

Social Sciences

#7 Plan cycle - 7
Plan cycle 2021/2022
7/1/21 - 6/30/22

Introduction

The purposes of the Department of Social Sciences are:

- To offer every student an opportunity to broaden their knowledge and increase their understanding of the past and present of humankind's governmental and social endeavor, including studies in anthropology, geography, and philosophy.
- To provide students with a solid liberal arts course of study leading to a Bachelor of Arts degree in Political Science or Sociology, or a Bachelor of Science degree in Criminal Justice. Sociology now offers a concentration in General Sociology or Family Sciences.
- To offer an online Master of Science degree in Criminal Justice.
- To offer minors in Criminal Justice, Government, Sociology, Geography, and Philosophy.
- To serve the University, the larger academic community, and the Southwest Louisiana area through quality teaching, research and publication and University and community service.
- The Department of Social Sciences and the departmental degree programs support the University's fundamental mission to offer baccalaureate curricula in service to the residents and employers of the SWLA region and beyond. It provides opportunities for student internships in local industry and prepares students to become effective in academic and professional environments.
- To provide excellent instruction and advising to all Social Science majors and other students accompanied by academic excellence with a personal touch both in and out the classroom.

1.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Within this Department of Social Sciences unit assessment report, there are undergraduate and graduate enrollment numbers for our degree programs. Based upon an examination of enrollment data since the fall 2013 semester, the number of students actively pursuing an undergraduate degree in Political Science has slightly dropped from the average of previous years. Likewise, the number of PLEG studies is relatively low. On the departmental level, an assessment of the data reveals that there has been a decline from a high of 527 undergraduate students in the fall 2013 semester to a low number of 361 undergraduate students in the fall 2017 semester. Likewise, the spring semester of 2014 had 500 undergraduate students pursuing degrees affiliated with the department, while only 316 undergraduate students were designated as SOSC students in the spring 2018 semester. As previous reports have indicated, the B.S. in CJUS and B.A. in SOCL continue to represent the disciplines which are strong in terms of enrollment numbers. Indeed, if you look at completer numbers, 36 out of 44 students graduating in the fall 2017 semester were awarded a B.S. degree in CJUS or a B.A. degree in SOCL. Likewise, the completer numbers for the spring 2018 semester

represented virtually the same outcome (i.e., 35 out of 43 students completing their degrees were awarded a B.S. degree in CJUS or a B.A. degree in SOCL).

2018-2019:

For analysis purposes, the completer data has been incorporated into the attached chart:

Completer Data by SOSC Major

2013-2019

Based upon an examination of the completer data as shown in the attached chart, the following conclusions can be made:

- Sociology completers have increased due to the online sociology program, 26 students in 2013-14 to 38 students in 2017-2018.
- POLS completer student numbers have been erratic, ranging from a low of five completers in 2015-16 to a high of fourteen completers in 2014-15.
- CJUS completer data, for both the traditional and online degree programs, have been reduced by half (44 students to 20 students for the traditional CJUS program; 30 students to 14 students in the online CJUS degree program).

The plan for continuous improvement will include a proactive effort to retain students from Y1 to Y2. If we successfully adopt the retention suggestions of RNL, then the percentage of our completer numbers in CJUS, SOCL, and POLS should increase. Furthermore, during the 2018-2019 reporting period, the Department of SOSC hired a new faculty member for each of the following disciplines: CJUS and POLS. It is anticipated that the integration of new faculty members in the aforementioned degree programs will contribute to an increase in the completer numbers of CJUS and POLS in future reporting periods. Finally, our plan for continuous improvement will include a cutting edge approach to embracing best practices as it relates to advising, mentoring, and teaching.

2019-2020:

An analysis of the data that pertains to increasing enrollment, persistence, and graduation rates for each program offered by the department reveals that the only discipline that is meeting the benchmark figure for increasing enrollment by 5% each year is POLS. The percentage change for POLS from 2018-2019 was 23.81%. However, it should be noted that the other SOSC disciplines experienced decreases in enrollment, ranging from -15.25 % for CJSO, -3.48% for CJUS, -15% for SOCL, and -5.98% for SOCO. Collectively, the percent decline in enrollment for the department was -10.7% (355 students in 2018 to 317 students in 2019).

An empirical assessment of the last seven years of Fall enrollment data clearly reveals that the number of students majoring in the degree programs offered by the Department of Social Sciences has gradually declined. Please see the following enrollment numbers:

- Fall 2013---554 students
- Fall 2014---465 students
- Fall 2015---453 students
- Fall 2016---430 students
- Fall 2017---364 students
- Fall 2018---355 students
- Fall 2019---317 students

The above-stated numbers are moving in the wrong direction. With that being said, the Department of Social Sciences must innovate and strategize to increase the students that are enrolling and graduating with their degrees in CJUS, CJSO, POLS, SOCL, and SOCO. Indeed, the present tide is not acceptable. In short, we must adopt a plan for continuous improvement that recognizes the importance of best practices as it relates to retention, advising, teaching, and mentoring. Maintaining the status quo is not an option.

2020-2021:

An analysis of the 2019-2020 data that pertains to increasing enrollment for each degree program offered

by the Department of SOSC reveals that the only degree program that failed to meet the benchmark figure of a 5% increase was the SOCL degree program. With that being said, it is important to note that there were significant positive changes from the previous reporting periods. For example, the SOSC percent increases include the following: CJSO--14%; CJUS--19.8%; POLS--46.1%; and SOCO--12.7%. Collectively, the percent increase was 16.7% (317 students were enrolled in SOSC degree programs in 2019, while 370 students were enrolled in SOSC degree programs in 2020). Compared to previous reporting periods, the enrollment numbers for the majority of SOSC disciplines are trending in an upward direction. The plan for continuous improvement will center upon maintaining our position on the cutting edge of best practices as it relates to enhancing enrollment numbers for our degree programs in the Department of SOSC.

2021-2022:

The benchmark that has been set for Performance Objective 1 is the following: "Increase enrollment by 5% each year, overall and in each undergraduate program offered by the department".

An examination of the 2020-2021 data reveals that there was not a single SOSC degree program that met the 5% increase in enrollment for Performance Objective 1. The breakdown of the data indicates that the CJSO and POLS degree programs both experienced a 0% change in enrollment, while the remaining degree programs had a negative percent change in enrollment: SOCL (-11.7%), CJUS (-18.7%), and SOCO (-20.9%). Collectively, the Department of SOSC endured a 14.5 decrease in enrollment from the Fall 2020 semester (370 students) to the Fall 2021 term (316 students). Compared to the previous reporting period, the enrollment numbers for the majority of the SOSC disciplines are trending in a downward direction. The decrease in enrollment comes after the Department showed a 16.7% increase in students during the 2019-2020 reporting period.

The plan for continuous improvement will center on departmental outreach efforts at McNeese Preview Days in the Fall, Spring, and Summer. Likewise, faculty coordinators in each of the academic disciplines within the Department of SOSC will play an active role in the advising, mentoring, and recruiting of students. Finally, the Department of SOSC will implement strategies that are considered the best practices in maintaining and enhancing the enrollment of students at the collegiate level.

[Completer Data by SOSC Major](#) [DOCX 11 KB 2/18/20]

2 Assessment and Benchmark

Benchmark: Increase enrollment by 5% each year in each graduate program offered by the department.

Prior to 2020-2021, the benchmark was to track graduate student enrollment and completers. Maintain or exceed 2014-2015 levels.

Graduate Programs:

- CJSO - MS Criminal Justice

2.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

In terms of the M.S. degree in CJUS, there is a consistent number of 51 students enrolled in this program. Furthermore, 20 students graduated with their M.S. degree in CJUS during the 2017-2018 academic year. After examining the data from the last five years, it is anticipated that the number of students enrolled in the M.S. degree program in CJUS at McNeese will continue to rise in future semesters. With the anticipated

growth in the number of students pursuing the aforementioned degree, the department will have to develop a strategic plan with respect to the following areas: course offerings; appointment of adjunct faculty members; program assessment; and perhaps, the development of an online Ph.D. program in CJUS.

2018-2019:

An analysis of the data reveals that, during this current reporting period, 16 students graduated with their M.S. in CJUS. Likewise, the M.S. in CJUS degree program has a Fall 2019 student enrollment of 66 students. Most importantly, this number represents a 8.2% increase over the Fall 2018 enrollment numbers for the M.S. in CJUS program. Furthermore, there is good evidence to suggest that the aforementioned degree program has a solid foundation to which to grow upon in future reporting periods. Our CJUS master's program is the second online graduate program, surpassed only by M.S.N. program in Nursing. The plan for continuous improvement will include a focus to build upon the enrollment and completer numbers by establishing a 4 plus 1 program for those undergraduate CJUS students that have the potential to move directly into our M.S. in CJUS program. In short, the establishment of the aforementioned program should boost an already strong graduate CJUS degree program.

2019-2020:

An analysis of the data reveals that we had a record number of individuals complete the requirements for their M.S. in CJUS degree. Likewise, we are maintaining a strong enrollment in our graduate program in CJUS (65 students). Most importantly, the aforementioned numbers suggest that our M.S. in CJUS program has a strong and solid foundation that will continue to grow in future reporting periods. The plan for continuous improvement will focus attention on considering the 4 plus 1 program that was considered during the last reporting period. In retrospect, the COVID pandemic impacted the adoption of the said program that is intended to boost an already strong graduate program in CJUS.

2020-2021:

An analysis of the 2020-21 empirical enrollment data for the M.S. in CJUS degree program reveals that there was a 9% decrease in the number of individuals enrolling in our Master's program in CJUS (i.e., 66 students were enrolled in 2019 compared to 60 students in 2020). The drop in enrollment numbers can be a function of factors that are related to the COVID pandemic and Hurricanes Laura and Delta. The plan for continuous improvement will center on developing a media campaign that will encourage individuals to enroll in our M.S. degree program in CJUS. Likewise, our Graduate Director in CJUS will revisit the 4 plus 1 program that was incorporated in the analysis of data and plan for continuous improvement for the 2019-20 reporting period.

2021-2022:

The benchmark that has been set for Performance Objective 1 is the following: "Increase enrollment by 5% each year in each graduate program offered by the department".

An examination of the 2020-2021 data reveals that the M.S. in CJUS degree program did not meet the 5% increase in enrollment for Performance Objective 1. The breakdown of the data indicates that the CJSO M.S. degree program experienced a 20% decrease in enrollment (60 students were enrolled during the Fall 2020 semester, while 48 students were enrolled in the Fall 2021 term). This 20% decrease in enrollment is 11% greater than the decrease in enrollment that occurred during the 2019-2020 reporting period. Preliminary data from the Spring 2022 semester shows that 55 students were enrolled in the M.S. CJUS degree program. With this being said, it is anticipated that the Fall 2022 enrollment figures will meet or exceed the enrollment numbers of 48 students that were included in the 2020-2021 data.

The plan for continuous improvement will include the recruitment of highly qualified McNeese undergraduate students for our M.S. in CJUS degree program. Our Department of SOSC recently hired one of our M.S. in CJUS graduates as a tenure-track CJUS Assistant Professor. Since our new CJUS professor is from Southwest Louisiana, he will play a key role in the recruitment effort for our CJUS Master's degree program. Finally, the 4 plus 1 program that was included in previous reporting periods will be a focal concern in the plan for continuous improvement.

3 Assessment and Benchmark

Benchmarks:

- A persistence rate (retained students from fall Y1 to spring Y1) of 85%.
- A retention rate of 70% from Y1 to Y2.
- A retention rate of 55% from Y1 to Y3.
- A retention rate of 45% from Y1 to Y4.
- A 4-year graduation rate of 35%.
- A 5-year graduation rate of 40%.
- A 6-year graduation rate of 45%.

Major:

- CJSO - Bachelor of Science in Criminal Justice (Online)
- CJUS - Bachelor of Science in Criminal Justice
- FMCS - Bachelor of Science in Family and Consumer Studies
- GOVT - Bachelor of Arts in Government
- PLEG - Associate of Arts in Paralegal Studies
- POLS - Bachelor of Arts in Political Science
- SOCL - Bachelor of Arts in Sociology
- SOCO - Bachelor of Arts in Sociology (Online)

3.1 Data

3.1.1 Analysis of Data and Plan for Continuous Improvement

2018-2019:

To make sense of the retention rates for the various degree programs in SOSC, the attached chart was compiled.

Baed upon the attached retention chart for the years of 2012-2017, several things should be noted:

- the retention rate from Y1 to Y3 for the CJUS B.S. program dipped sharply from the 2015 reporting period (63%) to the 2016 reporting period (26.3%). The prior year reporting periods for Y1 to Y3 were consistently in the 50% range;

- the retention rate from Y1 to Y3 for the POLS B.A. program showed similar results (77.8% to 42.9%);
- with regard to the SOCL B.A. program, there was a significant increase in the retention rate from Y1 to Y3 (37.5% to 57.1%).
- the retention rates from Y1 to Y2 for the CJUS B.S. program have met the benchmark figure of 70% for the reporting period of 2012 and 2014. Recently, however, it appears that the retention numbers for the CJUS degree program has experienced a significant decline for Y1 to Y2 (52.6% and 54.5% for the 2016 and 2017 reporting periods);
- the retention rates from Y1 to Y2 for the POLS B.A. program have also met the benchmark figure of 70% for the reporting periods of 2012, 2014, and 2015. As with the CJUS program retention numbers, there was a dramatic decline in the POLS retention rates during the 2016 reporting period (42.9%);
- with regard to the SOCL B.A. program retention rates from Y1 to Y2, the data reveals that the retention percentages did not meet the 70% benchmark for each reporting period.

Given the data reported for the 2016 year, it appears that the benchmark retention figure of 55% from Y1 to Y3 was only achieved for the SOCL B.A. program. Likewise, the retention data from Y1 to Y2 for the CJUS and POLS degree programs has been relatively good, whereas the SOCL retention percentages have failed in meeting the benchmark figure of 70% for Y1 to Y2. A plan for continuous improvement should include an examination of suggestions being offered by RNL as to what steps should be taken to increase the retention rate of our student population in the Department of SOSC. Furthermore, RNL is looking at best practices as it relates to the transfer of students from Basic Studies to other departments on campus. Through the adoption of these retention suggestions, our department should be able to increase the retention rates of students in CJUS, POLS, and SOCL.

2019-2020:

An analysis of the data will be based on an assessment of the attachment that lists the retention rates and graduation rates (2012-2017) for the following disciplines within the Department of Social Sciences: CJUS, POLS, SOCL, and SOCO. Before analyzing the data, it should be noted that only one of the four disciplines (CJUS) has a cohort size of over ten students. With that being said, the small sample size of the cohorts is problematic when assessing the patterns or trends that exist in the retention and graduation rates.

With respect to the retention rates for CJUS students, an analysis of the data reveals that the benchmarks of 70% for Y1 to Y2, 55% from Y1 to Y3, and 45% from Y1 to Y4 were met in 2012. In 2013, none of the aforementioned benchmarks for CJUS were met. For the years of 2014 and 2015, two out of the three CJUS retention marks were met. The two benchmarks that were not met during 2014 and 2015 were very close to reaching the given mark for Y1 to Y4 (2014), and for Y1 to Y2 (2015). Finally, the CJUS retention benchmarks for 2016 were not met.

In terms of the POLS data, an analysis of the data indicates that the benchmarks for Y1 to Y2, Y1 to Y3, and Y1 to Y4 were met for 2012. On a side note, there were only two students in that particular cohort. In addition, the 2013 empirical data illustrates that two of the three benchmarks were achieved (5 individuals in that particular cohort). Furthermore, the 2014 data set shows that only one retention benchmark was met (5 individuals in that particular cohort). In a similar vein, 2015 data affirms that two of the three POLS retention benchmarks were attained (9 individuals are included in that cohort). Finally, none of benchmarks were met in 2016.

With respect to the SOCL data, it was found that none of the benchmarks for Y1 to Y2, Y1 to Y3, or Y1 to Y4 were met. There were 6 to 8 individuals within the SOCL cohort for the years of 2012-2016. On a side note, the SOCL benchmark from Y1 to Y3 was achieved in 2016.

In analyzing the SOCO statistical information, it is found that the benchmarks were not met in 2012. On the other hand, the 2013 data shows that the benchmarks for Y1 to Y2 and Y1 to Y3 were met. It is important to note that there were only two individuals in the 2013 cohort. The benchmark data from 2014 and 2015 are not available. Finally, the benchmark for Y1 to Y2 was reached in 2016.

In terms of the graduation rates for the Department of Social Sciences, the disciplines of CJUS and POLS met the requisite benchmarks of 35%, 40%, and 45% in 2012, while SOCL and SOCO did not. For the year of 2013, CJUS did not meet any of the aforementioned graduation benchmarks. During the same reporting period of 2013, POLS met the 35% and 40% graduation benchmark. In addition, the four year graduation rate in 2013 for SOCL was above the given benchmark of 35%. Finally, for the SOCO students, the 2013 graduation data suggests that the graduation benchmark for the four year and six year was above the given level needed.

The plan for continuous improvement as it relates to retention and graduation rates will include the following:

- the Department of Social Sciences will implement a better strategy to enhance the advising and mentoring of their CJUS, POLS, SOCL, and SOCO students. It is apparent that certain disciplines (SOCL, SOCO) need assistance so that the established retention benchmarks can be met.
- the Department of Social Sciences will broaden their retention efforts by establishing linkages with their students by creating student organizations that will create bonds that exemplify "excellence with a personal touch".
- the Department of Social Sciences will maintain itself on the cutting edge of best practices as it relates to increasing the retention and graduation rates of their CJUS, POLS, SOCL, and SOCO students.
- the Department of Social Sciences will implement a recruitment strategy that will attract more students to major in CJUS, POLS, SOCL, or SOCO. This effort will be coordinated with the MSU Recruiting Office.

2020-2021:

With respect to this assessment, there are several benchmarks. The first benchmark is "**A persistence rate (retained students from Fall Y1 to Spring Y1) of 85%**". Based upon an examination of the 2020 data, the only SOSC Major that met this benchmark was CJSO/CJUS (85.3%). The other Majors (POLS, SOCL/SOCO) were very close to meeting the aforementioned benchmark (81.3% and 77.8% respectively).

As a collective number, the SOSC degree programs had a persistence rate of 83.1%. The second benchmark is "**A retention rate of 70% from Y1 to Y2**". An analysis of the 2019 data reveals that only POLS (83%) met the benchmark figure of 70%. The other majors had retention rates of 59.3% (CJSO /CJUS) and 57.1% (SOCL/SOCO). The total retention rate for all three major groups was 62.5%. The third benchmark is "**A retention rate of 55% from Y1 to Y3**". The empirical data from 2018 indicates that two of the three majors met the retention rate of 55% from Y1 to Y3 (POLS, 80.0% and SOCL/SOCO, 100%). The CJSO/CJUS major was close to meeting the benchmark with a 52.9% retention for Y1 to Y3. The collective percentage for all majors was 63.8%. The fourth benchmark is "**A retention rate of 45% from Y1 to Y4**". For this particular benchmark, the only major from the 2017 cohort that met the 45% retention rate was SOCL/SOCO (46.2%). The percentages for the other majors was 43.5% (CJSO/CJUS) and 33.3% (POLS). As a collective retention rate from Y1 to Y4, the total percentage was 43.9%. For reporting purposes, the PLEG percentages were not presented because that particular degree program was eliminated from our course offerings a few years ago. As it relates to the retention and graduation rates for the Department of Social Sciences, the plan for continuous improvement will consist of the following steps:

- effective advising and mentoring strategies will be utilized by departmental faculty members
- efforts will be undertaken to establish bonds with students by maintaining current student organizations and by broadening the scope of new student organizations for SOCL/SOCO and CJSO/CJUS students
- SOSC faculty advisors will assist the Admissions Office in recruiting outreach efforts.

In short, the retention and graduation rates for the degree programs in the Department of SOSC will only improve by embracing a call for excellence by all SOSC faculty.

2021-2022:

In terms of this assessment, there are several benchmarks. The first benchmark is "**A persistence rate (retained students from Fall Y1 to Spring Y1) of 85%**". An examination of the 2021 data reveals that SOCL/SOCO met the aforementioned benchmark (100% retained students from Fall Y1 to Spring Y1). The other degree programs (CJSO/CJUS & POLS) were very close to meeting the benchmark persistence rate of 85% (83.4% and 84% respectively). Collectively, the Department of SOSC exhibited an 86% persistence rate from Fall Y1 to Spring Y1.

The second benchmark is "**A retention rate of 70% from Y1 to Y2**". An analysis of the 2020 data indicates that CJSO/CJUS (73.5%) and SOCL/SOCO (77.8%) met the benchmark set for the retention rate from Y1 to Y2. On the other hand, the POLS degree program retention rate (50%) did not meet the benchmark figure of 70%. The total retention rate for all three degree programs was 67.8%.

The third benchmark is "**A retention rate of 55% from Y1 to Y3**". An examination of the empirical data from 2019 reveals that the only degree program that met the aforementioned benchmark was POLS (66.7%). The other degree programs, CJSO/CJUS and SOCL/SOCO, fell short of the benchmark with retention rates of 40.7% and 42.9%, respectively. Finally, the collective retention rates from Y1 to Y3 was 45%.

The fourth benchmark is "**A retention rate of 45% from Y1 to Y4**". For this particular benchmark, the 2018 cohort data was examined. Based upon analyzing and assessing the data, we found that two degree programs met the benchmark for a retention rate of 45% from Y1 to Y4: CJSO/CJUS (47.0%) and SOCL/SOCO (100%). Unfortunately, the POLS degree program did not meet the benchmark (40%). As a collective retention rate for Y1 to Y4, the total percentage was 53.1%.

An analysis of the preceding benchmarks for the collective whole reveals that the Department of SOSC met two of the four benchmarks (Benchmark 1 and Benchmark 4). The plan for continuous improvement for increasing the persistence and retention rates of students in the Department of SOSC will include the following:

- The newly hired Assistant Professor of POLS, Dr. Stefan Brooks, will be tasked with coordinating the POLS degree program. As Dr. Brooks coordinates this said program, he will be advising and mentoring the POLS students within the POLS degree program. This said role will include establishing relationships with POLS students before they are transferred to our Department by the Office of Freshman Advising and Retention.
- The Department of SOSC will focus on maintaining and enhancing the Pre-Law Society. Dr. Brooks will serve as the Faculty Advisor for this organization. Likewise, the newly hired CJUS Assistant Professor, Mr. Daniel Hennigan, and Dr. Gregory Clark will reestablish a Criminal Justice Society for CJUS students. The aforementioned efforts should elevate the persistence and retention numbers for the POLS and CJUS degree programs.
- The Department of SOSC will continue to play an active role in Academic Preview Days during the Fall, Spring, and Summer terms.

[Retention Rate](#) [DOCX 12 KB 2/18/20]

[Retention Rates for SOSC updated](#) [DOCX 36 KB 10/24/20]

Performance Objective 2 Promote excellence in teaching amongst faculty.

1 Assessment and Benchmark

Benchmark: 50% of the SOSC departmental faculty members will exceed the University SEI norm figure.

Prior to 2018-2019, the benchmark was 80%.

1.1 Data

Calendar Year	University SEI Average	Faculty that exceeded University SEI Average	
		#	%

2018	4.38	7/18	39%
------	------	------	-----

Academic Year	University SEI Average	Faculty that exceeded University SEI Average	
		#	%
2019-2020	4.41	10/17	59%
2020-2021	4.39	9/18	50%
2021-2022	4.52	9/17	53%

*Prior to 2018, the department SEI scores were for full-time faculty only.

Department of Social Sciences Analysis of Full-Time Department of SOSC faculty members SEI scores

5. The instructor encouraged me to be responsible for my learning.	—	4.49	4.51	4.61

1.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

The Department of SOSC SEI data for the current reporting period reveals that seven faculty members (44%) exceeded the University SEI norm figures, while nine faculty members (56%) failed to meet the SEI norm average numbers for the five university wide questions asked on the SEI. During the spring 2018 semester, the department head met with each departmental faculty member to discuss what steps need to be taken to increase their performance in the classroom, be it in an online environment or in a traditional classroom setting. During each meeting with his faculty members, the department head stressed the importance of the following:

- utilizing communication techniques which are clear and effective;
- providing feedback which is timely, consistent, and motivational;
- organizing the course in a way which connects with the students; and
- making sure that what you are covering in class matches the stated objectives as so listed on the syllabus.

In addition to emphasizing the above-stated best practices in the classroom, the department head presented a five-tier model for merit pay, which he describes as the S.C.O.R.E. model for APR consideration. Simply put, the top category is the Stellar Star, the second tier is the Captivating Champion, the third rank is the Outstanding Orchestrator, and the bottom two positions in this model are Realign, Revise, and Refocus and Embrace Enhancing Your Performance. The model is represented below. The movement to a five-tier model for APR purposes was done to satisfy the University-wide mandate for such a move. Based upon an evaluation of faculty performance for the 2017 academic year, four SOSC faculty members were considered Stellar Stars, four were designated as Captivating Champions, four individuals achieved the Outstanding Orchestrator designation, and two faculty members need to Realign, Revise, and Refocus. Finally, one departmental colleague needs to Embrace Enhancing His Performance. As the department head has stated on previous plans, if the faculty members in SOSC continue to maintain or embrace "excellence with a personal touch" by implementing best practices in the classroom setting (online or traditional), then there will be an increase in the overall SEI scores on future reporting periods. It takes a personal commitment to achieve excellence in your given discipline of study. This particular department head will work hand in hand with each faculty member to minimize their weaknesses while, at the same time, maximizing their strengths. In short, the Department of Social Sciences is transitioning into a model of excellence which will make McNeese State University the First Choice for residents in the greater Southwest Louisiana area.

2018-2019:

The Department of SOSC SEI data for the current reporting period reveals that seven faculty members (39%) exceeded the University SEI norm figures for the five questions included on the SEI scoring instrument, while 11 full-time faculty (61%) failed to meet or exceed the SEI norm average for the questions asked on the SEI. Based upon the aforementioned data, the department head has communicated to SOSC faculty members the importance of elevating individual performances within the classroom setting, be it in a traditional or online setting. As with the previous reporting period, the department head reiterated the importance of such practices as utilizing communication techniques that are clear and effective, providing feedback that is timely and consistent, organizing the course in a way that connects with the students, and

making sure that what is being covered in class matches the stated objectives as so listed on the syllabus. Using the S.C.O.R.E. APR ranking system as implemented during the last reporting period, the SOSC faculty fell into the following categories:

- Stellar Stars - Three faculty members
- Captivating Champions - Five faculty members
- Outstanding Orchestrators - Five faculty members
- Realign, Revise, Refocus - Four faculty members
- Embrace Enhancing Your Performance - Zero faculty members

The plan for continuous improvement will include the following goals:

- establishing a committee of peer reviewers to assess the quality of teaching for faculty whose SEI scores are below the departmental and University threshold for satisfactory reporting. In short, the process is intended to enhance the quality of teaching that is being provided by our faculty members, not to act as a punitive measure. With the input from the SOSC faculty members, the process and structure of peer review of teaching will be formulated; and
- reassessing the Department of Social Sciences APR scoring mechanism.

2019-2020:

The Department of SOSC SEI data for the current reporting period reveals that ten faculty members (59%) exceeded the University SEI norm figures for the five questions included on the SEI scoring instrument, while 7 full-time faculty (41%) failed to meet or exceed the SEI norm average for the questions asked on the SEI. Based upon the reported data, the benchmark of "50% of the SOSC departmental faculty members will exceed the University SEI norm figure" was met. In short, the goal of excellence in the classroom will continue to be a goal as the Department Head will emphasize to departmental faculty members the importance of such practices as utilizing communication techniques that are clear and effective, providing feedback that is timely and consistent, organizing the course in a way that connects with the students, and making sure that what is being covered in class matches the stated objectives as so listed on the syllabus. The aforementioned points must be a focal point as the vast majority of SOSC classes in the near future will be offered online because of the COVID pandemic.

Using the S.C.O.R.E. APR ranking system as implemented during a previous reporting period, the SOSC faculty fell into the following categories:

- Stellar Stars - One faculty member
- Captivating Champions - Two faculty members
- Outstanding Orchestrators - Ten faculty members
- Realign, Revise, Refocus - One faculty member
- Embrace Enhancing Your Performance - One faculty member

The plan for continuous improvement will include the following:

- During the Fall 2020 semester, a departmental APR subcommittee was established to reassess and to reformulate the Department of Social Sciences APR scoring mechanism. Dr. Butkus is the chair of the aforementioned committee. This committee will include the following individuals that represent the interests and concerns of their respective discipline: Dr. Carol Campbell (SOCL), Dr. Stephen Verrill (CJUS), Dr. Elijah Okhotnikov (FMSC), and Steven Rainey (GEOG).

2020-2021:

The Department of SOSC SEI data for the current reporting period reveals that eight full-time faculty members (53%) exceeded the University SEI norm figures for the five questions that are included on the SEI scoring instrument, while seven full-time SOSC professors failed to meet or exceed the SEI norm average for the questions asked on the SEI. It is also instructive to note that the questions used on this present SEI are different from the questions that were incorporated on previous SEI evaluation questionnaires. Based upon the reported data, the benchmark of "50% of the SOSC departmental faculty members will exceed the University SEI norm figure" was met. As we move forward as a Department of Social Sciences, the goal of excellence in the classroom will continue to be a goal for SOSC faculty members. Within the past couple of years, the shift to online classes has created a new teaching

environment for many of our faculty members. The majority of our SOSC faculty have adapted well to the shift to the online teaching environment by recognizing the importance of communicating in a clear and concise fashion, providing timely feedback, organizing their classes in a way that connects with their students, and making sure that what is covered in a class matches the stated objectives as so listed on the syllabus. Using the S.C.O.R.E. APR ranking system as implemented during a previous reporting period, the SOSC faculty fell into the following categories:

- Stellar Stars - One faculty member
- Captivating Champions - Two faculty members
- Outstanding Orchestrators - Eight faculty members
- Realign, Revise, Refocus - Two faculty members
- Embrace Enhancing Your Performance - One faculty member

The plan for continuous improvement will include having regular APR subcommittee meetings to reassess and to reformulate the Department of Social Sciences APR scoring mechanism. The APR subcommittee was established during the last reporting period, but has not had the opportunity to meet because of the COVID pandemic and Hurricanes Laura and Delta.

2021-2022:

An analysis of the SEI data for the Department of Social Sciences reveals that nine out of fifteen full-time faculty members (60%) exceeded the University SEI norm figures for the five questions that are included on the SEI scoring instrument. Based upon the assessment of the data, the benchmark of "50% of the SOSC departmental faculty members will exceed the University SEI norm figure" was met. The faculty members within the Department of SOSC will continue to be committed to embracing excellence in the traditional and online classroom settings. An assessment of the data shows an overall improvement of SOSC faculty SEI scores from previous reporting periods. The plan for continuous improvement will once again focus on emphasizing to SOSC faculty members the best teaching practices (i.e., communicating with your students; providing feedback; alignment of class with syllabus; etc.).

Using the S.C.O.R.E. APR ranking system as implemented during a previous reporting period, the SOSC faculty fell into the following categories:

- Stellar Stars - one faculty member
- Captivating Champions - two faculty members
- Outstanding Orchestrators - six faculty members
- Realign, Revise, Refocus - three faculty members
- Embrace Enhancing Your Performance - zero faculty members

The plan for continuous improvement will include establishing an APR subcommittee to reassess and to reevaluate the APR scoring mechanism that is used in the Department of SOSC. During the present reporting period, the subcommittee had just one meeting that was not very fruitful. With the addition of two new faculty members (POLS & CJUS), it is anticipated that these individuals will serve on the APR subcommittee and will become key contributors to the revision of the APR document.

2 Assessment and Benchmark

Assessment: Faculty's professional participation:

- Presentations
- Publications
- Consulting

Benchmark: 70% of the SOSC full-time faculty members will have at least one professional presentation, one publication, or one consulting activity.

2.1 Data

2017-2018:

Based upon an examination of APR data, the following represents the accomplishments of the Department of SOSC faculty members for this present reporting period:

- Steven Rainey - CLAG New Orleans, Paper Presented; Catena manuscript review (peer reviewer).
- Matt Butkus - two book chapters & ALFS report.
- Rathnam Indurthy - published an article entitled, "The Indo-Pak Recurring Wars and Crisis Over Kashmir: Discussion, and Explanations, 1947-Present".
- Muhammad Haque - two paper presentations at professional conference.
- Stan Weeber - two journal articles or book chapters; review of *Can Everybody Swim? A Survival Story from Katrina's Superdome. Arkansas Review, Volume 48 (3), 2017, pp. 228- 230.*
- Steve Thompson - two Louisiana Sage Presentations; Louisiana Highway Safety Keynote Speaker research presentation.
- Todd Furman - published book entitled, " *The Ethics of Poker*"; published peer reviewed journal article in *The Psychological Record*; had published an invited article in a Nonrefereed Trade Journal.
- Henry Sirgo - presented to the State and Electoral Politics Panel; Discussant, Politics and Policy in the American States Session; Chair/Discussant, Constitutionalism in Theory and Reality Session.
- Gregory Clark - published a book entitled, "A Faith-Based Approach to Transforming Your Mind- Set, It is a Happy Day, Positive affirmations that will transform your mind, body, and soul".

2018-2019:

Based upon an examination of APR data, the following represents the accomplishments of the Department of SOSC faculty members for this present reporting period:

- Todd Furman-published *Critical Thinking & Logic (2nd Edition)*; editorial review board for *Teaching Philosophy*.
- Matt Butkus-published "Moral Expertise in Medical Ethics". *Moral Expertise: New Essays from Theoretical and Clinical Bioethics* (eds. Jamie Watson and Laura Guidry-Grimes). Springer, 2018. Presented "Neuroscience and Ethical Decision-Making in Artificial Agents"--Illinois Institute of Technology (Chicago, IL), May 11, 2018; Presented "Higher Education as a Public Good"--University of Louisiana 2019 Conference at Lafayette, LA. (February 2019).
- Stan Weeber-published ten journal articles or book chapters.
- Muhammad Haque-published one research excerpt and presented at one conference.
- David Armstrong-was the presenter of training seminars for concealed gun purposes.
- Steve Thompson-teaches at the Police Academy.
- Carol Campbell-presented a paper at the Louisiana School-Based Health Alliance, April 2019; participated in four panel discussions at the Connections Count Conference, February 7-9, 2019.
- Elijah Okhotnikov-presented papers at two national conferences: NCFR & RRA.

2019-2020:

Based upon an examination of the APR data, the following represents the accomplishments of the Department of SOSC faculty members for this present reporting period:

- **Todd Furman**--Work in Progress, *Good Shoot, Bad Shoot?: A Legal and Ethical Analysis of Shootings by Law Enforcement*; Editorial Review Board Member for *Teaching Philosophy*
- **Elijah Okhotnikov**--Published an article in a leading peer-reviewed Journal in the field of Family Science: " *Adaptation of the Couples Satisfaction Index into Russian*", *Contemporary Family Therapy*, 1-12 (2019); Presented paper at RRA/SSSR national level conference & poster at NCFR national level conference
- **Joey Tuminello**--Published an article in *Sofia Philosophical Review* entitled, " *Dichotomous Food-Drug Interpretations in Nutritional Science and Western Medicine*"; Short journal book review entitled, " *Review of a Geography of Digestion: Biotechnology and the Kellogg Cereal Enterprise by Nicholas Bauch*"; Attended two professional conferences (Society for the Advancement of American Philosophy 47th Annual Conference in Detroit, MI; Society for the Advancement of American Philosophy 47th Annual Conference in San Miguel de Allende, Guanajuato, Mexico).
- **Steve Thompson**--teaches at the Police Academy
- **Steve Verrill**--awarded Shearman Professorship in Liberal Arts, "Supporting internships and speaker series for Criminal Justice students"; funds awarded \$25,000

- **Diane Verrill**--awarded Juliet Hardtner Women in Arts and Humanities Professorship #3, "Supporting internships and conference room upgrade"; funds awarded \$15,000
- **Matthew Butkus**--awarded JP Morgan Chase Bank Professorship, "Integrative Neuroethics Research (3rd of 3 years); funds awarded \$12,000
- **Gregory Clark**--awarded two endowed professorships: Mr. & Mrs. William D. Blake Endowed Professorship--Criminal Justice, "Equipment and Material Support for the Criminal Justice Program"; funds awarded \$7,000; Murphy/Leaton Professorship in Teaching Excellence, "Travel Fund and Equipment Support for Teaching Excellence in the Department of Social Sciences"; funds awarded \$7,000.
- **Muhammad Hague**--published the following article: K. R. Khan, M. M. Haque, A. Alshemary and A. AbouArkoub, "BLDC Motor-Driven Fluid Pumping System Design: An Extrapolated Active Learning Case Study for Electrical Machines Classes," in *IEEE Transactions on Education*, vol. 63, no. 3, pp. 173-182, Aug. 2020, doi: 10.1109/TE.2020.2965817.
- **Carol Campbell**--attended six scholarly/professional meetings; organizer of a conference; attended seven training seminars, institutes, and educational courses; and was a presenter of training for certification of practitioners and training seminars.
- **Stan Weeber**--published short essays in R. Lawson (Ed.) *Race and Ethnicity in America: From Pre-Contact to the Present* (2019). The essays were "Ku Klux Klan Resurgence in the 1920s" (pp. 126-128); "Occupy Movement" (pp. 199-200); "Jena Six" (pp. 143-144); and "Port Huron Statement" (pp. 197-198). Published a longer book chapter in *Social Policy on the Cusp: Values, Institutions and Change*, entitled "Smart Cities, Resilience and the 5G Revolution".

2020-2021:

Based upon an examination of the APR data, the following represents the accomplishments of the Department of SOSC faculty members for this present reporting period:

- **Steve Thompson**--teaches at the Police Academy and provides consulting to outside law enforcement agencies
- **Steve Verrill**--awarded the following endowed professorship: Mr. and Mrs. William D. Blake Endowed Professorship in Criminal Justice, Title of Project: Programmed Instruction Criminal Justice Tutorials EP#61; Dissertation Manuscript professional assistance with original contribution across time (15 times); attended the following training seminars, institutes, educational courses: (a) Basic First Aid for Medical Emergencies (2021) TAMUC; (b) CITI IRB Basic Course Refresher (2021) Capella University; (c) Accommodating Students with Disabilities (2021) TAMUC; (d) Steps to Make a PowerPoint Presentation Accessible (2021) TAMUC; (e) Clery Act Guidelines (2021) TAMUC; (f) Certification for System Member Employees (2021) TAMUC; (g) How to Survive Your (Hurried) Switch to Online Delivery (2020) OLC; (h) Effective Facilitation of Online Discussions with Students (2020) OLC; (i) Emergency Alert System Notification (2020) TAMUC; (j) Information Security Awareness (2020) TAMUC; (k) Accessibility for Electronic Information Resources (2020) TAMUC; (l) Certification for System Member Employees (2020) TAMUC; (m) Safe Practices During the COVID-19 Pandemic (2020) TAMUC; (n) Clery Act Guidelines (2020) TAMUC; (o) FERPA for Higher Education (2020) Walden University; (p) Introducing Go Programming Language (2021) Walden University
- **Joey Tuminello**--published the following article: "Hermeneutics of Food and Drug Regulatory Policy," *Humana.Mente Journal of Philosophical Studies*, Vol. 13, No. 38 (2020): 255- 280.; holds membership in the following scholarly or professional organizations: Oxford Centre for Animal Ethics (Fellow); International Society for Environmental Ethics; International Association for Environmental Philosophy; Society for the Advancement of American Philosophy; American Philosophical Association; American Association of Philosophy Teachers; Animals & Society Institute; Public Philosophy Network (Founding Member); Society for Indian Philosophy and Religion; North Texas Philosophical Association; Editorial Reviewer for *Academia Letters*
- **Stan Weeber**--had the following paper published in a nonrefereed trade journal: Georg Simmel and Governmental Secrecy: The Case of MK ULTRA/DELTA, *Southeastern Social Science Journal* 10: 94-96, 2020 (published in April 2021); had the following chapter incorporated in a non-peer reviewed book: Increasing Natural Disasters and Cities. In B. McNicol (Ed.), *Sustainable Planet, Issues and Solutions for Our Environment's Future*. Santa Barbara: ABC-Clio, April 2021. Had the following reprint of articles unrevised: review of Bruce Snow, Can Everyone Swim, reprinted in *Et Alia Press Voices* (blog), February 2018 (reprint discovered 2021); Notes of resistance to Green Grabbing, reprinted in *CORE*

- Archive, United Kingdom; Review of Derek Penslar, Michael Marrus and Janice Gross Stein, Contemporary Antisemitism, reprinted in Gale Academic OneFile; Review of Christine Hale, The Chinese Continuum of Self Cultivation, reprinted in Gale Academic OneFile; Antiwar Protest Surveillance, 1960s, reprinted in Credo Reference; Elite Versus Mass Sociology, reprinted in Springer Link; Innovation in Austere Times, reprinted in Social Science Research Network; Evaluation of a Peer and School Based Anti-Smoking Program, reprinted in JStor; Had the following short journal book reviews: Review of William O'Rourke, Politics and the American Language (Welcome Rain Publishers, New York, 2020), Arkansas Review, April 2021; Review of Lonny Meinecke, "The Psychologist, St. George and the Dragon," Academic Letters, March 24, 2021; holds membership in the following scholarly and professional organizations: Mid-South Sociological Association, and the Southern Sociological Society; Editor for the following scholarly and professional journal or magazine: Chief Editor, Journal of Society, Education and Behavioral Science, 2020-21; Editor, Asian Journal of Arts, Humanities and Social Studies, 2020-21; Editor, Journal of Global Research in Education and Social Sciences, 2020-21; Reviewer for the following scholarly and professional journal or magazine: Reviewer, Journal of Educational Controversy, 2020-21; Reviewer, Journal of Global Research in Education and Social Sciences, 2020-21; Reviewer, Advances in Applied Sociology, 2020-21; Attended or took the following training seminars: 21st Century Social Movements, McGraw-Hill, April 2021; Dynamic Learning Activities for Diverse Learners, ULS Bridging the Divide, August 2020 (9 day event); Remote 2020, Arizona State University, July 2020; Virtual Education Summit, Course Hero, July 2020.
- **Muhammad Haque**--published the following article: Khan, Kaisar R, Muhammad M. Haque, Ashraf Alshemary, and Ahmed AbouArkoub. 2020. BLDC Motor-Driven Fluid Pumping System Design: An Extrapolated Active Learning Case Study for Electrical Machines Classes. The International Journal of Electrical Engineering & Education; Made the following presentations: Socio-infrastructure Transformation, Emergence of Millennials and Socio-ethical Implications (with Morgan Preston, Cristo Y. Parez Ross and Saydee E. Meaux), the 2021 annual meeting of the Southwestern Social Science Association, April 15, 2021, New Orleans, Louisiana; and Socio-infrastructure Transformation, Emergence of Millennials and Pedagogical Implications (with Morgan Preston, Cristo Y. Parez Ross and Saydee E. Meaux), the 2020 annual meeting of the Association for Applied and Clinical Sociology, October 6, 2020, Atlanta, Georgia.
 - **Diane Verrill**--presented the following papers: "Food Incubators: A Survey of the Industry." authors: Phillips, R., Verrill, D., Kraeger, P. and Weir, J. • Presenting at the International Conference of the Community Development Society (CDS) in July 2021; and "Generating Social Enterprise in Local Food Systems: A Survey of Food Incubator" authors: Phillips, R., Verrill, D. & Kraeger, P.; Awarded the following endowed professorship: William McLeod Professorship, Title of Project: Civic Engagement EP#80 • Presenting at the International Society for Quality-of-Life Studies (ISQOLS) conference in August 2021; attended the following virtual events: ASPA 2020 Digital Experience Conference (Virtual) - 12/14/20 and 12/15/20 • Access to the Ballot Box: A Vision of American Democracy at Its Best – ½ day • Counting Everyone: The 2020 Census – ½ day • Current Structural Challenges to the American System of Government – ½ day • Retrospect and Prospect of Truth and Integrity in State Budgeting – ½ day; Southern Political Science Association 2021 Annual Meeting (Virtual) – 1/6/21 -1/9/21 • Electoral Politics/Electoral Politics - ½ day • International Politics: Conflict and Security/International Politics: Conflict and Security – ½ day • Comparative Politics: Political Behavior/Comparative Politics: Political Behavior – ½ day • Presidential/Executive Politics/Presidential /Executive Politics – ½ day; State Politics/State Politics (Online) – ½ day • Legislative Politics /Legislative Politics (Online) – ½ day • American Political Development/American Political Development (Online) – ½ day; Gulf-South Summit on Service-Learning and Civic Engagement through Higher Education (Virtual) – 3/15/21-3/17/21 • Building Bridges Rather Than Silos: A Panel Discussion of the Multi-Disciplinary Approach to Service-Learning at the University of Arkansas – ½ day • Collaborative Student Leadership in Civic Engagement -½ day • Instructional Approaches to Facilitate ServiceLearning into an Existing Undergraduate Curriculum – ½ day • Community Development through Higher Ed Partnerships – ½ day; American Society for Public Administration-GA (ASPAGA) (Virtual) - 3/26/21 and 3/27/21 • Challenges in Education Finances – ½ day • Public Finance and Revenue -½ day • Understanding Fiscal Health – ½ day • Issues in Local Governance – ½ day
 - **Todd Furman**--Work in Progress, *Good Shoot, Bad Shoot?: A Legal and Ethical Analysis of Shootings by Law Enforcement*; Editorial Review Board Member for *Teaching Philosophy*.

- **Gregory Clark**--Awarded the following endowed professorship: Murphy/Leaton Professorship in Teaching Excellence, Title of Project: Travel Fund and Equipment Support for Teaching Excellence in the Department of Social Sciences EP#56.
- **Matthew Butkus**--Awarded the following endowed professorships: JP Morgan Chase Professorship, Title of Project: Integrated Neuroethics Research EP #28; and Matthew Butkus & Joey Tuminello, ATT Professorship, Title of Project: Healthcare Ethics Consultant Certification EP #36.
- **Steven Rainey**--Awarded the following endowed professorship: Juliet Hardtner Women in Arts and Humanities #6, Title of Project: Assessing the Potential for Using Georeferenced Google Earth Images to Compare Riverbank Migration Rates, EP #102.
- **Ilya Okhotnikov**--Peer reviewed publication: Okhotnikov, I. A., & Myers, A. W., (2020 Summer). Moral injury and the military family. CFLE Network: Supporting Military and Veteran Families. NCFR. <https://www.ncfr.org/cfle-network/summer-2020-military-veterans/moral-injury-and-military-family>. Presentations included the following: Okhotnikov, I. A., & Wood, N. D. (2020, November 11). Russian couple's satisfaction: religiosity, equality, and virtues [Interactive paper presentation]. 2020 National Council on Family Relations Annual Conference, St. Louis, MO, United States; and Okhotnikov, I. A. (2021, March 30). The practice of inclusive education in the U.S. State Universities. [PaperPresentation]. Digitalization of Engineering Education; AnInternational Online Conference, Kalashnikov Izhevsk StateTechnical University, Izhevsk, Russia. <http://distant.istu.ru/conf/>
- **Carol Campbell**--attended numerous social work virtual educational conferences or events.

2021-2022:

An assessment of the APR data for the 2021-2022 reporting period reveals the following accomplishments for the full-time faculty members within the Department of Social Sciences:

- **Steven Rainey**—Attended a Conference of Latin American Geographers (Virtual Conference);
- **Todd Furman**—Paper presentation: Gettier-Guns & The Use of Lethal Force by Law Enforcement Officers, 72nd Northwest Philosophy Conference, Portland State University; Panel Discussant for Humble Provocateurs by Dr. Derick Hughes, 72nd Northwest Philosophy Conference; Panel Discussant for Divinity and Moral Normativity by Dr. Majid Amini, 72nd Northwest Philosophy Conference; Editorial Reviewer for Teaching Philosophy; Grant Award: AT&T Endowed Professorship;
- **Steve Thompson**—teaches at the Police Academy and provides consulting to outside law enforcement agencies;
- **Muhammad Haque**—Two papers presented at a professional conference; currently working on three articles;
- **David Armstrong**—completed two courses for certification as a storm spotter for the National Weather Service SKYWARN system;
- **Matthew Butkus**—attended Association of Louisiana Faculty Senate meetings in Alexandria, LA (two times); 400 clinical hours completed for Healthcare Ethics Consultation Certification (HEC-C) at Memorial Hospital (100 half-days); awarded an Endowed Professorship;
- **Elijah Okhotnikov**---paper published in refereed scientific journal; attended three conferences; three papers presented at conferences; reviewer for four scholarly/professional journals; Awarded the Shearman Family Professorship in Liberal Arts Endowed Professorship;
- **Janeal White**---attended four conferences; presented two papers at the NCFR conference; active in scholarly/professional organizations (i.e., NCFR Family Policy Section Student New Professional Rep; NCFR Mentoring Academy Steering Committee; TxCFR MENTORorganization Chair; TxCFR Annual Conference Proposal Reviewer; J Family Theory & Review Digital Scholarship Board); Awarded Juliet Hardtner Women in Arts & Humanities Endowed Professorship;
- **Joey Tuminello**---attended a workshop on Paul B. Thompson's *From Silo to Spoon*, December 17-18, 2021; presented a paper, "Pollution as a Moral Problem", at the Workshop on Paul B. Thompson's *From Silo to Spoon*; paper accepted for presentation but presented by a joint author at the American Association of Geographers 2022 Annual Meeting (virtual), on February, 25, 2022; Editorial Review for *Academia Letters* (x3) and *East Asian Journal of Philosophy*; four invited papers of a local or branch nature;
- **Carol Campbell**---attended six virtual meetings of a scholarly/professional sort; attended six training seminars;
- **Stan Weeber**---published a textbook, *Extremism in the United States*; two papers published in nonrefereed trade journals: "Legitimation Crisis: What We Learned from the U.S. College Football

Playoff Controversy (2003-2014)", *International Journal of Arts, Humanities and Social Sciences* 3 (3): 10-20, 2022; "On the 50th Anniversary of the Watergate Break-In", *Southeastern Social Science Journal* 11: 97-99, 2021 (published In March 2022); two chapters in non-peer reviewed books; three short journal book reviews; editor or reviewer for six scholarly/professional journals;

- **Gregory Clark**---awarded two endowed professorships: Mr. and Mrs. William D. Blake Endowed Professorship in Criminal Justice and the Murphy/Leaton Professorship in Teaching Excellence.

The faculty accomplishments for Dr. Diane Verrill and Dr. Steve Verrill are not included in the preceding assessment because they resigned from their academic appointments during the reporting period.

2.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

An evaluation of APR data reveals that approximately 50% of SOSC faculty members were involved in professional activities, either in the form of writing journal articles/books or attending professional conferences or seminars. Furthermore, the extent of faculty involvement in the aforementioned professional activities appears to be an improvement upon the number of faculty members who were pursuing similar activities during the 2016-2017 academic year.

2018-2019:

Based upon the examination of APR data, it was found that approximately 50% of faculty members in the Department of SOSC are involved in professional activities, either in the form of attending and/or presenting at professional conferences or publishing articles and/or books. Likewise, the percent figure is similar to the previous reporting period.

Given the results of this reporting period as compared with the findings of previous reports, the plan for continuous improvement will include establishing an assessment benchmark figure that is centered on the following: 70% of full-time faculty members in the Department of SOSC will achieve the goal of publishing an article or presenting a paper at a professional conference.

In an effort for the aforementioned goal to be achieved, the department head will encourage SOSC faculty members to use endowed professorship travel funds to attend and to present papers at professional conferences. Furthermore, special attention will be paid to reinforcing faculty members efforts to publish professional articles/essays/books.

2019-2020:

An analysis of the data reveals that eleven out of seventeen SOSC faculty members (65%) have been involved in professional activities, either in the form of attending and/or presenting at professional conferences or publishing articles and/or books. In addition, several faculty members have been awarded Endowed Professorships. In comparing the data from this reporting period to the preceding periods, it is found that there has been a 15% increase of faculty involvement in the aforementioned professional activities. This increase is a positive movement considering the impact of COVID-19 during the reporting period. The plan for continuous improvement will include analyzing the relationship between the impact of Hurricane Laura and Hurricane Delta on the professional productivity of faculty members in the Department of Social Sciences. To minimize the aforementioned impact, the Department Head will encourage faculty members to utilize delegated Endowed Professorship Funds to facilitate and to enrich their involvement in professional endeavors.

2020-2021:

During the 2020-2021 reporting, 12 out of the 15 full-time SOSC faculty members (80%) were very active in either presenting at professional conferences, publishing articles, and providing consulting to outside agencies. In this particular vein, four SOSC faculty had articles published in either a peer-reviewed or non-referred journal. Likewise, six SOSC professors were awarded COLA or SOSC related Endowed Professorships. Finally, four SOSC individuals were presented papers at professional conferences, either in person or in a virtual way. In short, the benchmark figure for this assessment, "70% of the SOSC full-time faculty members will have at least one professional presentation, one publication, or one consulting activity", was met. When you compare the results of this assessment with the results from the 2019-2020 reporting period, it is instructive to note that there was a 15% increase in the number of SOSC faculty that

were active in presenting at professional conferences, publishing articles, and providing consulting to outside agencies. Given the COVID-19 pandemic and impact of Hurricanes Laura and Delta, the Department of SOSC faculty are doing an impressive job of pursuing professional excellence in turbulent times. The plan for continuous improvement will focus on using Endowed Professorship funds to support and to enhance the professional activities of the faculty members of the Department of SOSC.

2021-2022:

An assessment of the empirical data from the current reporting period reveals that the majority of the full-time SOSC faculty (12 out of 15 faculty members; 80%) were involved in presenting at professional conferences, publishing articles, and providing consulting services to outside agencies. Furthermore, three SOSC faculty individuals had either a book or an article published in a peer-reviewed or non-refereed journal. In a similar vein, six SOSC professors were awarded COLA or SOSC related Endowed Professorships. Finally, five SOSC faculty presented papers at professional conferences, either in person or in a virtual way. In short, the benchmark figure for this assessment, "70% of the SOSC full-time faculty members will have at least one professional presentation, one publication, or one consulting activity", was met. The empirical results from this reporting period are very similar to the assessment results from the 2020-2021 reporting period. The plan for continuous improvement will center on encouraging faculty members to utilize the travel funds from one of the departmental EP's to attend and to present at professional conferences.

Performance Objective 3 Promote professionalism amongst students.

1 Assessment and Benchmark

Benchmark: Departmental faculty are encouraged to mentor selected students for various research and writing competitions or academic conferences.

1.1 Data

Academic Year	# of students that presented papers at conferences	# of students that won awards for presentations	# of faculty mentors
2013-2014	2	2	1
2014-2015	—	—	—
2015-2016	3	3	1
2016-2017	3	1	1
2017-2018	1	0	2
2018-2019	1	0	1
2019-2020	0	0	0
2020-2021	0	0	0
2021-2022	1	0	1

1.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Within this reporting period, the Department of Social Sciences had two examples of mentoring which illustrates the commitment to promoting professionalism among students:

After graduating from our M.S. in CJUS program in December 2017, April Ben was chosen by our department to teach a CJUS 241 class during the spring 2018 semester. Dr. Steve Thompson, a CJUS professor, assisted and mentored Ms. Ben with the transition from being a graduate student to becoming an adjunct instructor in our Department of SOSC. It is anticipated that Ms. Ben will continue to teach for our department in an adjunct capacity, and will continue to be mentored by Dr. Thompson and other CJUS faculty members. During future reporting periods, it is anticipated that the department will identify other qualified M.S. in CJUS graduates who have the wisdom, knowledge, and motivation to teach undergraduate CJUS courses in our department.

Dr. Henry Sirgo, a POLS professor, continues to provide the mentoring and tutelage for students who are

actively involved in pursuing degrees beyond the B.A. in POLS. In this particular vein, Collier Litel, a current POLS student, presented a paper at the Louisiana Academic Summit at UNO this spring 2018 semester. Likewise, Litel also presented a paper at the Louisiana Political Science Association meeting at Pineville on March 17, 2018. On a side note, Joseph Dronet, a POLS student who was selected as a McLeod Endowed Scholar during the 2016-2017 reporting period, was admitted to LSU Law School during the present reporting period. The above-stated examples illustrate how the mentoring of students can impact the lives of the given student, as well as the faculty member. The department head will continue to encourage all faculty members to embrace "excellence with a personal touch" when it comes to mentoring the students in their respective disciplines. Indeed, this is our mission as faculty members at McNeese State University.

2018-2019:

During his last year of teaching at McNeese, Dr. Henry Sirgo mentored a number of POLS students in the Pre-Law Society and in his classes. In particular, Dr. Sirgo made a concerted effort to encourage students to attend professional conferences with him. The analysis of data reveals that Dr. Sirgo was instrumental in his role as mentor in taking one student with him to a professional conference. In addition, Dr. Gregory Clark was specifically asked by the parents of a freshman student-athlete to mentor their daughter. This request was made after Dr. Clark presented at the 2018 Fall Preview Day. The plan for continuous improvement will include an outreach initiative to SOSC faculty to track their efforts at mentoring MSU students.

2019-2020:

Dr. Clark continues to mentor Mariah Lee, a CJUS student-athlete. In addition, Dr. Diane Verrill acted as a mentor to two POLS students, Alexys Peron and Alexandra Williams. These two POLS science students were selected by Senator Bill Cassidy for an legislative internship experience in Washington, DC.

2020-2021:

During the 2020-2021 reporting period, we did not accomplish our goal of mentoring selected students for various research and writing competitions or academic conferences. The failure to meet our benchmark is a function of the pandemic (i.e., classes were not held in a traditional way; travel to professional conferences was limited because of COVID-19; students were unable to develop mentoring ties with faculty members because of being displaced; etc.).

2021-2022:

As it relates to this reporting period, Dr. Okhotnikov was mentoring an undergraduate student between Fall 2021 and Spring 2022 to write a proposal and submit it (by March 1, 2022) for peer review to present at a national-level(! as an undergraduate student!) premiere professional association's conference (in November 2022). Although the actual presentation will take place in November 2022, the process of mentoring was going on during the academic year 2021-2022.

Student's Name: Angelika Salazar, Senior Student, B.A. in Sociology, Major Concentration in Family Science.

The proposal Title: "In Light and Shadow of Moral Injury, PTSD, and Mental Health," submission #331, has been accepted as a Poster in the Families and Health (FH) Section, to be presented in person during the 2022 National Council on Family Relations Annual Conference on November 16, 2022.

Dr. Okhotnikov received the acceptance email on May 20, 2022, from no-reply@oxfordabstracts.com.

The plan for continuous improvement will include a directive that focuses on encouraging SOSC faculty to mentor and to support student involvement in presenting papers at professional conferences (local, state, or regional).

[Academic Summit 2018](#) [JPG 2,199 KB 2/18/20]

2 Assessment and Benchmark

Benchmark: Promote involvement in professional student organizations.

2.1 Data

2017-2018:

An assessment of departmental student organizational data reveals that there are still three student organizations which are affiliated with the Department of Social Sciences: Pre-Law and Politics Society; Pi Sigma Alpha Honor Society; and the Philosophy Club. As with previous reporting periods, these organizations host activities which involve guest speakers from the local community.

2018-2019:

The Department of Social Sciences still maintains three student organizations: Pre-Law and Politics Society; Pi Sigma Alpha Honor Society; and the Philosophy Club. These student organizations are primarily involved with hosting events that involve guest speakers from the local community.

2019-2020:

During the current reporting period, the Department of Social Sciences still maintains three student organizations: Pre-Law and Politics Society; Pi Sigma Alpha Honor Society; and the Philosophy Club. These student organizations still strive to host events that involve guest speakers from the local community. However, it is important to note that during the Spring 2020 semester that these events were placed on hold because of the COVID-19 pandemic.

2020-2021:

The Department of Social Sciences has three student organizations: Pre-Law and Politics Society; Pi Sigma Alpha Honor Society; and the Philosophy Club. However, during the 2020-2021 reporting period, these aforementioned organizations were dormant due to the pandemic and hurricanes.

2021-2022:

Formally, the Department of SOSC still has three student organizations: Pre-Law and Politics Society; Pi Sigma Alpha Honor Society; and the Philosophy Club. During the 2021-2022 reporting period, the only student organization that was active was the POLS Pre-Law and Politics Society. This said organization met on a regular basis and was led by their faculty advisor, Dr. Diane Verrill. In March of 2022, Dr. Verrill left McNeese for another job opportunity. After the departure of Dr. Verrill, the Pre-Law and Politics Society was able to organize a Mock Trial that was held at one of the courtrooms in the 14th Judicial District Courthouse. This student-led event was a success.

2.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

During this current reporting period, there are still three student organizations in the Department of Social Sciences. Based upon an examination of the three organizations (i.e. Pre-Law and Politics Society, Pi Sigma Alpha Honor Society, and the Philosophy Club), it appears that the membership numbers are approximately the same as previous reporting periods. Likewise, it appears that most events hosted by these aforementioned groups include guest speakers from the local community. The department will continue to monitor the membership numbers of these said groups and will encourage other social sciences disciplines, in particular Criminal Justice and Sociology, to actively pursue establishing discipline specific organizations or honor societies.

2018-2019:

The three student organizations in the Department of Social Sciences have membership numbers ranging from 10-15 individuals. The student involvement in these SOSC organizations have been consistent over the last three reporting periods. The plan for continuous improvement will include a movement to establish and to organize both a CJUS and SOCL-based student organization. In a similar vein, a Family Science student organization should prove to be a fruitful plan. Given the number of student majors in CJUS and SOCL, our Department should be able to improve upon the number of SOSC students that are affiliated with student organizations.

2019-2020:

During the current reporting period, the previous plan for continuous improvement was hampered because of the COVID-19 pandemic. When the concerns related to COVID-19 and the damages caused to the MSU campus by Hurricane Laura diminish or are minimized, the Department of Social Sciences will move to create and sustain a student-based organization for CJUS and SOCL/FMST students.

2020-2021:

During the current reporting period, the previous plan for continuous improvement did not materialize because of the COVID-19 pandemic and damages caused to the MSU campus by Hurricanes Laura and Delta. Likewise, classes were held online which impacted the movement to create and sustain not only the organizations that we currently have in the Department, but also organizations that can be created for CJUS and SOCL/FMST students. In the next reporting period, we will embrace the calling to promote involvement in professional student organizations.

2021-2022:

The plan for continuous improvement calls for a concerted effort by the SOSC department head to install a proactive plan that will elevate the commitment of SOSC faculty members to become mentors for students in the student organizations that exist within our Department. Granted, the COVID-19 pandemic and weather events (hurricanes) have crippled the efforts in recent years to sustain and grow the three formal organizations that we have in the SOSC department. In short, by moving to embrace the aforementioned strategy for improvement, there will be positive changes in future reporting periods.

Performance Objective 4 Utilize funds effectively to positively impact the community.

1 Assessment and Benchmark

Benchmark: 25% of full-time faculty members will receive endowed professorships.

1.1 Data

Academic Year	Full-time faculty that received endowed professorships	
	#	%
2013-2014	3	—
2014-2015	—	—
2015-2016	3	—
2016-2017	5	—
2017-2018	4	—
2018-2019	4	25%
2019-2020	4/16	25%
2020-2021	6/15	40%
2021-2022	6/15	40%

[2016-2017 Endowed Professorships](#) [PDF 142 KB 2/18/20]

[Department of SOSC Endowed Professorships for 2020-2021](#) [PDF 197 KB 7/24/21]

[Department of SOSC Endowed Professorships for 2021-2022](#) [PDF 259 KB 7/6/22]

1.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Departmental faculty are continuing to take steps to pursue endowed professorships and other sources of support when those outlets are available. With that being said, the Department of Social Sciences had four faculty members awarded endowed professorships during the 2017-2018 reporting period. These faculty members have demonstrated their commitment to pursuing excellence in their respective fields of academic interest. In short, the achievements of these said faculty should inspire other departmental colleagues to apply for similar endowed professorships in the academic years to come.

2018-2019:

For the reporting period of 2018-19, four faculty members were awarded a total of five endowed professorships. The aforementioned figure represents approximately 25% of the faculty members in the Department of Social Sciences. The plan for continuous improvement includes a concerted effort to encourage our SOSC faculty to apply for not only Departmental endowed professorships, but also those endowed professorships that are open to any faculty member within the College of Liberal Arts. By moving toward this end of the continuum, the overall percent of SOSC faculty receiving should increase in future reporting periods.

2019-2020:

For the reporting period of 2019-20, four faculty members were awarded a total of five endowed professorships. As is evidenced in the chart, the data represents the same percentages as the 2018-19 reporting period (4/16 faculty members or 25% of the Department of SOSC that received Endowed Professorships). The plan for continuous improvement will center on a campaign to foster a faculty interest in pursuing the Endowed Professorship opportunities that exist within the College of Liberal Arts and within the Department of Social Sciences. When this campaign is successful, it is anticipated that there will be a slight increase in the number of departmental faculty members that are awarded an Endowed Professorship.

2020-2021:

For the reporting year of 2020-21, six faculty members were awarded a total of six endowed professorships. As indicated in the chart, the data shows that 40% of the full-time faculty members in the Department of Social Sciences were awarded an endowed professorship. This said finding shows a 15% increase from previous reporting periods. In short, the benchmark for this assessment was met. The plan for continuous improvement will embrace a concerted effort to cultivate a faculty interest in applying for future Endowed Professorships that are designated for the College of Liberal Arts and for the Department of Social Sciences.

2021-2022:

During the 2021-2022 reporting period, six full-time SOSC faculty members were awarded seven endowed professorships. As evidenced in the chart, the data reveals that 40% of the full-time faculty members in the Department of SOSC were awarded an endowed professorship. This finding is the same as the 2020-2021 reporting period. The benchmark was once again met. The plan for continuous improvement will seek to foster an approach that inspires SOSC faculty to apply for future Endowed Professorships that are affiliated with either the Department of SOSC or the College of Liberal Arts.

2 Assessment and Benchmark

Benchmark: The department actively applies for TASC and Gaming grants when available to purchase select technology.

2.1 Data

2017-2018:

The number of shared "smart rooms" for the Department of SOSC has increased from one to three.

2018-2019:

The number of dedicated "smart rooms" for the Department of SOSC stands at five. Likewise, SOSC shares three "smart rooms" with other departments in the College of Liberal Arts.

2019-2020:

The number of dedicated "smart rooms" for the Department of SOSC remains at five. In addition, SOSC continues to share three "smart rooms" with other departments in the College of Liberal Arts.

2020-2021:

The number of dedicated "smart rooms" for the Department of SOSC remains at five. Furthermore, SOSC continues to share three "smart rooms" with other departments in the College of Liberal Arts.

2021-2022:

During the 2021-2022 reporting period, there were no changes in the number of dedicated "smart rooms" for the Department of SOSC (five smart rooms). Finally, SOSC continues to share three "smart rooms" with other departments in the College of Liberal Arts.

2.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

The Department of SOSC worked closely with the Dean of COLA in an effort to maintain or expand upon the availability of smart rooms for faculty members who desire to use such a room when teaching their courses. Based upon an examination of departmental records, our department still assigns traditional classes in the "smart rooms" located in Kaufman 214, Kaufman 215, and Kaufman 216. Since the various Departments in COLA are also pursuing the use of "smart room" technology, our Department of SOSC is sharing three "smart rooms" with the Department of English and Foreign Languages and the Department of History. These rooms are located in Kaufman 207, Kaufman 217, and Kaufman 325. When comparing the present reporting data to the data from the 2016-2017 academic year, you can see that our department has increased from one shared "smart room" to three shared "smart rooms". Based upon future projections, it is anticipated that the demand for "smart room" technology will continue. With that being said, the department head will encourage departmental faculty members to actively pursue TASC and Gaming grants, when available, to purchase select technological equipment for their classrooms. In short, since the Department of Mass Communication has recently moved their offices and classes to Kaufman, it is a necessity to begin pursuing any opportunity or avenue which avails itself to expand the number of "smart rooms" in Kaufman Hall, for our department, and for COLA writ large.

2018-2019:

The Department of SOSC has the ability to use the following classrooms in Kaufman that have smart room technology: Kaufman 214, Kaufman 215, Kaufman 216, Kaufman 219, and Kaufman 220. Since the various departments in the College of Liberal Arts are also pursuing the use of "smart room" technology, our Department of SOSC is sharing the following "smart room" classrooms with the Department of History and with the Department of English and Foreign Languages: Kaufman 207, Kaufman 217, and Kaufman 325. Our plan for continuous improvement should include a concerted effort to obtain funds to purchase additional "smart room" technology for the classrooms in Kaufman Hall. By moving toward this "smart room" cutting edge, our students will be the beneficiaries of this technological advancement.

2019-2020:

During the current reporting period, the Department of SOSC has maintained the same smart room technology as the previous reporting period (Kaufman 214, Kaufman 215, Kaufman 216, Kaufman 219, and Kaufman 220). In addition, we continue to share "smart rooms" with the Department of History and Department of English and Foreign Languages (Kaufman 207, Kaufman 217, and Kaufman 325). Our plan for continuous improvement will be centered on utilizing Endowed Professorship funds to purchase additional "smart room" technology for the classrooms in Kaufman Hall.

2020-2021:

During the 2020-2021 reporting period, McNeese experienced a pandemic, two hurricanes, and a flooding event. At this present time, Kaufman Hall is closed due to damage suffered during the flood. In addition, the classes offered by the Department of SOSC during this reporting period were online. With respect to the smart room technology, the Department of SOSC has maintained the same smart room technology as the previous reporting period (Kaufman 214, Kaufman 215, Kaufman 216, Kaufman 219, and Kaufman 220). Likewise, we continue to share "smart rooms" with the Department of History and Department of English and Foreign Languages (Kaufman 207, Kaufman 217, and Kaufman 325). Once Kaufman Hall is reopened again, our plan for continuous improvement will focus on using some of the equipment funds from EP#56 to acquire additional "smart room" technology for the classrooms in Kaufman Hall.

2021-2022:

In analyzing and assessing the data for this current reporting period, the Department of SOSC has the same smart room technology as the previous reporting periods (Kaufman 214, Kaufman 215, Kaufman 216, Kaufman 219, and Kaufman 220). Furthermore, we continue to share "smart rooms" with the Department of History and the Department of English and Foreign Languages (Kaufman 207, Kaufman 217, and Kaufman 325). In terms of our plan for continuous improvement, we will utilize some of the

equipment funds from EP#56 to acquire additional "smart room" technology for the classrooms in Kaufman Hall.

Performance Objective 5 Enhance partnerships between the University and the community.

1 Assessment and Benchmark

Benchmark: A criminal justice faculty member is working with the Calcasieu Parish Sheriff's Office Aviation Unit as a reserve deputy to assist with disaster response and criminal investigations requiring aviation assets.

1.1 Data

2017-2018:

The Department of SOSOC continues to maintain its stay on the cutting edge of assisting and supporting local criminal justice agencies.

2018-2019:

Dr. Steve Thompson was sent for a week of training to be the aviation unit manager at the Calcasieu Parish Sheriff Office. In short, Dr. Thompson completed the training, and is considered an instructor pilot and chief pilot for CPSO.

2019-2020:

Dr. Thompson remains a vital contributor to the aviation unit at the Calcasieu Parish Sheriff's Office. In this particular vein, Dr. Thompson has assisted the CPSO on many crisis situations during the reporting period (i.e., criminal investigations, capturing fugitives, and locating persons for rescue in water environments). Finally, Dr. Thompson provided aviation services to survey storm damage after the two hurricanes.

2020-2021:

Dr. Thompson continues to serve in this role. There was a tragedy. The leader of the unit and close friend of Dr. Thompson was killed in plane crash in February 2021. Dr. Thompson's role was increased to be in charge of training for the unit. He continues to serve as a mission pilot as well from search, rescue, and criminal investigations. He is also recruiting other members to serve in the unit. Unit missions have expanded to other agencies in the state.

2021-2022:

During the 2021-2022 reporting period, Dr. Thompson provided his professional services to the Calcasieu Parish Sheriff's Office. In this particular vein, Dr. Thompson taught at the local Police Academy, and also embraced a training role in providing the necessary skills for the aviation unit at the Calcasieu Parish Sheriff's Office. Finally, Dr. Thompson provided use of force training for individuals within the Ward 3 Marshall's Office.

1.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

During the current reporting period, Dr. Thompson has documented many instances where he has assisted in investigations and/or fugitive apprehension. In this particular vein, Dr. Thompson was called out by the Calcasieu Parish Sheriff's Department to assist in apprehending a fleeing felon. Since Dr. Thompson is an instructor-pilot, he was asked by the Sheriff's Department to fly his plane over the Lake Street/Sallier Street area where the fleeing felon was assumed to be located. To make a long story short, the fleeing felon was captured by the Sheriff's Department. It is also important to note that Dr. Thompson has been made an Instructor-Pilot for the Calcasieu Parish Sheriff's Department. It is anticipated that this relationship between Dr. Thompson and the Sheriff's Department will remain steadfast and strong in the years to come.

2018-2019:

An analysis of the data reveals that Dr. Thompson has continued his involvement as an instructor pilot and chief pilot for the CPSO. Likewise, Dr. Thompson has been a participant in training to enhance his role as aviation unit manager at CPSO. The plan for continuous improvement will include an examination of the various areas of assistance that is provided by Dr. Thompson to the CPSO.

2019-2020:

In examining the data for this benchmark, it is evident the Dr. Thompson is playing a key role in providing

aviation services to the Calcasieu Parish Sheriff's Office. The plan for continuous improvement will center on broadening this influence to other areas within the CPSO, to include training law enforcement officers to become licensed pilots and/or back up pilots for emergencies.

2020-2021:

We will recruit and train new members of the unit. We will continue to work on safety improvements such as annual recurrent training for all members. We will continue to expand missions to other agencies in the state.

2021-2022:

As a result of the aviation training by Dr. Thompson, more individuals have become key contributors to this said unit. Furthermore, there is evidence that safety improvements (i.e., annual recurrent training) have occurred during the reporting period. Finally, the plan for continuous improvement involves the continued expansion of missions to other agencies, both on a local and state level.

2 Assessment and Benchmark

Benchmark: A criminal justice faculty member is a Board Member of the Louisiana Association of Compulsive Gambling.

2.1 Data

2017-2018:

The department continues to thrive in the area of providing evidence-based research to evaluate proposed policies which are designed to curtail the societal impacts from compulsive gambling.

2018-2019:

During the current reporting period, Dr. Steve Thompson attended quarterly meetings. Likewise, this particular compulsive gambling group opened a new in-patient facility and center in Shreveport, LA. Furthermore, the group is also handling a suicide prevention hotline. Finally, the group votes and approves the budget, advertising, etc.

2019-2020:

Dr. Thompson continues to remain an active Board member of the Louisiana Association of Compulsive Gambling. Furthermore, this association has adopted the duties of a suicide hotline.

2020-2021:

Dr. Thompson remains a board member for LACG. He takes part in decisions of the organization to include approving budget and expenditures.

2021-2022:

During the 2021-2022 period, Dr. Thompson was an active board member for the Louisiana Association of Compulsive Gambling. As a board member for LACG, Dr. Thompson is required to make important decisions that impact the budget and expenditures for LACG.

2.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

With regard to analyzing the data associated with this assessment, it can be said that Dr. Thompson has provided insight, knowledge, and wisdom to the Louisiana Association of Compulsive Gambling to assist them in developing a rational and sound policy which is designed to diminish the societal impact from compulsive gambling. In this particular vein, Dr. Thompson recently traveled to Shreveport for a board meeting to provide the board with evidence-based research to assist them in their evaluation of proposed compulsive gambling policies. It is anticipated that this relationship between Dr. Thompson and the board will continue to flourish.

2018-2019:

An examination of the data reveals that there is an increase in gambling problems and that this compulsive gambling group offering one of the available treatment options. The plan for continuous improvement will include the reporting of empirical data to reveal the fruitful results of the rational and sound policies being developed by this group.

2019-2020:

With regard to this benchmark, there is no empirical data to report to illustrate the effectiveness of the policies and procedures that have been implemented by the Louisiana Association of Compulsive Gambling. The plan for continuous improvement will include an effort to monitor any empirical assessment of the policies that have been put into place by the aforementioned group. It is anticipated that COVID will increase the need for suicide prevention efforts. Furthermore, there is the possibility of sports betting become legal in Louisiana which could increase the need for the hotline. Finally, if the preceding sports betting become a reality, then our plan for continuous improvement will include a reporting of the training that will be adopted to assure that the Association is prepared for the new gambling service and subsequent addiction problems and issues.

2020-2021:

The LACG is continually monitoring the effectiveness of compulsive gambling treatments and is expanding services to other states and adding additional services such as suicide prevention hotline and drug addiction hotline.

2021-2022:

An analysis of Dr. Thompson's participation with Louisiana Association with Compulsive Gambling reveals that there has been an increase in the number of individuals that are seeking treatment for gambling and other related services. The plan for continuous improvement will center on evaluating the effectiveness of these treatments for the residents of Louisiana.

3 Assessment and Benchmark

Benchmark: The criminal justice program is working with a committee on improving minority and police relations.

3.1 Data

2017-2018:

CJUS faculty members are actively involved with the community in an attempt to improve minority and police relations.

2018-2019:

During this current reporting period, Dr. Steve Thompson submitted a formal complaint on excessive force upon a minority. Likewise, Dr. Thompson is assisting in multiple lawsuits against minorities. Furthermore, Dr. Thompson trains officers in community relations issues.

2019-2020:

During this current reporting period, both Dr. Clark and Dr. Thompson have been contacted by Pastor Julian K. Woods of Starlight Baptist Church with regard to us examining the Use of Force guidelines that are being used by the Lake Charles Police Department. Pastor Woods and the Baptist Ministers Union of Lake Charles believe that the aforementioned Use of Force guidelines and procedures of the LCPD are not fair or just as it applies to minority population groups in Calcasieu Parish. Finally, Dr. Thompson has met privately with city officials about concerns caused from the discovery of Constitutional Rights violations by police officers and subsequent response to those concerns.

2020-2021:

The organization has been dormant due to COVID.

2021-2022:

During the 2021-2022 reporting period, the organization has remained dormant.

3.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

CJUS faculty members, Dr. Clark and Dr. Thompson, have attended several meetings and have provided expert guidance to community leaders as to what steps can be taken to improve the relationship between the police and minority residents of Southwest Louisiana. In this particular vein, two community meetings have been held at Starlight Baptist Church, located at 1523 4th Avenue, in Lake Charles. These meetings were attended by important community leaders (i.e., representatives from the Mayor's Office, Police

Department, politicians, religious leaders) and by Dr. Clark. Given the rhetoric being espoused at these meetings, it is evident that the CJUS program at McNeese State University is in a position where they have the opportunity to provide evidence-based best practices which can be used to improve the state of the relationship between the police and the residents residing in Southwest Louisiana.

2018-2019:

An analysis of the data reveals that the minority and police relations are improving as evidenced by peaceful protests in response to the shooting of a minority by local law enforcement. The plan for continuous improvement will include an effort to reach out to the local law enforcement agencies with a purpose centered on providing evidence-based practices which can be useful in improving the relationship between police departments and the citizens they serve.

2019-2020:

As evidenced by the reporting data, faculty members within the Department of Social Sciences are assisting members of the community in an effort to enhance the relationship between police departments and the citizens they serve. The plan for continuous improvement will focus on broadening the effort to improve the aforementioned relationship. In short, we will be motivated to monitor race relations and will direct our concerns to the City Attorney's Office and Mayor's Office. Furthermore, our efforts will include establishing a direct line of communication with city administrators and implementing a citizen review board.

2020-2021:

No plans or discussion due to COVID.

2021-2022:

Since the committee was dormant during the 2021-2022 reporting period, we are not able to provide any analysis of data or advocate any plan for continuous improvement.

4 Assessment and Benchmark

Benchmark: A criminal justice faculty member is the Chairman of the Board of the Louisiana Justice Integrity Fund, which is committed to reducing public corruption and improving the efficiency of the criminal justice system.

4.1 Data

2017-2018:

To curtail the extent of public corruption in the State of Louisiana and to improve the efficiency of the criminal justice system in our state, the Metropolitan Crime Commission is committed to provide statistics and/or data to the Louisiana Justice Integrity Fund. Dr. Thompson, a CJUS faculty member, is the Chairman of the Board of the aforementioned Integrity Fund. As evidenced by the data provided below, the Louisiana Justice Integrity Fund has a steadfast purpose to diminish public corruption in the State of Louisiana.

2018-2019:

According to Dr. Steve Thompson, the Louisiana Justice Integrity Fund made a \$5,000 donation to the local women's shelter. In addition, the aforementioned group is pending data from the research they funded.

2019-2020:

Due to extensive litigation, the organization has been dormant in the past year.

2020-2021:

The LJIF has been shut down. The implementation of research funding has continued and Dr. Thompson monitors the progress. Publication of the research is pending soon and it will give local agencies pertinent data for policy changes and/or expansion of existing policies.

2021-2022:

The LJIF remains shut down. Dr. Thompson is continuing to monitor the progress. Finally, as of yet, there has not been any publication of research that will give local agencies relevant data for policy changes and/or expansion of existing policies.

4.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

The Louisiana Justice Integrity Fund has committed \$30,000 to prevent public corruption in the State of Louisiana. Likewise, they have devoted \$10,000 to the Oasis Women Shelter. Finally, based upon the work on the Metropolitan Crime Commission and the Louisiana Integrity Fund, a local law enforcement officer was recently convicted of a felony associated with his work with the LACE program. As the Metropolitan Crime Commission continues to monitor data associated with the administration of justice (both locally and statewide), you can rest assured that more acts of malfeasance will be revealed.

2018-2019:

The analysis of data reveals that the Louisiana Justice Integrity Fund is pending data from the research that they funded. This particular research is being conducted by the Metropolitan Crime Commission. The plan for continuous improvement will include assessing the results that will be provided by the Metropolitan Crime Commission. Furthermore, an effort will be made to track the donations made by the Louisiana Justice Integrity Fund.

2019-2020:

The plan for continuous improvement will involve the monitoring the release of data from the research that this organization has funded.

2020-2021:

The research will continue, funded by \$1,000,000 for at least 4 years into the future. Annual reports are to be issued to monitor outcomes of policies.

2021-2022:

According to Dr. Thompson, the Metropolitan Crime Commission will continue to conduct research into the effectiveness of the policies that this said commission has implemented. As of this writing, there is not any annual report that has been released to assess the methodological strategies that have been adopted by the Metropolitan Crime Commission. The plan for continuous improvement will center on monitoring the release of this said data.

5 Assessment and Benchmark

Benchmark: A criminal justice member is consulting and instructing for SWLA criminal justice agencies.

5.1 Data

2017-2018:

A CJUS faculty member, Dr. Steve Thompson, is teaching criminal law at the SWLA Law Enforcement academy. The course will be offered as a McNeese State University CJUS course and is intended to recruit students to finish their CJUS degree. The fall 2018 semester will be the first time it is taught using this methodology. Each student who participates will receive 18 semester hours of credit. .

2018-2019:

During this current reporting period, Dr. Steve Thompson continued his teaching at the SWLA Law Enforcement Academy. Likewise, Dr. Thompson has consulted in many criminal justice cases. For instance, Dr. Thompson assisted the local public defender's office that led to the acquittal of an innocent man. Furthermore, Dr. Thompson assisted the district attorney's office on a death penalty case.

2019-2020:

Dr. Steve Thompson continues to teach at the SWLA Law Enforcement Academy. Furthermore, he has consulted on numerous cases that have resulted in the filing of criminal charges and in the dropping of criminal charges.

2020-2021:

Dr. Thompson is instructing at the SWLA police academy. He is also instructing the reserve academy. He has been asked to provide de-escalation training for local agencies. He completed an instructor course on de-escalation in Florida. He is scheduled to provide the training to the Ward 3 Marshall's office this Fall.

2021-2022:

Dr. Thompson continues to be an instructor for the SWLA police academy. In addition, Dr. Thompson utilized

the knowledge gleaned from his de-escalation training in Florida to train individuals within the Ward 3 Marshall's Office.

5.1.1 Analysis of Data and Plan for Continuous Improvement

2017-2018:

Based upon the involvement of CJUS faculty members in the community, it is anticipated that the student enrollment in the CJUS programs, both B.S. and M.S. will continue to increase in future academic years.

2018-2019:

An examination of the data reveals that our B.S. in CJUS student enrollment has experienced a slight decrease (7.5 %), while our M.S. in CJUS enrollment numbers have experienced a slight increase (8.2%). These percentages are based on an examination of the fall 2018 and fall 2019 enrollment numbers provided by the MSU Registrar's Office. The plan for continuous improvement will include a focus on recruiting and retaining students that have a desire to pursue degrees in CJUS, B.S. and M.S.

2019-2020:

In analyzing the data for this reporting period, it is found that Dr. Thompson has done an outstanding job of engaging himself with a variety of criminal justice entities that exist in southwest Louisiana. To enhance his interactions with individuals within our local community, Dr. Thompson has joined Nashi, an anti-human trafficking group in Canada. Dr. Thompson was a guest speaker for the group in 2019. He has been invited back as the keynote speaker at their main annual event upon the lifting of the COVID restrictions. Furthermore, Dr. Thompson has provided funding to support a safe house for underage girls in Northwestern Ukraine. The funding provided a swimming pool for the hot summers and a playground for the girls and surrounding community. The home houses 16 girls ages 6-16. They were diverted/saved from a life in human sex trafficking. Dr. Thompson visited the safe house in 2019 and will return in 2021 or 2022. Dr. Thompson considers these efforts a partnership with our Canadian counterparts. Furthermore, Dr. Thompson while visiting Canada, spent time with Canadian police learning about international efforts to combat sex trafficking of children. These concepts are shared with police academy cadets in the academy to increase knowledge of human trafficking issues. The plan for continuous improvement will center on encouraging Dr. Thompson to work with other police academy instructors to assure consistent training in compliance with new cases that are released by appellate courts.

2020-2021:

De-escalation training courses are to be increased and available to all agencies in SWLA. Dr. Thompson is providing this training at no charge. Dr. Thompson will continue to teach all aspiring police officers who are seeking Louisiana POST certification at the police academy. In terms of human trafficking, Dr. Thompson has become a member, keynote speaker, and sponsor of NASHI. NASHI is a Canadian organization in Canada that works to rescue and provide a safe house for underage girls rescued from human sex trafficking. The home currently houses 16 underage girls in Europe. Dr. Thompson visited the home and saw first hand how the girls have been saved and are cared for. Dr. Thompson will return to Europe in the summer of 2022 and continues to monitor the progress of the home remotely via ZOOM meetings. Dr. Thompson will be a keynote speaker in Saskatoon Canada for the annual fund raiser for the home in the Spring of 2022.

2021-2022:

During the 2021-2022 reporting period, Dr. Thompson provided POST certification training for individuals at the police academy. Likewise, Dr. Thompson has maintained his interest in analyzing and assessing the human trafficking social problem that exists in our world. Finally, during the Spring 2022 semester, Dr. Thompson was a keynote speaker for the annual fundraiser for a safe house in Saskatoon, Canada.
