- **And More!**

MCNEESE STATE UNIVERSITY

WHY MCNEESE?

Here are just a few reasons to make McNeese your first choice ...

Financial Aid and Scholarships:

McNeese has one of the most affordable tuition rates in Louisiana. Plus, there are a number of scholarships that health systems management students can apply for, including the Francis X. Bride Scholarship in Science and Health Professions and the Dr. and Mrs. David Buttross Jr. Health Management Scholarship.

Research-Based Learning:

Throughout their course of study, students are deeply involved in learning how to research, analyze and present materials to improve healthcare processes, including improving patient flow through facilities, mitigating risks for patients and providers and ensuring facilities meet government and system credentials to remain certified.

Expert Faculty:

As experienced professionals in the healthcare field, faculty are actively involved in the healthcare community, keeping their knowledge of technology and best practices in the healthcare field current.

Internship Experience:

Students in the health systems management major complete a 320-hour internship to gain hands-on experience in the healthcare environment. In this internship, students work with a mentor within the organization – as well as other professionals in disciplines such as marketing, administration and human resources – to identify organizational needs and goals and work towards meeting them. Previously, students have worked in quality improvement, data analysis and project development.

Student Activities

The Health Systems Management Student Organization helps students connect with mentoring and networking opportunities with local healthcare professionals. It also represents students in the healthcare profession and conducts community service.

100% Online

McNeese's degree in health systems management is 100% online and offers students the freedom and flexibility to study from home and at their own pace. With course flexibility, many students are able to complete their degrees in as little as three years.

College of Nursing and Health Professions

The mission of the College of Nursing and Health Professions is to prepare healthcare professionals to provide direct or indirect care to meet the healthcare needs of individuals, families, populations and systems. With state-of-the-art technology, hands-on learning opportunities and highly dedicated faculty, McNeese students are prepared to provide excellent care to their communities.
