**1.1.1 Analysis of Data and Plan for Continuous Improvement**

**2017-2018:**
The benchmark was met. (Only $65,000 was money collected from outside sources.)

The Burton College of Education will establish a Grants, Fundraising, and Technology Committee that will have representatives from each department within the college. The committee is responsible for completing the TASC grant proposal, researching outside grant opportunities to bring to faculty, supporting faculty grant writing, and attending grant writing workshops when available. Grant topics may include research, equipment, resource materials, and scholarships. This committee will also create fundraising ideas to implement such as ink recycling, Greaux Blue, community coffee points, etc.

This performance objective aligns with annual SEI expectations and can be used as a recruitment opportunity.

**2018-2019:**
The benchmark was met. Multiple initiatives beyond University funding opportunities were sought out. Psychology's move to another college will give DEP & HHP a new opportunity for meeting the goal. Trend data (three years) will be reviewed and the benchmark increased if needed.

**2019-2020:**
The benchmark was met. ($111,000 was money collected from outside sources.)

The US PREP grant is a 3-year, $100,000/year grant.

The Center for the Advancement of Quality Education now has a new director which will help with the focus of fund raising.

Not listed within the table is the federal grant the university was awarded that the dean is the executor of. The Federal Work Study Experiment Grant was funded at $150,000 for the 20-21 AY. We only needed $50,000 to support those candidates that qualified.

This performance objective aligns with annual SEI expectations and can be used as a recruitment opportunity.

**2020-2021:**
The benchmark was met. ($205,000 was money collected from outside sources and this amount does not include
The US PREP grant is a 3-year, $100,000/year grant.

The Center for the Advancement of Quality Education now has a new director who was awarded three grants this year: PrimeTime Reading Kits; Grow your own curriculum grant, and Citgo Grant for the MPWR Learning Lab totally $41,000. This performance objective aligns with annual APR expectations and can be used as a recruitment opportunity.

**Performance Objective 2  Conduct professional development.**

1.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:
Benchmark 1 was not met; only 31% of our faculty/instructors presented professional development to various departments and colleges within the University. Benchmark 2 was also not met; only 41% of faculty/instructors presented professional development to/for various community stakeholders.

The BCoE will establish a Professional Development Committee that will have representatives from each department within the college. The committee is responsible for working with each department to offer professional development to faculty and staff, coordinating with area businesses or schools who may want to be offered professional development related to our programs, and work with other colleges and departments on campus to offer professional development workshops.

This performance objective aligns with annual SEI expectations and can be used as a recruitment opportunity.

2018-2019:
Neither benchmark was met. Numbers are not valid moving from last year to this year due to reporting issues. Moving forward clearer expectations with self-reporting will help with better clarity in initiatives happening across our departments. Also, only DEP and HHP data will be collected for the upcoming academic year to give a better understanding of what is occurring with professional development opportunities.

2019-2020:
Benchmark 1: Yes, 54% of our faculty/instructors presented professional development to various departments and colleges within the university
Benchmark 2: Yes, 62.5% of faculty/instructors presented professional development to/for various community stakeholders.

Continuous improvement with stakeholder engagement is part of the US PREP initiative for DEP. We are held accountable by the grant to hold more stakeholder meetings. Redesigning the residency programs and the Master of Education in Curriculum and instruction also led us to more meetings with stakeholders to build program experiences.

This performance objective aligns with annual SEI expectations and can be used as a recruitment opportunity.

2020-2021:
Benchmark 1 was not met. An average of 26% between the two departments of our faculty/instructors presented professional development to various departments and colleges within the university

Benchmark 2 was not met. 31% of faculty/instructors presented professional development to/for various community stakeholders. EDPR, however, did meet the goal at 62%.

Continuous improvement with stakeholder engagement is part of the US PREP initiative for DEP. We are held accountable by the grant to hold more stakeholder meetings.

Initiatives across campus will lead to more involvement of the Center for the Advancement of Quality Education and
possibly our faculty depending on their expertise.

This performance objective aligns with annual APR expectations and can be used as a recruitment opportunity.

**Performance Objective 3  Contribute to scholarly work.**

1 **Assessment and Benchmark**

Benchmark 1: Overall 50% of our faculty/instructors will submit a product for publication and/or to present at local, regional, and national conferences.
- Benchmark 1a: Faculty/instructors will submit a product for publication.
- Benchmark 1b: Faculty/instructors will submit a presentation at local, regional, and national conferences.

Benchmark 2: 75% of our faculty/instructors will systematically and purposefully contribute to curriculum and/or program development.
- Benchmark 2a: Faculty/instructors will have a final approved product showing program alignment for standards, assessments, rubrics.
- Benchmark 2b: Faculty/instructors will create new major assessments and rubrics aligned to current standards.
- Benchmark 2c: Faculty/instructors will be responsible for a standard within the national accreditation process.
- Benchmark 2d: Faculty/instructors will correctly collect, analyze, and improve teaching through course data analysis including grade distribution, student assessment data, and a review of student work samples.
- Benchmark 2e: Faculty/instructors will submit a formal report on current research being developed, data collection, timeline for completion, etc.

1.1 **Data**

**Benchmark 2.1 Data:** Overall 50% of our faculty/instructors will submit a product for publication and/or to present at local, regional, and national conferences.

### 1.1.1 Analysis of Data and Plan for Continuous Improvement

**2017-2018:**
Benchmark 1 was met with 53% of faculty submitting a product for publication/presentation.

This performance objective aligns with annual APR expectations and University expectations for course release. Quantifying activities will help with scoring SEIs more objectively as well as establishment of expectations for faculty/instructors.

Future benchmarks for program accreditation will help align number of faculty/staff within each department contributing to curriculum and/or program development. Also, now that the expectation is set and aligned to APR, more faculty may contribute as it is now an attainable goal.

**2018-2019:**
All three departments within BCoE met the 50% benchmark two consecutive years with a 12-17% improvement within departments and a 5% gain overall. Moving into the 2019-2020 academic year, only HHP and DEP are counted within this goal. After review of 2019-2020 data, a trend may be set of continuously meeting goal (three years). If that holds, we will move the benchmark higher for the 2020-2021 academic year.

**2019-2020:**
Benchmark 1: Yes, 67% of faculty submitted a product for publication/presentation.
Benchmark 2: No, 67% of faculty/staff systematically and purposefully contributed to the curriculum and/or program development.
development.

This performance objective aligns with annual APR expectations and university expectations for course release. Quantifying activities will help with scoring SEIs more objectively as well as establishment of expectations for faculty/instructors. We are showing progress in submissions for publications and presentations even with Covid occurring during the spring 2020 semester.

Future benchmarks for program accreditation will help align number of faculty/staff within each department contributing to curriculum and/or program development. A new position will be created within the DSHP for assessment coordinator who will assist in CAATE accreditation efforts and alignment of curriculum/assessments/outcomes.

2020-2021:
Benchmark 1: No, overall, 44% of faculty submitted a product for publication/presentation. EDPR did reach goal of 50%.
Benchmark 2: No, 51% of faculty/staff systematically and purposefully contributed to the curriculum and/or program development. EDPR did reach the goal with 77%.

This performance objective aligns with annual APR expectations and university expectations for course release. Quantifying activities will help with scoring APRs more objectively as well as establishment of expectations for faculty/instructors. Many conferences, etc. were cancelled due to Covid. The hurricanes hinder faculty progress in working on manuscripts and presentation proposals for fall 2020.

Future benchmarks for program accreditation will help align number of faculty/staff within each department contributing to curriculum and/or program development. A new position was created within the DSHP for assessment coordinator, spring 2021, who will assist in CAATE accreditation efforts and alignment of curriculum, assessments, and outcomes.

Performance Objective 4 Participate in recruitment efforts and contribute to the surrounding community by participating in community service opportunities.

1 Assessment and Benchmark

Benchmark 1: 75% of our faculty/staff will participate in at least one university organized recruitment opportunity.
Benchmark 2: 75% of our faculty/staff will participate in at least one volunteer activity within the community.

1.1.1 Analysis of Data and Plan for Continuous Improvement

2019-2020:
Benchmark 1: Was not met.

We continue to make progress each year toward the goal of 75%. Recruitment efforts for 20-21 academic year will include Unlock Education: Educators Rising Regional Conference and Grad Fest.

This performance objective aligns with annual SEI expectations and can be used as a recruitment opportunity.

2020-2021:
Benchmark was met (94%).

Participation in recruitment efforts for fall 2020 was limited due to the virtual setting of preview days. Leadership and faculty were represented at virtual preview days, parent virtual meetings. etc.

We continue to make progress each year toward the goal of 75%. Recruitment efforts for 20-21 academic year included Unlock Education: Educators Rising Regional Conference which most EDPR and 2 faculty members from HHP participated in.

This performance objective aligns with annual APR expectations and can be used as a recruitment opportunity

1.2.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:
The benchmark was not met.

The Burton College of Education will establish a Community Service Committee that will have representatives from each department within the college. The committee is responsible for establishing a community service project in which the college faculty and staff can participate in for each month (September, October, November, February, March, and April). The committee will also identify and disseminate information about various opportunities throughout the community where time can be spent volunteering individually.

We will have t-shirts designed and participate as a team representing Burton College of Education and McNeese State University.

This performance objective aligns with annual SEI expectations and can be used as a recruitment opportunity.
2018-2019:
HHP has met benchmark for two consecutive years. All of their faculty are required to participate in Senior Olympics but multiple faculty members also participated in other opportunities including the food drive, literacy event, and various walks. DEP did not meet benchmark last year but did this year due to the involvement with BCoE Boots on the Ground initiative. PSYC did not meet benchmark either year but did gain 18% more participation from last year to this year. Moving into the 2019-2020 academic year, only HHP and DEP will be counted within this goal. The hope is that participation will meet expectations especially since there are new initiatives for the Boots on the Ground Community Involvement team.

2019-2020:
Benchmark 2: Was met.

Due to Covid, a couple of planned activities did not occur in spring 2020: Senior Olympics, TK20 elementary science day.

2020-2021:
Benchmark was met (76%).
