# Electrical Eng. & Computer Sci.

Department of Electrical Engineering and Computer Science

# Introduction

The Department of Electrical Engineering and Computer Science (EECS) provides a professionally focused education in the fields of Computer Science and Electrical Engineering. Our students are prepared to practice in their chosen field focusing on the industrial and business needs of the region. The needs of traditional and non-traditional students are met through close interaction with faculty, businesses, and the industrial community in a practice-oriented, student-friendly environment. The department maintains ABET-accredited current curricula that foster interdisciplinary teamwork, scholarly development, projects, internships, professional ethics, and training with regional businesses or industries. EECS students are prepared to study for advanced degrees and work in regional businesses or industries.

Programs & Services:

- Baccalaureate programs in education, engineering, business, nursing, selected allied health fields, mass communication, and criminal justice.
- Services specifically designed to meet the needs of regional economic development (small business development, support for entrepreneurs, problem-solving).

Audiences:

- Residents of southwest Louisiana who have completed high school and are seeking either a college degree or continuing professional education;
- Employers in the region, both public and private, school districts, health care providers, local governments, and private businesses;
- Economic development interests and regional entrepreneurs; and
- The area community, by providing a broad range of academic and cultural activities and public events. Special Programs/Features:
  - Custom academic programs and professional certifications integrated with area business and industry.
  - Applied undergraduate research partnerships in engineering, sciences, and allied health.

The Department of EECS delivers a professionally focused education in the fields of Computer Science and Electrical Engineering. EECS faculty and staff are providing students with instruction, scholastic advising, and professional/career counseling. The EECS Department supports related professional and scholarly student activities.

The Department of EECS provides very limited services/courses to distance learning education students except for a few web-based or web-hybrid courses per semester.

# Performance Objective 1 Increase enrollment, persistence, retention, and graduation rates for each program offered by the department.

# 1 Assessment and Benchmark

Benchmark: Increase enrollment by 5% each year, overall and in each program offered by the department.

Prior to 2018-2019, the benchmark was track student enrollments in the BS Computer Science program at each level and in each concentration. Maintain or exceed 2012-2013 levels of declared majors:

- CSCI BS Computer Science
  - APSC Applied Computer Science
  - ° GNCS General Computer Science
  - INCS Industrial Computer Science

#### Percentage Change between 2017-2018:

| Major  | Fall | Total | % Change  | Spring | Total | % Change |
|--------|------|-------|-----------|--------|-------|----------|
|        | 2017 | 219   | 11 0700/  | 2017   | 179   | 2 2510/  |
| CSCI - | 2018 | 193   | -11.07270 | 2018   | 173   | -3.301%  |
| Total  | 2017 | 219   | 44.9730/  | 2017   | 179   | 2 2540/  |
| rotai  | 2018 | 193   | -11.072%  | 2018   | 173   | -3.331%  |

#### 1.1.1 Analysis of Data and Plan for Continuous Improvement

# 2016-2017:

The overall enrollment trend is increasing. However, the completion trend in the last two years is consistent and stable at an average of 12 students per year. No changes are recommended at this time.

#### 2017-2018:

The overall enrollment trend is increasing. However, the completion trend in the last three years is consistent and stable at an average of 12 students per year. No changes are recommended at this time. There is a stable to increasing trend in Freshman & Sophmore enrollments for 2017-2018.

## 2018-2019:

The trend for average enrollment in past 5 years is stable and increasing. The total enrollment decreased in 2018-19. This is possibly due to higher number of completers in past 2 years with 20 students per AY. No changes are recommended at this time. There is a stable and positive trend in Freshman enrollment based on data showing 40+ students registered for CSCI-100 and 65+ are registered in CSCI-180 course sections for Fall 2019.

# 2 Assessment and Benchmark

Benchmark: Increase enrollment by 5% each year.

Prior to 2018-2019, the benchmark was track student enrollments in the BS Engineering program at each level and in each concentration. Fall 2015 was the ABET evaluation year and start of the new cycle. Maintain or exceed 2015-2016 levels of declared majors:

ENGR - BS Engineering

° ELEG - Electrical Engineering

# 2.1 Data

#### 2016-2017:

Enrollment for ELEN has very stable and consistent in the past few years with an upward trend. The annual completer number is good and as expected. We will continue to monitor enrollment numbers.

# 2017-2018:

Enrollment for ELEN has been very stable and consistent in the past few years. The annual completer number is good and as expected. A new concentration in Computer Engineering is added for Fall 2018. We will continue to monitor enrollment numbers and are looking into moving Electrical & Computer Engineering into its own degree to align programs with regional/industry needs.

# 2018-2019:

The enrollment increase for 2018-19 by 18 students in Fall and 10 students in Spring compared to previous year. The completion trend in the last four years were strong and positive with increasing averages since 2013. The current trend is stable for freshman & sophomore enrollments for 2019-2020. No changes are recommended at this time.

# **3** Assessment and Benchmark

Benchmark: Track student enrollment in the MEng Engineering program. Maintain or exceed a total of 40 students in the MEng Engineering program.

- ENGR MEng Engineering
  - ELEG Electrical Engineering
- ENRT MEng Engineering (Thesis Option; effective 201740)
  - ELEG Electrical Engineering

# 3.1 Data

# 3.1.1 Analysis of Data and Plan for Continuous Improvement

#### 2016-2017:

Enrollment is also meeting the benchmark. Electrical engineering continues to have the strongest enrollment with high completers.

# 2017-2018:

Enrollment is meeting the benchmark. Electrical engineering continues to have the strongest enrollment with high completers.

2018-2019:

Enrollment is low and is below the benchmark. But given the increase in number of graduate students with thesis option is a positive indicator. The issue is the low graduate enrollment and what are the main factors. I hope the RNL consulting review and report will provide a guideline for improving the enrollment issue.

# 4 Assessment and Benchmark

Benchmark: Track student completion in the MEng Engineering program. Maintain or exceed a total of 10 completers in the MEng Engineering program.

- ENGR MEng Engineering
  - ELEG Electrical Engineering
- ENRT MEng Engineering (Thesis Option; effective 201740)
  - ELEG Electrical Engineering

# 4.1.1 Analysis of Data and Plan for Continuous Improvement

#### 2016-2017:

Completion rate is in line with the enrollment and meeting the benchmark.

# 2017-2018:

Completion rate for the ELEN concentration is in line with the enrollment, meeting the benchmark, and slightly higher than last academic year.

# 2018-2019:

Given the low enrollment in the graduate program, completion rates are relatively in line with enrollment trend. Improving the current rates requires addressing the issues that were discussed in section 3.

#### **5** Assessment and Benchmark

Benchmarks:

- A persistence rate (retained students from fall Y1 to spring Y1) of 85%.
- A retention rate of 70% from Y1 to Y2.
- A retention rate of 55% from Y1 to Y3.
- A retention rate of 45% from Y1 to Y4.
- A 4-year graduation rate of 35%.
- A 5-year graduation rate of 40%.
- A 6-year graduation rate of 45%.

#### Major:

- CITE Bachelor of Science in Computer Information Technology
- CSCI Bachelor of Science in Computer Science
- ENGT Bachelor of Science in Engineering Technology

#### 2018-2019:

I am not sure if I understand the data correlations on these tables good enough to analyze data trend or to make sound plan for going forward, Need help on make the appropriate plan.

We need clear indicators that with cause any possible change. These tables shows the trend but there are no data on factors causing the changes.

I am not sure if I have any tool in my disposal as a DH or faculty to control the cohort size.

# Performance Objective 2 Provide a comprehensive curriculum that reflects disciplinary foundations and remains responsive to contemporary developments, student and workforce demand.

#### 1 Assessment and Benchmark

Benchmark: Computer science faculty meet four times per academic year to review student progress, curricular offerings, and appropriate professional contacts and opportunities.

#### 1.1 Data

| Academic Year | # of meetings |
|---------------|---------------|
| 2013-2014     | 8             |
| 2014-2015     | 8             |
| 2015-2016     | 6             |
| 2016-2017     | 7             |
| 2017-2018     | 12            |
| 2018-2019     | 9             |

#### 1.1.1 Analysis of Data and Plan for Continuous Improvement

#### 2016-2017:

After hiring two new computer science faculty, plans for course improvements in some computer science courses (CSCI 491, CSCI 410, CSCI 413, and CSCI 416 in particular) are in progress. The ABET SLO data from these courses will be used to assess course outcome.

#### 2017-2018:

Two new computer science faculty were hired. Plans for course improvements in some computer science courses (CSCI 491, CSCI 410, CSCI 413, and CSCI 416 in particular) are completed. The ABET SLO data from these courses are used to assess course outcome.

2018-2019:

In Fall 2018, computer science program was reviewed by CAC-ABET team. The final results will be ready in Sept 2019. During 2018-19 period, CS faculty met over ten times to plan, prepare, and assess CS program. All ABET SOs/PCs are updated to reflect changes made by the new ABET requirements.

#### 2 Assessment and Benchmark

#### Benchmark:

1)The College of Engineering Industrial Advisory Board reviews one engineering concentration (Chemical, Civil, Electrical, Computer, or Mechanical) per year on a four-year cycle. This is a comprehensive review examining the curricula, space, labs, faculty, finances, etc.

2)The Computer Science Industrial Advisory Board reviews CS program every 5 years. This is a comprehensive review examining the curricula, space, labs, faculty, finances, etc.

#### 2.1 Data

| Term        | Program<br>Reviewed |
|-------------|---------------------|
| Fall 2014   | CIEG                |
| Fall 2016   | CHEG                |
| Spring 2018 | CSCI & MEEG         |
| Fall 2020   | ELEG                |

CS-IAB-BSCS-Review-2018-From-4-18-2018-MA [PDF 2,409 KB 7/30/19]

#### 2.1.1 Analysis of Data and Plan for Continuous Improvement

#### 2016-2017:

Engineering IAB has met twice during the 2016-2017 cycle. Engineering faculty are developing the rubric/instruments that will measure the achievement level. Results will be reported in the future master plan. The ELEG program will be evaluated in fall 2019.

#### 2017-2018:

Engineering IAB has met twice during the 2017-2018 cycle. Engineering faculty developed the rubric/instruments that will measure the achievement level. Results will be reported in the future master plan. The CSCI program was evaluated in spring 2018. The ELEG program will be evaluated in Fall 2020.

#### 2018-2019:

Engineering IAB has met twice during the 2018-2019 cycle. Engineering faculty developed the new ABET PCs and rubrics/instruments that will measure the SO achievement levels. Results will be reported in the future master plan.

Computer Science IAB has met three times during the 2018-2019 cycle. The CSCI program was also evaluated in spring 2018. The improvement/recommendations was reported in ABET report. All Engrg and CS ABET SOs, and PCs are reviewed by faculty.

#### 3 Assessment and Benchmark

Benchmark: Maintain or exceed a 75% satisfactory level.

MEng Engineering:

- Assessment goal: Knowledge and skill gained in MEng program.
- Instrument: Exit survey data, student perception of gained knowledge and skills through exit survey data.

#### 3.1 Data

| Academic Year | # of respondents | Average Score |
|---------------|------------------|---------------|
| 2016-2017     | N/A              | >80%          |
| 2017-2018     | 3                | 100%          |
|               |                  |               |

| 2018-2019 | 2 | 100% |
|-----------|---|------|
| 2019-2020 |   |      |

2016-2017: No action is required.

2017-2018:

The graduate program had three completers. All three completed the survey and indicated complete satisfaction (5/5) with their program goal and learning outcomes. No action is required.

2018-2019:

The graduate program had two completers (1 thesis, & 1 non-thesis) which completed the survey and indicated complete satisfaction (5/5) with their program goal and learning outcomes. No action is required.

#### 4 Assessment and Benchmark

Benchmark: Maintain or exceed an average score of 80%.

MEng Engineering:

- Assessment goal: Knowledge and skill gained in MEng program.
- Instrument: Graduate Comprehensive Exam (GCE), evaluation of gained knowledge and skills through examination.

#### 4.1 Data

# 2016-2017:

Average data computed from GCE is 82%. This is the first year of reporting for this assessment. Continue to track and report data.

#### 2017-2018:

There were no non-thesis students requiring GCE in 2017-2018.

#### 2018-2019:

There was only 1 non-thesis student. Data computed from GCE is 87%. This is the 2nd year of reporting for this assessment. There are not enough data points to evaluate for BM. Will continue to track and report data.

#### 4.1.1 Analysis of Data and Plan for Continuous Improvement

2016-2017:

All students passed the GCE exams. No action is required.

2016-2017:

Students have not taken the GCE. No action is needed.

2018-2019:

There was only one non-thesis student with average score of 87%. She passed the GCE exam. No action is required.

# Performance Objective 3 (ABET Program Education Objective 1) The Computer Science programs will enable students to become productive, responsible computing science professionals capable of conducting research and/or designing, developing, or maintaining projects in the various areas of computer science.

# 1 Assessment and Benchmark

Benchmark: A benchmark of 3.00 on a 5-point scale for the McNeese State University Alumni survey for each of the PEOs is set.

- Assessment Goal: To track Program Educational Objectives.
- Instrument: The Computer Science Alumni survey asks questions about Program Educational Objectives.

Prior to 2018, the benchmark was 2.00 on a 3-point scale.

| Academic Year | # of Respondents | Average Score (out<br>of 5) | Benchmark Met? |
|---------------|------------------|-----------------------------|----------------|
| 2014-2015     | 30               | 4.27                        | Yes            |
| 2017-2018     | 37               | 3.49                        | Yes            |
| 2020-2021     |                  |                             |                |

#### 2015-2016:

A 2.50 on the 3-point scale means that on the average the McNeese State University alumni agree with all of the PEOs. Next data set will be collected in spring 2018. Average (3-point) answer to questions targeting PEO 1 on the Alumni Survey conducted in spring 2014 was 2.64/3.00.

# 2017-2018:

A 3.49 average on a 5-point scale with a benchmark of 3.00/5.00 means that based on Alumni surveyed data, McNeese students meet and exceed the set benchmark. Next data set will be collected in 2021.

#### 2018-2019:

All the indicators are currently positive and no weakness observed by the recent ABET evaluators. The next Alumni survey will be done in 2021. Due to changes in ABET program assessment, educational objectives and student learning outcomes for the 2019-20 are under review by CS faculty and will be updated for the 2021 survey questions in 2019-20.

#### 2 Assessment and Benchmark

Benchmark: A benchmark of 3.00 on a 5-point scale for the Employer survey for each of the PEOs is set.

- Assessment Goal: To track Program Educational Objectives.
- Instrument: The Computer Science Employer Survey asks questions about Program Educational Objectives.

Employers of Computer Science Graduates Survey [DOCX 13 KB 5/18/20]

#### 2.1 Data

| Academic Year | # of Respondents | Average Score (out<br>of 5) | Benchmark Met? |
|---------------|------------------|-----------------------------|----------------|
| 2014-2015     | 12               | 4.67                        | Yes            |
| 2017-2018     | 12               | 4.33                        | Yes            |
| 2020-2021     |                  |                             |                |

#### 2.1.1 Analysis of Data and Plan for Continuous Improvement

#### 2015-2016:

A 4.6 in the 5-point scale, which means that on average the Employers of McNeese State University Computer Science Graduates agree or strongly agree with all of the PEOs.

#### 2017-2018:

In 2018 the surveys are updated and the new benchmark is set at 3.00/5.00. Next data set will be collected in 2021.

#### 2018-2019:

All the indicators are currently positive, benchmarks are met and no weakness observed by the recent ABET evaluators. CS faculty reviewed the feedback from surveys and planning to update the questions based on new standard set by ABET for the new assessment cycle.

#### 3 Assessment and Benchmark

Benchmark: A benchmark of 3.00 on a 5-point scale for the MSU Advisory Board Survey for each of the PEOs is set.

- Assessment Goal: To track Program Educational Objectives.
- Instrument: The Computer Science Advisory Board Survey asks questions about Program Educational Objectives.

#### Prior to 2018, the benchmark was 2.50 on a 3-point scale.

Computer Science Advisory Board Survey [DOCX 13 KB 5/18/20]

#### 3.1 Data

| Academic Year | # of Respondents | Average Score (out<br>of 5) | Benchmark Met? |
|---------------|------------------|-----------------------------|----------------|
| 2014-2015     | 18               | 4.67                        | Yes            |
| 2017-2018     | 15               | 3.80                        | Yes            |
| 2020-2021     |                  |                             |                |

# 3.1.1 Analysis of Data and Plan for Continuous Improvement

#### 2015-2016:

A 2.50 in the 3-point scale corresponds to a 4.00 or Agree in the 5-point scale which means that on average the McNeese State University Computer Science Advisory Board agree with all of the PEOs.

#### 2017-2018:

A 5-point scale with an updated survey questions is used for the current cycle. Next data set will be collected in 2021.

#### 2018-2019:

CS faculty reviewed the feedback from surveys and planning to update the questions or benchmarks based on new standard set by ABET for the new assessment cycle. All the indicators are currently positive and on weakness observed by the recent ABET evaluators.

# Performance Objective 4 (ABET Program Education Objective 2) The Computer Science program will enable students to understand and apply ethical issues and social aspects of computing science in performing their duties as computer science professionals.

#### **1** Assessment and Benchmark

Benchmark: A benchmark of 3.00 on a 5-point scale for the McNeese State University Alumni survey for each of the PEOs is set.

- Assessment Goal: To track Program Educational Objectives.
- Instrument: The Computer Science Alumni survey asks questions about Program Educational Objectives.

#### Prior to 2018, the benchmark was 2.00 on a 3-point scale.

| Academic Year | # of Respondents | Average Score (out<br>of 5) | Benchmark Met? |  |
|---------------|------------------|-----------------------------|----------------|--|
| 2014-2015 12  |                  | 4.40                        | Yes            |  |
|               | ĺ                |                             |                |  |

| 2017-2018 | 12 | 4.25 | Yes |
|-----------|----|------|-----|
| 2020-2021 |    |      |     |

#### 2015-2016:

A 4.40 in the 5-point scale, which means that on average the Employers of McNeese State University Computer Science Graduates agree or strongly agree with all of the PEOs. Next data set will be collected in late 2017 or spring 2018.

#### 2017-2018:

A 4.33 in the 5-point scale, which means that on average the Employers of McNese State University Computer Science Graduates agree or strongly agree with all of the PEOs. Next data will be collected in 2021.

# 2018-2019:

All the indicators are currently positive, benchmarks are met and no weakness observed by the recent ABET evaluators. CS faculty reviewed the feedback from surveys and planning to update the questions based on new standard set by ABET for the new assessment cycle.

#### **3** Assessment and Benchmark

Benchmark: A benchmark of 3.00 on a 5-point scale for the McNeese State University Advisory Board Survey for each of the PEOs is set.

- Assessment Goal: To track Program Educational Objectives.
- Instrument: The Computer Science Advisory Board Survey asks questions about Program Educational Objectives.

Computer Science Advisory Board Survey [DOCX 13 KB 5/18/20]

#### 3.1 Data

| Academic Year | # of Respondents | Average Score (out<br>of 5) | Benchmark Met? |
|---------------|------------------|-----------------------------|----------------|
| 2014-2015     | 18               | 4.78                        | Yes            |
| 2017-2018     | 15               | 4.07                        | Yes            |
| 2020-2021     |                  |                             |                |

#### 3.1.1 Analysis of Data and Plan for Continuous Improvement

2015-2016:

A 2.50 in the 3-point scale corresponds to a 4.00 or Agree in the 5-point scale, which means that on average the McNeese State University Computer Science Advisory Board agree with all of the PEOs. Next data set will be collected in late 2017 or spring 2018.

#### 2017-2018:

A 4.46 in the 5-point scale, which means that on average the McNeese State University Computer Science Advisory Board agree with all of the PEOs. Next data will be collected in 2021.

# 2018-2019:

CS faculty reviewed the feedback from surveys and planning to update the questions or benchmarks based on new standard set by ABET for the new assessment cycle. All the indicators are currently positive and on weakness observed by the recent ABET evaluators.

# Performance Objective 6 To prepare graduates of the BS in Engineering program to practice engineering and to be successful in solving the engineering problems encountered in industry, government, or private practice. (ABET PEO 1)

#### **1** Assessment and Benchmark

Benchmark: 85% of engineering alumni within five years of graduation (2011-2015) who fill out an alumni survey will score this PO with a 2 or higher based on a 3-point scale (1 = unsuccessful, 2 = satisfactorily successful, 3 = very successful).

| Reporting Year | Alumni group | # of surveys completed | % that scored<br>this PO with a 2 | % that scored this PO with a 3 | % that scored<br>this PO with a<br>2 or higher |
|----------------|--------------|------------------------|-----------------------------------|--------------------------------|--|

The next survey is scheduled for 2019-2020.

2017-2018: Data will be tabulated in 2019-2020.

2018-2019:

Data will be tabulated in 2019-2020.

# Performance Objective 9 To generate internal and external funding sources for program enhancement and research through writing grant proposals by EECS faculty.

#### 1 Assessment and Benchmark

Benchmark: Score of "1.0" or higher (Moderate) for number of submitted proposals per faculty per year is the desired achievement level.

- PC1: Number of grant/fund seeking proposals submitted by EECS faculty.
- Instrument: Annual number of submitted proposals as provided by EECS faculty in APR data. Data will be evaluated on a 3-tier scale. Achievement levels for PC1 are: Score range of 0-1.0 = Low, 1.1-3.0 = Moderate, and 3.1-5 = High.

| Academic Year | # of grant seeking<br>proposals written<br>and submitted | Range of<br>submitted proposals<br>per faculty | Average # of<br>submitted proposals<br>per faculty |
|---------------|--|--|--|
| 2014-2015     | 22.5   | —  | 1.95   |
| 2015-2016     | 12.5   | 0-4  | 1.25   |
| 2016-2017     | 11   | 0-2  | 0.36   |
| 2017-2018     | 9  | 0-3  | 0.77   |
| 2018-2019     | 9  | 0-4  | 1.33   |

#### 1.1 Data

Fraction represents Co-PIs.

#### 1.1.1 Analysis of Data and Plan for Continuous Improvement

2016-2017:

No action is needed. Data for the current assessment period is used as a base number for the purpose of creating a benchmark. Compared to the previous years, there was a low number of proposals that are submitted or funded.

#### 2017-2018:

Compared to the previous years, there was a slight improvement and higher number of proposals that are submitted or funded. No action is needed.

There were three theses completed in spring 2018.

#### 2018-2019:

Compared to the previous years, there was a substantial improvement and 12 proposals were submitted with 8 funded. No action is needed.

#### 2 Assessment and Benchmark

Benchmark: Score of "1.0" or higher (Moderate) for number of successful proposals per faculty per year is the desired achievement level.

- PC2: Number of funded proposals submitted by EECS faculty. Annual evaluation of number of successful (funded)
  proposals submitted seeking grant/enhancement internal or external funds.
- Instrument: Annual number of funded proposals as provided by EECS faculty in APR data. Data will be evaluated on a 3-tier scale. Achievement levels for PC2 are: Score range of 0-0.5 = Low, 0.6-1.5 = Moderate, and 1.6-3 = High.

#### 2.1 Data

| Academic Year | Range of funded<br>proposals per<br>faculty per year | # of successful<br>internal and external<br>proposals | Average # of<br>funded proposals<br>by faculty per year |
|---------------|--|---|---|
| 2014-2015     | —  | 11.5  | 1.5   |
| 2015-2016     | 0-1  | 5   | 0.5   |
| 2016-2017     | 0-2  | 6   | 0.6   |
| 2017-2018     | 0-2  | 4   | 0.44  |
| 2018-2019     | 0-2  | 8   | 0.89  |

Fraction represents Co-PIs.

#### 2.1.1 Analysis of Data and Plan for Continuous Improvement

#### 2016-2017:

The number of funded proposal are the same. All the funded proposals are internal. There were a TASC big ticket proposal funded this cycle.

#### 2017-2018:

The number of funded proposal are less than last cycle. All the funded proposals are internal. There were a TASC big ticket proposal funded this cycle as well. No action is needed.

Proposal included multiple EP grants and a Pinnacle Award.

#### 2018-2019:

The number of funded proposals are more than last cycle. There are more external and internal funded proposals. No action is needed.

Proposal included multiple EP grants.

# Performance Objective 10 To improve classroom teaching by monitoring course SEI

# 1 Assessment and Benchmark

Benchmark: Score of 80% or higher is the desired achievement level for "Student Satisfaction Rate".

- PC1: Annual rate of "Student Satisfaction" for all EECS courses.
- Instrument: Annual review of SEI scores for all EECS courses by using the average SEI scores for each EECS faculty. Data is normalized and evaluated on a 3-tier scale. Achievement levels for PC1 are: Score range of 0-65% = Low Satisfaction, 66%-85% = Moderate Satisfaction, and 86-100% = High.

# 1.1 Data

| Academic Year | Range of<br>SEI scores | Average "Student<br>Satisfaction Rate" |
|---------------|------------------------|--|
| 2013-2014     | _                      | 87.01%                                 |
| 2014-2015     | _                      | 85.8%                                  |
| 2015-2016     | 79-95%                 | 88.11%                                 |
| 2016-2017     | 70-99%                 | 83.84%                                 |
| 2017-2018     | 72-95.6%               | 86.28%                                 |
| 2018-2019     | 65-98%                 | 86.74%                                 |
|               |                        |  |

2019-2020

#### 1.1.1 Analysis of Data and Plan for Continuous Improvement

# 2016-2017:

SEI average is stable and it shows slight decrease in SEI average for 2016-2017 with a wider range of SEI scores.

# 2017-2018:

SEI average is stable and it shows slight increase in SEI average for 2017-2018 with a higher minimum score and narrower range of SEI scores.

2018-2019:

SEI average for all faculty is similar to last cycle with slightly greater range.

This PC is providing a general averages on student satisfaction based on average faculty SEI scores as a whole on a range of courses.

# Performance Objective 11 To increase faculty engagement with Developmental Research, Professional and Scholarly activities.

# **1** Assessment and Benchmark

Benchmark: Score of 31-65% (Moderate) is the desired achievement level for faculty "Professional and Scholarly" activities.

- PC1: Annual rate of "Professional and Scholarly" activities dedicated toward research and professional development.
- Instrument: Annual review of P&S activities engaged by EECS faculty. Data is provided by P&S section of APR data. Data is normalized and is evaluated on a 3-tier scale. Achievement levels for PC1 are: Score range of 0-30% = Low, 31-65% = Moderate, and 66-100% = High.

# 1.1 Data

| Academic Year | # of faculty | % of Professionals & Scholarly<br>Activities | Range*    | Benchmark |
|---------------|--------------|--|-----------|-----------|
| 2014-2015     | 13           | 46.3%  | 15.9-100% | >30%      |
| 2015-2016     | 10           | 48.9%  | 10-100%   | >30%      |
| 2016-2017     | 11           | 37.2%  | 3.6-100%  | >30%      |
| 2017-2018     | 9            | 48.7%  | 16-100%   | >30%      |
| 2018-2019     | 9            | 49.2%  | 7-100%    | >30%      |

\*Range is the normalized % based on APR points assigned. A score of 100% means highest ranking Professional & Scholarly score in APR evaluation.

#### 1.1.1 Analysis of Data and Plan for Continuous Improvement

#### 2016-2017:

No action is needed. Data for the current assessment period is used as a base number for the purpose of creating a benchmark.

# 2017-2018:

The average score and range of activities are stable with 10% improvement on the average Professional & Scholarly activities. No action is needed. Data for the current assessment period is used as a base number for the purpose of creating a benchmark.

# 2018-2019:

The average score and range of activities are stable with slight improvement on the average Professional & Scholarly activities. No action is needed. Data for the current assessment period is used as a base number for the purpose of creating a benchmark.
