

Planning for Teachers [Program]

All level teacher candidates plan effectively for instruction in classes to include effective instructional delivery, appropriate content, opportunities for student involvement in the learning process, and assessment for student progress in K-12 education.

Other Certification Area Competencies [External]

All Levels K-12 Education

The standards in which the following certification competences are defined: Art Education, Dance Education, English as a Second Language Education, Foreign Languages Education, Health and Physical Education, Music Education, and Theater Education.

Standards for Music Teachers [External]

1 Curricular Structure

a. Desirable traits

2 Program Content

In addition to the common core of musicianship and general studies, the musician electing a career in school-based teaching must develop competencies in professional education and in specific areas of musicianship. Professional education components should be dealt with in a practical context, relating the learning of educational principles to the student's day-by-day work in music. Students must be provided opportunities for various types of observation and teaching. Within the curricular guidelines above, attention should be given to breadth in general studies, attitudes relating to human, personal considerations, and social, economic, and cultural components that give individual communities their identity.

b. Music Competencies

The profession of school music teacher now encompasses a wide range of traditional, emerging, and experimental purposes, approaches, content, and methods. Each institution makes choices about what, among many possibilities, it will offer prospective specialist music teachers. Institutions may offer a comprehensive curriculum involving two or more specializations and/or focus on one or more particular specializations. The following standards provide a framework for developing and evaluating a wide variety of teacher preparation program goals and achievements. Items b.(1), (2), (3), and (4) apply to all programs that prepare prospective music teachers. Items c.(1), (2), (3), (4), and (5) apply to specializations singly or in combination as determined by the focus and content of specific program offerings determined by each institution.

c. Specialization Competencies

Institutions and other educational authorities make decisions about the extent to which music teachers will be prepared in one or more specializations. The following competencies apply singly or in combination consistent with the specialization objectives of each teacher preparation program in music.

d. Teaching Competencies

The musician-teacher must be able to lead students to competency, apply music knowledge and skills in teaching situations, and integrate music instruction into the process of P-12 education. Essential competencies are:

e. Professional Procedures

In order to implement programs to achieve the competencies identified in the foregoing sections, the following standards and guidelines apply:

13.1 Data

Semester	Candidates that earned a score of 80%	
	#	%
Fall 2018	9/10	100%
Fall 2019	12/12	100%
Fall 2020	16/16	100%
Fall 2021	7/7	100%
Spring 2022	4/4	100%
Fall 2022		
Spring 2023		

13.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

- The expected level of achievement was met.
- The students completing the Classroom Management Plan Part 1 (written = 200 points out of a possible 250 points) once again excelled in the classroom organization, lessons, effective teaching practices, and evaluation/assessment strategies.
- The students completing the Classroom Management Plan Part 2 (PowerPoint = 50 points out of a possible 250 points) all seemed to excel in the visual presentation, cohesiveness, and sequencing of information.
- The weakness (if any) would be:
 - In part 1: the understanding of the professional development portion of the project (mostly completeness of coverage); and,
 - In part 2: the lack of comprehension of the amount of information per slide that is effective in presentations.
- Currently, there are 13 students enrolled in MUED 425 for the fall 2019 term and so we have redesigned portions of this final project, including the elimination of the Powerpoint presentation portion so that the students can focus their attention on Part I.

2019-2020:

- The expected level of achievement was met.
- The students completing the Classroom Management Plan excelled in the classroom organization, lessons, effective teaching practices, and evaluation/assessment strategies.
- The weakness (if any) would be: Formating / Careful proofing
- Currently, there are 16 students enrolled in MUED 425 for the fall 2020 term and so we will continue with the redesigned portions of this final project.

2020-2021:

- The expected level of achievement was met.
- The students completing the Classroom Management Plan once again excelled in the classroom organization, lessons, effective teaching practices, and evaluation /assessment strategies.
- The weakness (if any) would be: Assessment guidelines that would meet the standards of today's modern school administrations
- Currently, there are 7 students enrolled in MUED 425 for the fall 2021 term and so we will continue with the redesigned portions of this final project. (Please note - this will be the last class that will take this course as a lead into their student teaching semester.)

2021-2022:

- The expected level of achievement was met.
- The students completing the Classroom Management Plan once again excelled in the classroom organization, lessons, effective teaching practices, and evaluation /assessment strategies.
- The weakness (if any) would be: Assessment guidelines that would meet the standards of today's modern school administrations
- The reason for teaching the course in both semesters: Fall 2021 was the remaining students completing the now-former degree plan of one full semester of student teaching, and in the Spring 2022 semester were students who are the first to matriculate to the two-semester residency (student teaching) program.

2022-2023:

14 Assessment and Benchmark Entrance Theory Diagnostic Exam

Assessment: The music theory diagnostic exam and post tests will assess incoming music students aptitude in music theory and fundamentals.

Benchmark: 85% of students successfully completing MUSC 100 will pass the Post Test Theory Diagnostic Exam and be allowed entrance into MUSC 113.

Outcome Links

Musicianship [Program]

Students demonstrate continued growth in musicianship and acquire a rudimentary capacity to create original or derivative music.

14.1 Data

Semester	Candidates that earned a score of 80%	
	#	%
Fall 2018	9/9	100%
Fall 2019	12/12	100%
Fall 2020	16/16	100%
Fall 2021	3/3	100%
Fall 2022	4/4	100%
Fall 2023	7/7	100%

14.1.1 Analysis of Data and Plan for Continuous Improvement MUSC 100 pre/post test

2018-2019:

- 34 students took pre-test
 - average score 44.8%
 - 8 of 34 (23%) scored above 70% qualifying them to move directly to MUSC 101
 - 26 of 34 (76%) were required to take MUSC 100 (Music Theory Review)
 - 6 of those passing the initial Diagnostic chose to take MUSC 100; 2 moved directly to MUSC 101.
- 28 students took the post-test
 - average score 91.8%
 - 27 of 28 (96%) students scored a passing grade to move to MUSC 101
 - 3 of the students enrolled (of 31 students) did not complete the course and did not take the post-test.
- Of the total students taking the pre-test (34) a total of 30 (88%) qualified to move to MUSC 101 following the MUSC 100 Music Theory Review Course.

The diagnostic, remediation tool (MUSC 100) and post-test results indicate that this indicator for success of our incoming freshman is continuing to be useful in providing a basis for student success over the 4-5 year cohort success rate in graduation.

2019-2020:

This was a large cohort - 39 total taking the entrance exam; with 8 students passing the diagnostic, and 31 taking the slated to take the MUSC 100 Theory Review course. In the Post-test phase, 27 took the post-test with an average of 85.3%. There was a massive breakdown in the courses following the MUSC 100 course. This large cohort suffered significant losses - with only 15 of 34 students surviving to take MUSC 214 in Sp2021 (of these - only 11 passed). This points a problem both in retention from the Freshman to the Sophomore level, as well as to weakness and inconsistency in the teaching of MUSC 113 and MUSC 213. With the sheer numbers of these students who have either dropped out of school or changed majors it points to a significant problem in having younger and less experienced faculty teaching at the lower division, as well as retention in the major. This will be addressed immediately F2021 with the assignment of senior faculty to teaching the lower division courses.

2020-2021:

The average for the diagnostic in F2020 was 63/100 (significantly higher than in previous years). 12 students passed the diagnostic; 11 were placed directly in MUSC 113, and one student w/AP music theory ("4") was placed directly in MUSC 213. 20/20 students passed the MUSC 100 Post-test, with an average of 90.7%. 27/31(87%) students registered for MUSC 113 in Spring 2021 - of that 20/27 (74%) passed MUSC 113 - a significant loss in the cohort - 2 years of these kinds of losses are notable - and have had significant effect on the total number within the department. With the sheer numbers of these students who have either dropped out of school or changed majors it points to a significant problem in having younger and less experienced faculty teaching at the lower division, as well as retention in the major. This will be addressed immediately F2021 with the assignment of senior faculty to teaching the lower division music theory courses.

2021-2022:

Much smaller cohort entering in Fall 2021. Average for the diagnostic in Fall 2021 was 50.25% - lower than previous. Only 4 students passed the diagnostic, and were placed directly into MUSC 113. 17/18 students passed the MUSC 100 Post-test, with an average of 87%. 19/22 (86%) students registered for MUSC 113 in Spring 2022 - of that, 15/19 (79%) passed MUSC 113. Senior/experienced faculty will continue to teach the incoming freshmen, to give them the best start.

2022-2023:

36 students entered as music major freshmen in Fall 2022 - a significantly larger cohort than the previous year. Average for the diagnostic pre-test was 43 - again lower than previous. However, 7 students passed the diagnostic and were placed directly into MUSC 113. 24/28 passed the post-test, and the average was 84%. 28 students registered in MUSC 113 in Spring 2023; of those: 1) two dropped the course; two received a grade of "F"; 24 students passed the course. 24/28 is a percentage of 86% moving into the sophomore level. The department re-configured the faculty mix by hiring a position dedicated to teaching the music theory courses; and this new faculty member was intensively mentored by the chair of the music theory area. That mentorship will continue in the next year, as additional theory courses are added to the role of the new faculty member.

15 Assessment and Benchmark

Assessment: MUSC 214 (Principles of Music III) Final Composition/Analysis Project rubric.

Benchmark: 75% of program candidates will earn a score of 70% or above on the MUSC 214 final composition/analysis project rubric.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

MUSC 214 Final Composition and Grading

MUSC 214 Final Composition Rubric

Outcome Links**Musicianship [Program]**

Students demonstrate continued growth in musicianship and acquire a rudimentary capacity to create original or derivative music.

15.1 Data MUSC 214 - final composition project

Academic Year	Candidates that met the benchmark		Average Score
	#	%	
2018-2019	—	—	—
2019-2020	14/14	100%	91
2020-2021	12/13	92%	84
2021-2022	15/15	100%	88.9
2022-2023	20/21	95%	84

15.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

2019-2020:

High level of achievement by all students: High grade on rubric 99, low grade 81, average 91. High quality projects. No changes at this time.

2020-2021:

Drop off in quality and numbers, reflecting changes in teaching in MUSC 113, 213. High score 98, low score 0, average 84. Projects of lesser quality, with significant notation problems. This is being addressed by reassigning senior faculty to lower division music theory courses.

2021-2022:

Good quality of works, with a wide variety of creative compositions. High score: 98, low score: 77; average: 88.9. In general notation problems and typesetting skills demonstrated were fair, need to address use of expressive text and dynamics in compositions. Definite improvement over prior year.

2022-2023:

Good quality of works, with a wide variety of creative compositions. High score: 100, low score: 80 (excluding one student who did not turn in a composition); average: 88. In general notation problems and typesetting skills demonstrated were good to fair, need to address use of expressive text and dynamics in compositions. Continued improvement in quality and average grades. The department re-configured the faculty mix by hiring a position dedicated to teaching the music theory courses; and this new faculty member (who also is a composer) was intensively mentored by the chair of the music theory area. That mentorship will continue in the next year, as additional theory courses are added to the role of the new faculty member.

16 Assessment and Benchmark MUSC 313 (was MUSC 202L) ET Final Proficiency Exam

Assessment: MUSC 313 (sight-reading/ear training) Final Proficiency Exam rubric.

Benchmark:

75% of program candidates will earn a score of 70% or above on the MUSC 313 (sight-reading/ear training) final proficiency exam rubric.

75% of program candidates will complete the proficiency requirement on first attempt.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

ET Final #5 Fall 2019 student answer sheet.musx.pdf

Final Exam MUSC 202LA F2020

Outcome Links

Musicianship [Program]

Students demonstrate continued growth in musicianship and acquire a rudimentary capacity to create original or derivative music.

16.1 Data

Academic Year	Candidates that earned a score of 70% or above on the MUSC 313 final proficiency exam rubric		Candidates that completed the proficiency requirement on the first attempt	
	#	%	#	%
2018-2019	—	—	—	—
2019-2020	12/12	100%	12/12	100%
2020-2021	11/11	100%	11/11	100%
2021-2022	10/10	100%	10/10	100%
2022-2023	10/11	91%	10/11	91%

16.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

2019-2020:

Testing was "in-person" with grades showing a fairly wide range, depending on skill levels and test taking abilities. high score 107, low score 70, avg. 89. all students met benchmark, but some just barely.

2020-2021:

Testing online was implemented in the eartraining software Auralia; overall grades have improved (in part because of the nature of no time pressure for the test, and [possibly] the reduction in test anxiety. High marks (High score of 100/100, low score of 77/100; average 93). Change from 2019-2020 positive. Continue online process without changes.

2021-2022:

Testing online was continued in the eartraining software Auralia; overall grades have continued to improve (in part because of the nature of no time pressure for the test, and [possibly] the reduction in test anxiety). High marks include high score of 100/100, low score of 70/100, and average of 94.5. Change from 2020-2021 has continued positive. Continue online process without changes.

2022-2023:

Testing online was continued in the eartraining software Auralia; overall grades have continued to be high (in part because of the nature of no time pressure for the test, and [possibly] the reduction in test anxiety). High marks include high score of 100/100, low score of 46/100 (a student who was sick the day of testing, and took the test anyways), and average of 86. Continue online process without changes. 6 of the 11 students scored above the 90th percentile of the test.

17 Assessment and Benchmark MUSC 415 Final Research Project (was MUSC 330)

Assessment: The MUSC 415 (was MUSC 330) (20th Century Techniques and Materials) final research project rubric measures the program candidate's ability to synthesize their knowledge of theoretical analysis techniques, historic/style elements, technology, and research skills into a project focusing on contemporary repertoire and practice.

Benchmark: 85% of program candidates will earn a score of 70% or above on the MUSC 415 (20th Century Techniques and Materials) final research/composition project grading rubric.

Prior to 2018-2019, the benchmark was 75% of program candidates will earn a score of 70% or above on the MUSC 330 (20th Century Techniques and Materials) final research/composition project rubric.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

Outcome Links

Music History [Program]

Students acquire basic knowledge of music history and repertoires through the present time.

17.1 Data

Semester	Candidates that met the benchmark	
	#	%
Fall 2018	—	—
Fall 2019	—	—
Fall 2020	8/8	100%
Fall 2021	4/4	100%
Fall 2022	7/7	100%

17.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

2019-2020:

2020-2021:

high competency with all students enrolled in the course. See rubric and composition project guidelines. As an upper division course (combined music history and theory), a high level of achievement is expected. Changing benchmarks upwards will be considered for 2021-22 master plan, by the ad hoc music theory committee.

2021-2022:

High competency with all students enrolled in the course. As an upper division course (combined music history and theory), a high level of achievement is expected. See above.

2022-2023:

High competency with all students enrolled in the course. As an upper division course (combined music history and theory), a high level of achievement is expected. High score: 97.5; low score: 87.5; average score: 92. Even with change of faculty teaching the course - high levels of achievement remain the norm.

18 Assessment and Benchmark MUSC 363 Final Written Research Project Rubric

Assessment: Music history/literature knowledge indicators of the MUSC 363 (Music History II) final written research project rubric

Benchmark: 80% of program candidates will earn a score of 6 (scale of 0-9) or above on the music history/literature knowledge indicators of the MUSC 363 (Music History II) final written research project rubric.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

MUSC 363 - Final Project Rubric

Outcome Links

Music History [Program]

Students acquire basic knowledge of music history and repertoires through the present time.

18.1 Data

Semester	# of candidates that completed MUSC 363	Candidates that met the benchmark	
		#	%
Spring 2018	22/26	20/26	77%
Spring 2019	19/23	—	—
Spring 2020	18/20	—	—
Spring 2021	11/13	10/13	77%
Spring 2022	9/10	7/9	78%
Spring 2023	10/12	5/11	45%

18.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

Data was not reported by the faculty member who taught MUSC 363 in Spring 2019. A new assessment method measuring student knowledge in music theory and history will be implemented in the Spring 2020 semester. Each student will take the Music Content Test by Educational Testing Services. This assessment tool will aid the faculty in making adjustments to individual courses and curricula.

2019-2020:

No data collected due to COVID-19 Pandemic. Course work alterations were implemented due to online courses, resulting in having to alter the final project. This resulted in no collectable data.

2020-2021:

Level of achievement was impacted directly by the two students who dropped the course. The 77% was with only one student failing to meet the benchmark and two students dropping the course. The percentage of those who met the benchmark that does not include those who dropped is 91%. The only way to improve the original percentage is to have less students drop, as well as to increase the number of students enrolled in the course so having a small number of students drop will not impact the benchmark percentage so dramatically. This showcases that the level of achievement was quite high and definitely met for this semester.

The rubric has been updated to include both music specific sections, as well as writing specific areas of evaluation. The edits also include adjusting the eras covered in the course, as well as removal of the presentation aspect to make it writing-specific.

Next year we will contact Educational Testing Services to have the Music Content Test take place at the end of the semester. This will result in more information to assess the students' comprehension regarding what they learned in the previous semester, and we will be able to adjust the course accordingly.

2021-2022:

Similar to last semester, the level of achievement was significantly impacted by the student who dropped the course because of the lower number of students enrolled. A single student failing the course impacts it more than 10% with the students who remained. If the student who dropped the course passed the achievement percentage would have been significantly higher.

The largest problem with the students who failed the course was failure to submit work over the course of the semester. Comprehension seemed to be at a very high level with these students. To help with this, more frequent check-ins with students, reminders about due dates, and sending out grades more often will be added to support the students who struggle with doing their work. A section will also be added to the syllabus with a list of resources for the students that can help with time management, motivation, and access to internet /computers.

2022-2023:

Significant drop in scores and students meeting benchmarks - No change in student quality, but faculty member teaching the course was significantly distracted by outside activities; they also retooled the paper to not function within parameter set by QEP guidelines. (That faculty is leaving the university for another position.) Suggest re-assigning faculty to teach the course, and mentor to appropriately assign requirements for the paper; as well as just do a better job teaching the course. This is a course that must be *taught* better.

19 Assessment and Benchmark MUSC 408/410 Final Conducting Project

Assessment: The final conducting project of MUSC 408/MUSC 410 (Instrumental/Choral Conducting).

Benchmark: 90% of program candidates will earn a score of 80% or above on the final conducting project of MUSC 408 (Instrumental/Choral Conducting).

Prior to 2016-2017, the benchmark was 85% of program candidates will earn a score of 80% or above.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

408 Final Conducting Project Rubric - 150 Points

2020-2021	—	—
2021-2022	3/3	100%
2022-2023		

*MUSC 410 was not offered in 2017-2018.

19.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

MUSC 410

The expected level of achievement was met.

The inclusion of a student conducting lab has proven invaluable to the development of the students' conducting and communication skills. The use of video has helped the students to be able to study their conducting and to see immediately how to improve the conducting gesture and communication with a choir. The limitations of this lab choir is that the students only get to conduct twice in the semester in front of a "live" choir. One way of addressing this problem would be to encourage conducting students to participate in Concert Chorale as a "student conductor."

2019-2020:

2020-2021:

The expected level of achievement was not met in MUSC 410.

Due to the Covid-19 pandemic, students were unable to participate in a live conducting lab. Therefore, the students were unable to be graded by the rubric designed for this project. Students did conduct to recordings but were unable to show interpretive skills that would be evident in a live conducting lab experience. They did have a unit on error detection through a programmed text, but were unable to respond verbally and put the conducting back into context to see if they had effected change with their feedback.

2021-2022:

Expected level of achievement was met.

The inclusion of a student conducting lab has proven invaluable to the development of the students conducting and communication skills. However, due to the distancing measures having to be taken during COVID-19, we were unable to have a choral lab this semester. This was a vital piece missing from this course in being able to assess student conductors. The feedback element to the conductors from the singers was not possible.

With the continuation of the choral conducting lab, candidates have the opportunity to work with live singers and to observe first-hand how the conducting gesture effects change from the group. Through the use of a video camera in the lab, the camera helps to illuminate areas for student growth and development. It is strongly recommended that this lab be continued as soon as possible. Encourage conductors to participate in conducting in Concert Chorale as a student conductor whenever possible.

2022-2023:

20 Assessment and Benchmark MUSC 490/492 Major Performance Area Capstone/Senior Recital

Assessment: MUSC 490/492 Major Performance Area Capstone/Senior Recital rubric.

Benchmark:

90% of instrumental program completers earn a score of 12.5 or above on the Major Performance Area Capstone/Senior Recital (MUSC 490/492) rubric.

85% of vocal program completers earn a score of 15 or above on the Major Performance Area Capstone/Senior Recital (MUSC 490/492) rubric.

90% of program completers pass the MUSC 490/492 requirements on the first attempt.

Prior to 2018-2019, the benchmark was 90% of instrumental program completers earn a score of 12 or above.

Prior to 2017-2018, the benchmark for instrumental candidates was that 85% will earn a score of 10 or above, and 85% of vocal candidates will earn a score of 12 or above.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

Performance Skills [Program]

Students demonstrate an array of performance skills with increasing sophistication and are able to synthesize these skills in performance.

20.1 Data

Academic Year	490/492 instrumental completers that earn a score of 12.5		490/492 vocal completers that earn a score of 15		Completed on first attempt	
	#	%	#	%	#	%
2018-2019	8/8	100%	6/7	86%	15/15	100%
2019-2020	4/4	100%	2/2	100%	6/6	100%
2020-2021	17/17	100%	0/1	0%	18/18	100%
2021-2022	9/10	90%	3/4	75%	14/14	100%
2022-2023	8/10	80%	3/3	100%	13/13	100%

20.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

Expected level of achievement was not met: 1 vocalist did not meet the benchmark of 15. All instrumentalists met the benchmark of 12.5. Continue to closely monitor progress of students and encourage improvement as students prepare to present the capstone recital.

2019-2020:

Expected level of achievement was met by all instrumentalists (rubrics ranged from 14 to 18) and by 1/2 of vocalists. Continue to closely monitor progress of students and encourage improvement as students prepare to present the capstone recital.

2020-2021:

17/17 instrumentalists exceeded the expected level of achievement - rubrics ranged from 13 to 18. One vocalist did not meet expected level of achievement. All candidates passed on the first attempt.

Continue to closely monitor progress of students and encourage improvement as students prepare to present the capstone recital.

2021-2022:

All ten instrumentalists passed MUSC 490/492 on their first attempt. 90% of the instrumentalists exceeded the expected level of achievement. Four students obtained the highest score of 18/18. The other scores ranged from 16 to 17.66. The lowest passing score was 11.333.

All four vocalists passed MUSC 490 on their first attempt. 75% of vocalists passed with a score of 15 or above; one passed with a score of 14.333.

Continue to closely monitor progress of students and encourage improvement in the areas of technique, musicianship, expression/musicality as students prepare to present the capstone recital.

2022-2023:

All 13 candidates passed MUSC 490/492 on their first attempt. Ten instrumentalists passed MUSC 490/492 on their first attempt. 80% of the instrumentalists earned a score of 12.5 or above. Three students obtained the highest score of 18/18. The lowest rubric scores were 11 and 12.

All three vocalists earned a score of 15 or above exceeding the expected level of achievement. The rubrics ranged from 17.5 to 20.

Continue to closely monitor progress of students and encourage improvement in the areas of technique, musicianship, expression/musicality as students prepare to present the capstone recital.

21 Assessment and Benchmark PIAN 216 Proficiency Examination

Assessment: PIAN 216 proficiency examination rubric.

Benchmark:

85% of program candidates complete the proficiency requirement on the first attempt.

85% of program candidates will earn a score of 70% or above on the PIAN 216 proficiency examination rubric.

Prior to 2016-2017, the benchmark was that 80% of program candidates will earn a score of 70% or above on the PIAN 216 proficiency examination rubric, and 80% of candidates will complete the proficiency requirement on the first attempt.

Files: See list of attachments to view. (Requires Adobe Reader or compatible viewer).

Piano Proficiency Rubric

Outcome Links

Performance Skills [Program]

Students demonstrate an array of performance skills with increasing sophistication and are able to synthesize these skills in performance.

21.1 Data

Academic Year	PIAN 216 candidates that completed the proficiency on the first attempt		Candidates that completed the proficiency and scored above 70%	
	#	%	#	%
2018-2019	21/22	95%	21/21	100%
2019-2020	13/14	93%	13/13	100%
2020-2021	11/11	100%	11/11	100%
2021-2022	13/13	100%	13/13	100%
2022-2023	13/13	100%	13/13	100%

21.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

Expected level of achievement was met. The percentage of candidates who completed the proficiency on the first attempt increased from 90% to 95%.

Out of the 21 students who passed the proficiency: 100% achieved a score of 2 or higher in the sight-reading portion (scale 0-3).

In order to continually meet the benchmark, students will be given more exercises to improve sight-reading and repertoire performance. The goal is to have the students score 2.00 or higher (scale 0-3) in the sight-reading and repertoire portion.

2019-2020:

Expected level of achievement was met. The percentage of candidates who completed the proficiency was 93%. One student did not attempt to complete the proficiency - he did not show up for the final exam.

Out of the 13 students who passed the proficiency: 100% achieved a score of 2 or higher in the sight-reading portion (scale 0-3).

Students will continually practice repertoire pieces along with sight-reading excerpts to develop fluency at keyboard playing.

2020-2021:

Expected level of achievement was met. The percentage of candidates who completed the proficiency on the first attempt increased from 93% to 100%.

Out of the 11 students who passed the proficiency: 8/11 (73%) achieved a score of 2 or higher in the sight-reading portion (scale 0-3); and 100% achieved a score of 2 or higher (scale 0-3) in the repertoire performance portion.

In order to continually meet the benchmark, students will practice sight-reading in class assignments and develop confident piano repertoire performance. The goal is to have the students score 2.00 or higher (scale 0-3) in the sight-reading and repertoire portion.

2021-2022:

Expected level of achievement was met and has been exceeded. The percentage of candidates who completed the proficiency on the first attempt is 100%.

Out of the 13 students who passed the proficiency: 12/13 (92%) achieved a score of 2 or higher in the sight-reading portion (scale 0-3); and 100% achieved a score of 2 or higher (scale 0-3) in the repertoire performance portion.

In order to continually meet the benchmark, students will practice sight-reading in class assignments (in excerpts containing up to 3 sharps and/or 3 flats in the key signature). Students will develop confident piano repertoire performance with specific emphasis on dynamics and expression. The goal is to have the students score 2.00 or higher (scale 0-3) in the sight-reading and repertoire portion.

2022-2023:

Expected level of achievement was met and has been exceeded. The percentage of candidates who completed the proficiency on the first attempt is 100%.

Out of the 13 students who passed the proficiency: 13/13 (100%) achieved a score of 2 or higher in the sight-reading portion (scale 0-3); and 100% achieved a score of 2 or higher (scale 0-3) in the repertoire performance portion.

In order to continually meet the benchmark, students will practice sight-reading in class assignments (in excerpts containing up to 3 sharps and/or 3 flats in the key signature). Students will develop confident piano repertoire performance with specific emphasis on dynamics, musical expression and memory. The goal is to have the students score 2.00 or higher (scale 0-3) in the sight-reading and repertoire portion.

22 Assessment and Benchmark Music Education Vocal/Instrumental Enrollment and Completers

Assessment: Enrollment and Completer Data.

Enrollment numbers are based on candidates currently enrolled in the program who have submitted an EDUC 200 packet.

Benchmark: The EPP has set a goal to increase enrollment by 7% across programs each year from fall 2017 to fall 2021 to coincide with the MSU Strategic Plan goal concerning enrollment and recruitment.

22.1 Data

Academic Year	Program	# of students officially enrolled with EDUC 200 packet	# of completers		
			Fall	Spring	Total
2018-2019	—	35	0	8	8
2019-2020	—	—	—	—	—
2020-2021	—	27	1	8	9
2021-2022	BM MEIN	—	4	4	8
	BM MEVO	—	0	2	2
2022-2023					

22.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

Analysis of Data:

The benchmark was exceeded. There was a 40% increase in enrollment from the 2017-2018 AY to the 2018-2019 AY. There was also a 100% increase in the number of completers.

Plan for Continuous Improvement:

The goal for 2019-2020 will be to again achieve at least a 7% increase in the number of candidates enrolled in the Music Education program.

Recommendations for Successful Implementation of Plan for Improvement:

- 1) Education faculty will visit at least two high schools with diverse populations to recruit candidates for the program.
- 2) Music Education faculty will attend the Geaux Teach: Unlock Education event in January to provide information to potential high school students as an opportunity for recruitment.
- 3) Faculty will continue to work with Noel Levitz and contact candidates who have inquired about McNeese or could potentially be interested in Music Education.

The Performing Arts Department and the Department of Education Professions will continue to work together to recruit candidates for this program. Geaux Teach brings high school juniors and seniors onto McNeese State University's campus to learn about the education programs offered. Music faculty will be asked to be a part of the January 2019 Geaux Teach program.

2019-2020:

No data per number of students successfully completing the EDUC 200 packet

Plan for Continuous Improvement:

The number of completers remained high even with the start of a shutdown of the University and the area public schools due to the COVID-19 pandemic

The Performing Arts Department will continue to work to recruit candidates for this program.

2020-2021:

The benchmark was not met. There was a decrease in enrollment for the concentrations in Vocal Music Education and Instrumental Music Education. There was a consistent number of completers.

Plan for Continuous Improvement:

The goal for 2020-2021 will be to stabilize the current students in the program and return to the normal type of recruiting activities that occurred before the COVID-19 pandemic closures.

Recommendations for Successful Implementation of Plan for Improvement:

- 1) Performing Arts faculty will again return to their normal roles of assisting K-12 music programs
 - 2) Faculty will continue to work with Noel Levitz and contact candidates who have inquired about McNeese or could potentially be interested in Music Education.
- The Performing Arts Department will continue to work to recruit candidates for this program.

2021-2022:

Completer numbers are consistent with the last couple academic years.

The Burton College of Education and particularly the Department of Education Professions has made intentional efforts to recruit candidates into teacher-education programs and has focused particular attention on those from diverse backgrounds and within high needs areas.

In addition to traditional attendance at parish career fairs and expos, the following are part of the MSU Department of Education Professions (EDPR) Recruitment and Retention Plan: Unlock Education, Call Me MISTER, Educators Rising, and minors. Although the efforts are strong and we are committed to recruiting candidates from diverse backgrounds, results of these efforts are not immediate as these students are juniors or seniors in high school and the data reported in the Performance Profile for education provider programs is on completers. We will track the data for program admission to monitor new students and make adjustments as needed to attract a diverse group of candidates interested in the field of education.

2022-2023:

23 Assessment and Benchmark Music Praxis

Assessment: The Music Education, Grades K-12 Praxis Content Exam is #5113. This exam must be passed prior to student teaching. The passing score required by the state for 2017-2018 is 151.

Benchmark: 90% of Music Education majors will achieve a passing score on the Praxis Music Education Exam (#5113) on the first attempt. Passing score set by the state is 151.

23.1 Data

23.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

Analysis of Data: 100% of the completers in 2018-2019 achieved a passing score on the Praxis Music Content exam on the first attempt. Percentage Correct for the categories were as follows: Music History and Literature (71%), Theory and Compositions (77%), Performance (68%), and Pedagogy, Professional Issues, and Technology (66%).

This is the second year that sub-category data was reported and analyzed. Each of the three subcategories increased, with significant progress shown in Music History & Literature and Theory and composition.

Plan for Continuous Improvement:

Over the past two years, 100% of candidates (n=12) passed the Music Content Praxis exam on the first attempt. The goal for 2019-2020 is for 90% of Music Education majors to achieve a passing score on the Praxis Music Education Exam on the first attempt.

Recommendation for Successful Implementation of Plan for Improvement:

1) As major portions of the program have recently been redesigned to meet year-long residency requirements, Performing Arts faculty will monitor exam scores to ensure the scope and sequence covers the Music Praxis content sufficiently.

2019-2020:

Analysis of data:

No data per number of students successfully completing the Music Praxis Content Standards Exam (5113).

Plan for Continuous Improvement:

The number of successful completers remained high even with the start of a shutdown of the University and the area public schools due to the COVID-19 pandemic

The Performing Arts Department will continue to refine the instruction provided to our students to be successful in passing this important component of their matriculation through our program.

2020-2021:

100% of the completers in 2020-2021 achieved a passing score on the Praxis Music Content exam on the first attempt. (Please note that several students were unable to successfully complete the exam due to listening equipment issues experienced by taking the exam on the campus of the University of Louisiana-Lafayette (Hurricanes Laura & Delta closed the local outlets). Percentage Correct for the categories were as follows: Music History and Literature (64%), Theory and Compositions (80%), Performance (66%), and Pedagogy, Professional Issues, and Technology (73%).

This is the third year that sub-category data was reported and analyzed. Most of the subcategories either increased or maintained, with a slight reduction in Music History and Literature (faculty change).

Plan for Continuous Improvement:

The goal for 2021-2022 is for 90% of Music Education majors to achieve a passing score on the Praxis Music Education Exam on the first attempt.

Recommendation for Successful Implementation of Plan for Improvement:

1) As major portions of the program have recently been redesigned and several long-standing faculty have retired, the Performing Arts faculty will monitor exam scores to ensure the scope and sequence covers the Music Praxis content sufficiently.

2021-2022:

The benchmark was not met. 70% (7/10) of candidates passed the Praxis content exam on the first attempt.

The EPAC Music representative will ensure that curriculum is aligned to the Praxis Content exam and should add this information to the course syllabi to ensure that new instructors understand the importance of the material to the success of the candidates in completing the content exam and in becoming a successful educator.

2022-2023:

24 Assessment and Benchmark FEE Content

Assessment: The Field Experience Evaluation Domain 5 measures the Content Specific Components related to teaching observations.

The FEE Scoring Scale is as follows: 1- Ineffective; 2- Effective: Emerging; 3- Effective: Proficient; 4- Highly Effective.

Benchmark: 90% of the candidates will score a 3.00 or higher on each element of Domain 5 (Content Specific Components) on the Field Experience Evaluation (FEE) Rubric.

Prior to 2017-2018, the benchmark was 100% of students will meet or exceed the benchmark of 2.00, which is the benchmark set by the State of Louisiana.

24.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

The difficulty in making a conclusion of the assessment measures from the provided statistics is that this evaluator was not present to do the observation of said student candidates during their student teaching experiences. The obvious flaw in using this raw data to draw a general conclusion is that many of the sub-categories may not be applicable depending on the actual class that was being observed. 5.1 through 5.5 and 5.12 through 5.14 are the only music content categories that can be expected to be observed during any formal evaluation session.

The benchmark was not met for the 18-19 AY. The following components of Domain 5 met benchmark: 5.4 (100%), 5.5 (100%), 5.6 (100%), 5.11 (100%), and 5.14 (100%).

Plan for Continuous Improvement:

Music education faculty will continue to review the data from the FEE Domain 5 rubric and adjustment to the stated desired outcomes may need to be modified to assure the quality of the conclusions associated with this tool.

Mentors and University Supervisors will be encouraged to look for opportunities to score candidates on Domain 5 of the FEE rubric. In addition, secondary education faculty and Music education faculty should revisit and revise (if needed) the elements of Domain 5 to ensure that they are aligned to appropriate content standards.

Recommendation for Successful Implementation of Plan for Improvement:

- Secondary education faculty and Music Education faculty will meet to review and revise (if necessary) the elements of Domain 5 to ensure that the elements are aligned to current content standards.

2019-2020:

No data available due to the removal of all candidates from their schools - COVID-19. An alternative method of evaluation was instituted.

2020-2021:

The difficulty in making a conclusion of the assessment measures from the provided statistics is that the majority of the semester was dealing with post-natural disasters and pandemic alterations to classroom delivery methods and experiences.

Plan for Continuous Improvement:

Music education faculty will continue to review the data from the FEE Domain 5 rubric and make the necessary adjustments to the stated desired outcomes.

Mentors and University Supervisors will be encouraged to look for opportunities to score candidates on Domain 5 of the FEE rubric based on the new assessments.

2021-2022:

There were several areas within the content section of the rubric in which the benchmark was not met of having at least 90% of the candidates scoring a mean of 3.00 or above on each component. There were 5 components in which at least 90% of candidates from both semesters scored above benchmark: 5.5, 5.7, 5.9, 5.10, and 5.11.

EPAC representatives for Music Education will ensure that the content portion of domain 5 aligns to the appropriate standards and will assist in the evaluation of content knowledge of candidates during the residency semester evaluations as necessary.

2022-2023:

25 Assessment and Benchmark inTASC Standards - Lesson Planning

Assessment: InTASC standards are aligned to the lesson plan components.

Lesson Plan Rubric scoring scale: 1- Ineffective; 2- Effective: Emerging; 3- Effective: Proficient; 4- Highly Effective.

Benchmark: 80% of the candidates will score a 3.00 or higher on each element of the Lesson Plan Rubric.

MUED_ Lesson Plan Data_20-21

MUED_ Lesson Plan Data_21-22

25.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

The benchmark was not met for the lesson plan. Specifically, the following elements fell below benchmark: Content Standards (67%), Student Outcomes (57%), Technology (60%), Student Use of Technology (40%), Procedures (71%), Lesson Hook (20%), Pre-Planned (Seed) Questions (71%), Modeled, Guided and Collaborative Independent Practice (33%), Whole Group Methods (75%), Collaborative Practice: Methods (50%), Independent Practice: Methods (50%), Closure (25%), Formal Assessment (60%), Relevance and Rationale (67%), Exploration, Extension, Supplemental (57%), Differentiation (50%), Differentiation by Content (20%), and Differentiation by Learning Environment (60%).

Plan for Continuous Improvement:

The goal is for at least 80% of candidates to score a 3.00 or higher on each element of the Lesson Plan Rubric.

Recommendation for Successful Implementation of Plan for Improvement:

- The inTASC lesson plan is also scored in MUED 425, which follows EDUC 337 in the sequence of courses, during the Field Experiences I & II components of the course. The MUED 425 professor will request the lesson plan rubric results at the conclusion of each semester from the EDUC 337 faculty member in order to use those results to further teach, enhance, and/or stress any perceived weaknesses the music education students are having prior to the start of residency.
- All secondary candidates are required to enroll in a lesson planning course to improve planning.

2019-2020:**2020-2021:**

The benchmark was not met for the 2020-2021 academic year as there were several elements on the rubric where less than 80% of candidates scored at the proficiency level (3.00) or above: Student Outcomes and Assessments (56%), Explanation for the Inclusion of Cross-Disciplinary Content and 6 ELA Standards (50%), Relevance and Rationale (78%), Small group/Paired Instruction (75%), Independent Practice (75%), Closure (25%), Instructional Resources/Materials (50%), Teacher's Use of Technology (50%), Student Use of Technology (33%), Assessments (78%), Differentiation by Content, Product, and Process (22%), Differentiation by Learner (50%), Post Instruction Response to Intervention (44%) and Reflection of Instructional Strategies (25%).

Only on 32% of the elements on the rubric did the candidates meet benchmark. The addition of EDUC 318: Planning and Instruction for Literacy in the Content Area should better prepare candidates for writing and executing lesson plans particular to their subject area.

Additionally, lesson plans will be pulled from methods courses and from the final portfolio to determine growth in the candidate as pertaining to this assessment.

2021-2022:

The benchmark was not met for the 2021-2022 academic year as there were several elements on the rubric where less than 80% of candidates scored at the proficiency level (3.00) or above: Additional Standards including 6 ELA and Cross-Disciplinary (78%); Rationale (60%); Student Misconceptions (56%); Pre-Planned Seed Questions (40%); Independent Practice (78%); Teacher's Use of Technology (70%); Student Use of Technology (45%); Assessments (70%); Differentiation by Content, Product, Process (70%); Differentiation by Learner (60%); Post-Instruction Response to Intervention (50%) and Reflection of Instructional Strategies (67%).

All major assessments, including the lesson plan, are being realigned to the Danielson Framework for Teaching Model in preparation for the Fall 2024 CAEP accreditation visit therefore a new assessment will be implemented in Fall 2022.

2022-2023:

26 Assessment and Benchmark FEE - Specific inTASC Standards

Assessment: The Field Experience Evaluation (FEE) measures the following elements: Domain 1: Planning and Preparation; Domain 2: Classroom Environment; Domain 3: Instruction, and Domain 4: Professionalism.

The following scoring scale is used: 1- Ineffective; 2- Effective: Emerging; 3- Effective: Proficient; 4- Highly Effective.

Benchmark: 90% of candidates will score a 3.00 or higher on each element in the Field Experience Evaluation (FEE) Rubric for Domains 1-4.

26.1 Data

Music Education_FEE_17-18

Music Education_FEE_18-19

Music Education_FEE_20-21

Music Education_FEE_21-22

26.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

The benchmark was not met. For Domain 2: The Classroom Environment, 88% of the candidates scored at or above benchmark. Specific elements in Domain 2 that fell below benchmark include: 2.1.1 (71%), 2.1.2 (86%), 2.2.1 (86%), 2.2.2 (86%) and 2.2.3 (86%). Also falling below benchmark were the following elements in Domain 3: Instruction, 3.1.1 (86%), 3.1.2 (86%), and 3.3.2 (86%).

Plan for Continuous Improvement:

The benchmark for the 2019-2020 AY will be for 90% of candidates to score a 3.00 or higher on each element of the Field Experience Evaluation (FEE) Rubric for Domains 1-4.

Recommendation for Successful Implementation of Plan for Improvement:

- Methods courses will emphasize a shift to student-led discussions.
- Music and Secondary faculty will meet to determine appropriate strategies for fostering student-led discussions and classroom management procedures.

2019-2020:

2020-2021:

The benchmark was not met. For Domain 2: The Classroom Environment, 82% of the candidates scored below the benchmark. Specific elements in Domain 2 that fell below benchmark include: 2.1.2 (63%), 2.2.2 (63%) and 2.2.3 (86%).

Plan for Continuous Improvement:

The benchmark for 2021 - 2022 will be for 90% of candidates to score a 3.00 or higher on each element of the Field Experience Evaluation (FEE) Rubric for Domains 1-4.

Recommendation for Successful Implementation of Plan for Improvement:

- 2.1.2 "Management of Transition" - more emphasis will be placed on dealing with this in MUED 320, MUED 324/326, and MUED 425.
- 2.2.2 "Monitoring of Student Behavior" - the students were not able to complete their Field Experiences I, and II in Fall 2020 due to the pandemic. this area is one of the major challenges that all music education professionals deal with due to the complexity created by the number of students in many of the ensembles classes.

2021-2022:

For fall 2021 (n=4), benchmark was not met for the following: Domains 2 and 3; Components 2.2, 3.2, and 3.3; Elements 2.1.2, 2.2.2, 3.1.2, 3.2.1, 3.2.4, 3.3.1, 3.3.3, and 3.3.4.

For spring 2022 (n=4), benchmark was met for all domains and components. Only one element fell below benchmark: 1.1.2.

All major assessments, including the field experience evaluation, are being realigned to the Danielson Framework for Teaching Model in preparation for the Fall 2024 CAEP accreditation visit therefore a new assessment will be implemented in Fall 2022.

2022-2023:

27 Assessment and Benchmark Outcomes - TCWS

Assessment: Teacher Candidate Work Sample.

The scoring scale for the Teacher Candidate Work Sample is: 1- Ineffective; 2- Effective: Emerging; 3- Effective: Proficient; 4- Highly Effective.

Benchmark: 80% of candidates will score a 3.00 or above on each of the elements on the Teacher Candidate Work Sample Rubric.

27.1 Data

27.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

The benchmark was not met. There were several categories on the Teacher Candidate Work Sample that did not meet benchmark: Choice of Assessment (71%), Analysis (43%), Alignment of Lesson Evidence (57%), Application (71%) and Response to Interventions (57%).

Plan for Continuous Improvement:

The Teacher Candidate Work Sample is being replaced with the Teaching Cycle which provides specific expectations and increased rigor with scaffolded support to improve candidate abilities to evaluate student learning and plan for instruction.

Recommendation for Successful Implementation of Plan for Improvement:

The Teaching Cycle will be scaffolded throughout the program and the Senior Residency Portfolio will include the entire Teaching Cycle. During the Senior Residency Portfolio course candidates will be assigned a mentor professor to assist them, answer questions, and guide them through the full process.

2019-2020:

2020-2021:

The benchmark was met.

Plan for Continuous Improvement:

The Teacher Candidate Work Sample is being replaced with the Teaching Cycle which provides specific expectations and increased rigor with scaffolded support to improve candidate abilities to evaluate student learning and plan for instruction.

Recommendation for Successful Implementation of Plan for Improvement:

The Teaching Cycle will be scaffolded throughout the program and the Senior Residency Portfolio will include the entire Teaching Cycle. During the Senior Residency Portfolio course candidates will be assigned a mentor professor to assist them, answer questions, and guide them through the full process.

2021-2022:

Due to the semesters impacted by COVID and hurricanes, data was not collected for the teaching cycle on some candidates, therefore there was no data to report here.

All major assessments, including the teaching cycle, are being realigned to the Danielson Framework for Teaching Model in preparation for the Fall 2024 CAEP accreditation visit therefore a new assessment will be implemented in Fall 2022.

2022-2023:

28 Assessment and Benchmark Music Praxis PLT

Assessment: Music Education candidates must pass the Praxis PLT before student teaching.

Benchmark: 80% of candidates will pass the Principles of Learning and Teaching Praxis exam on the first attempt.

28.1 Data

28.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

100% (7/7) of the completers in 2018-2019 achieved passing scores on the Praxis Principles of Learning and Teaching Exam on the first attempt. Over the past four years, mean scores have been fairly consistent across categories, with "Assessment" yielding the lowest percentage correct scores each year.

Plan for Continuous Improvement:

The assessment course has been revised to better prepare candidates for the types of assessments that they will need to create and analyze in the classroom. This should also have a direct effect on the scores achieved in this sub-category of the Praxis PLT. [This course is in the College of Education and thus the music education faculty have little input as to the quality of instruction as it relates to outcomes].

2019-2020:

2020-2021:

100% (8/8) of the completers in 2020-2021 achieved passing scores on the Praxis Principles of Learning and Teaching Exam on the first attempt. Over the past four years, mean scores have been fairly consistent across categories, with "Assessment" yielding the lowest percentage of correct scores each year.

Plan for Continuous Improvement:

The assessment course has been revised to better prepare candidates for the types of assessments that they will need to create and analyze in the classroom. This should also have a direct effect on the scores achieved in this sub-category of the Praxis PLT. [This course is in the College of Education and thus the music education faculty have little input as to the quality of instruction as it relates to outcomes].

2021-2022:

Benchmark was met. 80% of completers in the 2021-2022 academic year completed the Praxis Principles of Learning and Teaching exam on the first attempt.

PLT candidate data across secondary and P-12 programs will be used to guide program improvements for exam preparation.

2022-2023:

End of report
