### 1.1.1 Analysis of Data and Plan for Continuous Improvement

#### 2017-2018:
The benchmark was met. (Only $65,000 was money collected from outside sources.)

The Burton College of Education will establish a Grants, Fundraising, and Technology Committee that will have representatives from each department within the college. The committee is responsible for completing the TASC grant proposal, researching outside grant opportunities to bring to faculty, supporting faculty grant writing, and attending grant writing workshops when available. Grant topics may include research, equipment, resource materials, and scholarships. This committee will also create fundraising ideas to implement such as ink recycling, Greaux Blue, community coffee points, etc.

This performance objective aligns with annual SEI expectations and can be used as a recruitment opportunity.

#### 2018-2019:
The benchmark was met. Multiple initiatives beyond University funding opportunities were sought out. Psychology's move to another college will give DEP & HHP a new opportunity for meeting the goal. Trend data (three years) will be reviewed and the benchmark increased if needed.

### Performance Objective 2  Conduct professional development.

#### 1 Assessment and Benchmark

**Benchmark 1:** 50% of our faculty/instructors will present professional development to various departments and colleges within the University.

- Benchmark 1a: Faculty/instructors will present professional development to their own department.
- Benchmark 1b: Faculty/instructors will present professional development to colleagues in a different department.
- Benchmark 1c: Faculty/instructors will present professional development to colleagues within Burton College of Education.
- Benchmark 1d: Faculty/instructors will present professional development to colleagues within a different college.

**Benchmark 2:** 50% of faculty/instructors will present professional development to/for various community stakeholders.

1.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:
Benchmark 1 was not met; only 31% of our faculty/instructors presented professional development to various departments and colleges within the University. Benchmark 2 was also not met; only 41% of faculty/instructors presented professional development to/for various community stakeholders.

The BCoE will establish a Professional Development Committee that will have representatives from each department within the college. The committee is responsible for working with each department to offer professional development to faculty and staff, coordinating with area businesses or schools who may want to be offered professional development related to our programs, and work with other colleges and departments on campus to offer professional development workshops.

This performance objective aligns with annual SEI expectations and can be used as a recruitment opportunity.

2018-2019:
Neither benchmark was met. Numbers are not valid moving from last year to this year due to reporting issues. Moving forward clearer expectations with self-reporting will help with better clarity in initiatives happening across our departments. Also, only DEP and HHP data will be collected for the upcoming academic year to give a better understanding of what is occurring with professional development opportunities.

Performance Objective 3 Contribute to scholarly work.

1 Assessment and Benchmark

Benchmark 1: Overall 50% of our faculty/instructors will submit a product for publication and/or a presentation at local, regional, and national conferences.
- Benchmark 1a: Faculty/instructors will submit a product for publication.
- Benchmark 1b: Faculty/instructors will submit a presentation at local, regional, and national conferences.

### 1.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Benchmark 1 was met with 53% of faculty submitting a product for publication/presentation.
This performance objective aligns with annual APR expectations and University expectations for course release. Quantifying activities will help with scoring SEIs more objectively as well as establishment of expectations for faculty/instructors.

Future benchmarks for program accreditation will help align number of faculty/staff within each department contributing to curriculum and/or program development. Also, now that the expectation is set and aligned to APR, more faculty may contribute as it is now an attainable goal.

2018-2019:
All three departments within BCoE met the 50% benchmark two consecutive years with a 12-17% improvement within departments and a 5% gain overall. Moving into the 2019-2020 academic year, only HHP and DEP are counted within this goal. After review of 2019-2020 data, a trend may be set of continuously meeting goal (three years). If that holds, we will move the benchmark higher for the 2020-2021 academic year.

Performance Objective 4  Contribute to the surrounding community by participating in community service opportunities.

1 Assessment and Benchmark
Benchmark: 75% of our faculty/staff will participate in at least one volunteer activity within the community.

1.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:
The benchmark was not met.

The Burton College of Education will establish a Community Service Committee that will have representatives from each department within the college. The committee is responsible for establishing a community service project in which the college faculty and staff can participate in for each month (September, October, November, February, March, and April). The committee will also identify and disseminate information about various opportunities throughout the community where time can be spent volunteering individually.

We will have t-shirts designed and participate as a team representing Burton College of Education and McNeese State University.

This performance objective aligns with annual SEI expectations and can be used as a recruitment opportunity.

2018-2019:
HHP has met benchmark for two consecutive years. All of their faculty are required to participate in Senior Olympics but multiple faculty members also participated in other opportunities including the food drive, literacy event, and various walks. DEP did not meet benchmark last year but did this year due to the involvement with BCoE Boots on the Ground initiative. PSYC did not meet benchmark either year but did gain 18% more participation from last year to this year. Moving into the 2019-2020 academic year, only HHP and DEP will be counted within this goal. The hope is that participation will meet expectations especially since there are new initiatives for the Boots on the Ground Community Involvement team.
