MCNEESE STATE UNIVERSITY

WHY MCNEESE?

Here are just a few reasons to make McNeese your first choice ...

Studio Space:

In the Department of Visual Arts' media-specific studio labs, you'll gain hands-on experience with state-of-the-art equipment and facilities while learning about the study and production of visual art.

Applied Learning:

At McNeese, you'll have opportunities for immersive learning through internships in professional settings in the community and study abroad programs. Students interested in pursuing teaching certification will also have the chance to observe classrooms at local schools and participate in student teaching.

Expert Faculty:

Highly skilled and knowledgeable in a wide range of media forms, faculty and studio instructors in the Department of Visual Arts provide personal attention to guide you in developing your own artistic voice. Nationally recognized for their research, faculty have works featured in regional, national and international exhibitions.

Excellence With a Personal Touch:

The department also maintains close, cooperative relationships with alumni and members of the local community, providing additional opportunities for networking and resources for art majors.

Department of Visual Arts

Our curriculum provides a breadth of hands-on experience and understanding in studio art. Our graduates learn to analyze the history of art and its function within the evolution of contemporary culture, develop competency in a select area of art studio concentrations and cultivate critical thinking and effective communication skills to become better citizens within the community and throughout the world.

Art Degree Concentrations

Ceramics

Investigate the full range of functional and sculptural ceramic production methods and techniques, clay and glaze formulation and kiln firing methodology.

Drawing

Explore representational and innovative imagery and learn the handling of various tools, materials and techniques in the rendering of still life, landscape and the figure.

Graphic Design

Develop your ability to communicate ideas that inspire, inform and captivate consumers through visual elements, typography and graphics.

Painting

Develop your understanding of design, color, composition and your artistic and technical skills while also exploring the history of painting.

Photography

Learn the tools, techniques, processes and technologies in digital, traditional silver darkroom and alternative process photography, as well as the history and critical theory of the photograph.

Printmaking

Build your knowledge and skills in the traditional and alternative print processes of monotype, relief, silkscreen, intaglio and lithography.
